Potts, 2015-05-11 Winner of the Homer D Babbidge Jr 2016 In Wesleyan University 1910 1970 David B Potts presents an engaging story that includes a measured departure from denominational identity an enterprising acquisition of fabulous wealth and a burst of enthusiastic aspirations that initiated an era of financial stress Threaded through these episodes is a commitment to social service that is rooted in Methodism and clothed in more humanistic garb after World War II Potts gives an unprecedented level of attention to the board of trustees and finances These closely related components are now clearly introduced as major shaping forces in the development of American higher education Extensive examination is also given to student and faculty roles in building and altering institutional identity Threaded throughout these probes within in the analytical narrative is a close look at the waxing and waning of presidential leadership All these developments as is particularly evident in the areas of student demography and faculty compensation travel on a pathway through middle class America Within this broad context Wesleyan becomes a window on how the nation s liberal arts colleges survived and thrived during the last century This book concludes the author s analysis of changes in institutional identities that shaped the narrative for his widely praised first volume Wesleyan University 1831 1910 Collegiate Enterprise in New England His current fully evidenced sequel supplies helpful insights and reference points as we encounter the present fiscal strain in higher education and the related debates on institutional mission *Biographical Directory of the United States Congress, 1774-2005* United States. Destroying Sanctuary Sandra L. Bloom, Brian Farragher, 2010-10-28 For the last thirty years the nation s mental health and social service systems have been under relentless assault with dramatically rising costs and the fragmentation of service delivery rendering them incapable of ensuring the safety security and recovery of their clients The resulting organizational trauma both mirrors and magnifies the trauma related problems their clients seek relief from Just as the lives of people exposed to chronic trauma and abuse become organized around the traumatic experience so too have our social service systems become organized around the recurrent stress of trying to do more under greater pressure they become crisis oriented authoritarian disempowered and demoralized often living in the present moment haunted by the past and unable to plan for the future Complex interactions among traumatized clients stressed staff pressured organizations and a social and economic climate that is often hostile to recovery efforts recreate the very experiences that have proven so toxic to clients in the first place Healing is possible for these clients if they enter helping protective environments yet toxic stress has destroyed the sanctuary that our systems are designed to provide This thoughtful impassioned critique of business as usual begins to outline a vision for transforming our mental health and social service systems Linking trauma theory to

organizational function Destroying Sanctuary provides a framework for creating truly trauma informed services The organizational change method that has become known as the Sanctuary Model lays the groundwork for establishing safe havens for individual and organizational recovery The goals are practical improve clinical outcomes increase staff satisfaction and health increase leadership competence and develop a technology for creating and sustaining healthier systems Only in this way can our mental health and social service systems become empowered to make a more effective contribution to the overall health of the nation Destroying Sanctuary is a stirring call for reform and recovery required reading for anyone concerned with removing the formidable barriers to mental health and social services from clinicians and administrators to consumer advocates
