

The image is a promotional graphic for the game 'Monument Builders: Rushmore'. It features a stylized, cartoonish illustration of the four presidential faces of Mount Rushmore carved into a rocky cliff. The faces are depicted with exaggerated features and are set against a bright blue sky with a few wispy clouds. The rock itself is a mix of tan and brown hues, with some green foliage visible at the base and sides. In the foreground, the game's title is prominently displayed in a bold, 3D font. 'MONUMENT' is in yellow with a black outline, 'BUILDERS' is in red with a black outline, and 'RUSHMORE' is in a light beige color with a black outline. The text is arranged in three lines, with 'MONUMENT' on top, 'BUILDERS' in the middle, and 'RUSHMORE' at the bottom. The overall style is playful and engaging, typical of a game cover or promotional art.

Wright,2024-07-02 A brilliant gunslinger leaves a decimated Earth to pursue the promise of alien intelligence in this highly impressive sci fi debut Kirkus Reviews Hundreds of years in the future after the collapse of the Western world young Menelaus Illation Montrose grows up in what was once Texas as a gunslinging duelist for hire But Montrose is also a mathematical genius and a romantic who dreams of a future in which humanity rises from the ashes to take its place among

the stars The chance to help usher in that future comes when Montrose is recruited for a manned interstellar mission to investigate an artifact of alien origin Known as the Monument the artifact is inscribed with data so complex only a posthuman mind can decipher it So Montrose injects himself with a dangerous drug designed to boost his already formidable intellect It has the desired effect but also drives him mad Nearly two centuries later his sanity restored Montrose is awakened from cryo suspension with no memory of his posthuman actions to find Earth transformed in strange and disturbing ways and learns that the Monument still carries a secret he must decode one that will define humanity's true destiny *War Monuments, Public Patriotism, and Bereavement in Russia, 1905-2015* Aaron J. Cohen, 2020-06-23 This study analyzes how public bereavement became cemented into the broad geography of Russian culture with the appearance of experiential and local memorials in the 1960s after a half century of instability contestation and absence The author shows how monument builders responded to a need from the population to share an accessible war experience apart from the exclusive Bolshevik memorial culture He argues that this development of war commemoration has amplified the role of war hero memorialization as an anchor of public stability and social solidarity in Putin's Russia where there is little consensus about the past present or future *Monuments for Posterity* Antony Kalashnikov, 2023-04-15 *Monuments for Posterity* challenges the common assumption that Stalinist monuments were constructed with an immediate propagandistic function arguing instead that they were designed to memorialize the present for an imagined posterity In this respect even while pursuing its monument building program with a singular ruthlessness and on an unprecedented scale the Stalinist regime was broadly in step with transnational monument building trends of the era and their undergirding cultural dynamics By integrating approaches from cultural history art criticism and memory studies along with previously unexplored archival material Antony Kalashnikov examines the origin and implementation of the Stalinist monument building program from the perspective of its goal to immortalize the memory of the era He analyzes how this objective affected the design and composition of Stalinist monuments what cultural factors prompted the sudden and powerful yearning to be remembered and most importantly what the culture of self commemoration revealed about changing outlooks on the future both in the Soviet Union and beyond its borders *Monuments for Posterity* shifts the perspective from monuments political ideological content to the desire to be remembered and prompts a much needed reconsideration of the supposed uniqueness of both Stalinist aesthetics and the temporal culture that they expressed Many Stalinist monuments still stand prominently in postsocialist cityscapes and remain the subject of continual heated political controversy Kalashnikov makes manifest monuments intentional attempts to seduce us the posterity for whom they were built
