

the music of Stockhausen

an Introduction

Jonathan Harvey

This important and innovative study of Stockhausen's music makes available for the first time systematic analyses of his works. Dr. Jonathan Harvey, himself a distinguished composer and Senior Lecturer in Music in the University of Southampton, comprehensively surveys the periods into which Stockhausen's music falls, from the early post-Webern works and group-form works, of which *Gruppo* is a famous and brilliant example, to the subsequent moment-form works and the later period, which includes text-works (like *Aerden sieben Tage*) and works like *Hymnen*, in which the composer would seem to be communicating on a quasi-mystical level. Stockhausen himself has written: 'What I'm trying to do, as far as I'm aware of it, is to produce models that herald the stage after destruction. I'm trying to go beyond collage, heterogeneity and pluralism, and to find unity; to produce music that brings us to the essential ONE. And that is going to be badly needed during the time of shocks and disasters that is going to come.' Stockhausen is not only a part of our immediate culture but also a highly formative influence on it. Dr. Harvey's book examines in methodical detail a selection of this fascinating and multifaceted creator's compositions and also considers the place his aesthetic beliefs occupy in the German tradition and discusses their value. This is an indispensable book for the serious student of twentieth-century music and for anyone else with a lively interest in the new forms and sonorities of the present day, their technology and the creative doctrines which gave birth to them.

Life and Work

KARL H. WÜRNER

*introduced, translated and edited by
Bill Hopkins*

Basing his work on conversations with the composer, Karl Würner puts into plain language the ideas behind Stockhausen's new musical forms, examines the development of electronic music and explains the spatial location in new music; the broader aspects of the composer's place in musical history and in the society in which he works are also considered. The book also includes the composer's own notes on his works covering the period 1951-1969 (*Kreuzspiel* to *Karzewellen aus Beethoven*). A catalogue of works, listing their first performances and their various recordings is also included.

First published in 1963, *Stockhausen: Life and Work* was the first full-length study of this important composer. This new edition, expertly translated and edited by Bill Hopkins, has been considerably enlarged and revised with the assistance of Stockhausen himself.
