The Mugging Morton M. Hunt, 1973 **The Philosophy of Force** Christopher J Finlay, 2025-05-06 The Philosophy of Force presents a highly original republican theory of just war Taking its inspiration from historic wars against slavery and colonialism it offers an account of the ethics of defensive violence shaped around the perspective of those oppressed by empire and other forms of social and political domination Whereas the most intuitive cases of just war are often thought to be those fought against mass killing more can be learnt about the ethics of violence by focusing on wars against mass domination wars like the slave revolt in Saint Domingue that gave birth to Haiti and the American Civil War s emancipation of enslaved people By contrast with liberal cosmopolitan ethics this book argues that the right analytical starting point for thinking about war and political violence is the use of lethal force to defend against enslavement not the defence of lives against attempted murder Enslavement highlights the importance of dominating power as a facet of all violent threats and illuminates more fully than other types of threat the intimate relationships between violence vulnerability and social domination Building a republican account of war ethics around this insight helps identify distinctively political dimensions of violence that are otherwise apt to be overlooked It provides a compelling basis for understanding the legitimacy of armed defence against a wide range of threats some lethal some not Discovering disorder: young people and delinquency The Open University, This 8 hour free course explored two approaches to understanding juvenile delinquency the psychological approach and the sociological approach **The Postcolonial Jane Austen** You-Me Park, Rajeswari Sunder Rajan, 2015-03-24 This volume offers a unique contribution to both postcolonial studies and Austen scholarship by examining the texts to illumine nineteenth century attitudes to colonialism and the expanding Empire revealing a new range of interpretations of Austen s work each shaped by the critic s particular context exploring the ways in which the study of Austen s novels raises fresh issues for post colonial criticism Bringing together work by highly respected critics from four continents and a range of disciplines this newly paperbacked volume allows sometimes surprising and always fascinating new insights into some of the most frequently studied and best loved novels in the English language **CCCS Selected Working Papers** Ann Gray, Jan Campbell, Mark Erickson, Stuart Hanson, Helen Wood, 2007-11-07 This collection of classic essays focuses on the theoretical frameworks that informed the work of the Centre for Contemporary Cultural Studies at the University of Birmingham the methodologies and working practices that the Centre developed for conducting academic research and examples of the studies carried out under the auspices of the Centre This volume is split into seven thematic sections that are introduced by key academics working in the field of cultural studies and includes a preface by eminent scholar Stuart Hall The thematic sections are Literature and Society Popular Culture and Youth Subculture Media Women s Studies and Feminism Race History Education and Work **Understanding Stuart Hall** Helen Davis, 2004-04-10 Tracing the development of one of the most influential and respected figures within cultural studies Helen Davis focuses on Stuart

Hall's writings over a period of nearly 50 years offering students and academics a cogent and exploratory route through complex and overlapping areas of analysis *An Invitation to Ethnomethodology* David Francis, Stephen Hester, 2004-06-22 This book offers a new and rigorous approach to observational sociology that is grounded in ethnomethodology and conversation analysis Throughout the authors encourage the reader to explore the social world at first hand beginning with the immediate family context and then moving out into the public realm and organizational life Examples of observational analysis are given with reference to topic areas such as family life education medicine crime and deviance and the reader is shown how to conduct their own inquiries using methods and materials that are readily and ordinarily available Drawing on both original material and published studies Francis and Hester demonstrate how observational sociology can be carried out with an attention to detail typically overlooked by more traditional ethnographic approaches **Enduring Trauma**
