

The Miner The Old West Series

**Catherine Holder Spude, Robin O.
Mills, Karl Gurcke**

The Miner The Old West Series:

Great Murder Trials of the Old West Johnny D. Boggs, 2002-11-30 Not every Wild West disagreement was settled with guns on a dusty street Even on the frontier accused criminals were entitled to a fair trial Author Johnny Boggs recreates and analyzes some of the wildest murder trials of these times The American Coal Miner United States. President's Commission on Coal, 1980 At the conclusion of the 110 day coal miners strike in March of 1978 President Carter appointed John D Jay Rockefeller IV to head up the first major federal study of coal mining in America in three decades One of the main tasks of the President's Commission on Coal PCC was in the words of Ben Franklin who covers coal for the New York Times to search out the roots of labor management bitterness that not only prolonged the record walkout but for decades has resulted in strikes every three years To President Carter who expressed a desire to place greater emphasis on domestically produced coal as an energy source and to business interests there were questions of great importance review essay by Alan Banks Appalachian Journal SUMMER 1982 Vol 9 No 4 SUMMER 1982 pp 295 301 **The American West** Robert V. Hine, John Mack Faragher, 2000-01-01 Two eminent historians Robert V Hine and John Mack Faragher present the American West as both frontier and region real and imagined old and new and they show how men and women of all ethnic groups were affected when different cultures met and clashed Their concise and engaging survey of frontier history traces the story from the first Columbian contacts between Indians and Europeans to the multicultural encounters of the modern Southwest The book attunes us to the voices of the frontier's many diverse peoples Indians struggling to defend their homelands and searching for a way to live with colonialism the men and women who became immigrants and colonists from all over the world African Americans both slave and free and borderland migrants from Mexico Canada and Asian lands Profusely illustrated with contemporary drawings posters and photographs and written in lively and accessible prose the book not only presents a panoramic view of historical events and characters but also provides fascinating details about such topics as western landscapes environmental movements literature visual arts and film Following in the tradition of Hine's earlier acclaimed work *The American West An Interpretive History* this volume will be an essential resource for scholars students and general readers *The Chronicles of the Old West - 4 Historical Books Exploring the Wild Past of the American West* Emerson Hough, 2024-01-15 In *The Chronicles of the Old West* Emerson Hough invites readers into a vividly rendered tapestry of the American frontier exploring its triumphs tribulations and myths through four interconnected historical narratives Hough employs a rich descriptive literary style that reflects the ruggedness of the landscape and the indomitable spirit of its inhabitants weaving together personal stories with broader historical contexts The book captures the essence of the Wild West filled with cowboys outlaws and pioneers while maintaining a critical perspective on the complexities of American expansionism and cultural conflict of the time Emerson Hough a prominent American author and journalist of the early 20th century was deeply influenced by his experiences as a young man in the West which informed his understanding of

its societal dynamics and struggles His extensive travels and firsthand observations provided him with a wealth of material to draw from as he sought to convey both the romance and the harsh realities of frontier life Hough's dedication to historical accuracy and nuanced storytelling reflects a commitment to preserving the legacy of this vital chapter in American history This compelling collection is not only an essential reading for enthusiasts of Western literature but also for anyone seeking to understand the roots of American identity Hough's masterful storytelling combined with rich historical detail makes *The Chronicles of the Old West* a vital contribution to the literature of the American experience inviting readers to engage with the complexities of a bygone era

Eldorado! Catherine Holder Spude, Robin O. Mills, Karl Gurcke, 2011-12-01 When gold was discovered in the far northern regions of Alaska and the Yukon in the late nineteenth century thousands of individuals headed north to strike it rich This massive movement required a vast network of supplies and services and brought even more people north to manage and fulfill those needs In this volume archaeologists historians and ethnologists discuss their interlinking studies of the towns trails and mining districts that figured in the northern gold rushes including the first sustained account of the archaeology of twentieth century gold mining sites in Alaska or the Yukon The authors explore various parts of this extensive settlement and supply system coastal towns that funneled goods inland from ships the famous Chilkoot Trail over which tens of thousands of gold seekers trod a host of retail oriented sites that supported prospectors and transferred goods through the system and actual camps on the creeks where gold was extracted from the ground Discussing individual cases in terms of settlement patterns and archaeological assemblages the essays shed light on issues of interest to students of gender transience and site abandonment behavior Further commentary places the archaeology of the Far North within the larger context of early twentieth century industrialized European American society

Southwestern New Mexico Mining Towns Jane Bardal, 2011 Spanish and American prospectors discovered gold silver and copper mines in southwestern New Mexico in the 1800s This volume explores the further development of these mining operations into the early 1900s During this time period improvements in technology made mining profitable and eastern corporations invested in New Mexico mines World War I created a demand for copper and this era saw the development of paternalistic company towns Miners faced difficult and dangerous working conditions but their lives improved compared to previous generations Many of the towns and the people in southwestern New Mexico owed their livelihood in whole or in part to mining Some of these places have disappeared entirely some are ghost towns and others are thriving communities

A Companion to the American West William Deverell, 2008-04-15 *A Companion to the American West* is a rigorous illuminating introduction to the history of the American West Twenty five essays by expert scholars synthesize the best and most provocative work in the field and provide a comprehensive overview of themes and historiography Covers the culture politics and environment of the American West through periods of migration settlement and modernization Discusses Native Americans and their conflicts and integration with American settlers

Encyclopedia of Immigration and Migration in the American West Gordon Morris

Bakken,Alexandra Kindell,2006-02-24 Through sweeping entries focused biographies community histories economic enterprise analysis and demographic studies this Encyclopedia presents the tapestry of the West and its population during various periods of migration Examines the settling of the West and includes coverage of movements of American Indians African Americans and the often forgotten role of women in the West s development *The Rugged Miner: Life in the Old West* Pasquale De Marco,2025-04-10 In the untamed lands of the Old West where dreams of wealth and adventure collided the rugged miners embarked on a relentless pursuit of hidden treasures beneath the earth s surface Their stories etched in the annals of history tell of unwavering determination backbreaking labor and the indomitable spirit that shaped the American frontier This captivating book delves into the rich history of mining in the Old West shedding light on the lives and experiences of these dauntless individuals who ventured into treacherous terrains in search of gold silver and copper From the early prospectors who braved the unknown to the bustling mining camps that sprang up like mushrooms across the frontier this book paints a vivid picture of an era marked by both triumph and tragedy Through meticulously researched accounts and captivating anecdotes readers will gain insights into the challenges and hardships faced by miners in the Old West They will learn about the tools and techniques used to extract precious metals from the earth the dangers that lurked in the dark recesses of mines and the environmental impact of this relentless pursuit of wealth Beyond the historical narrative this book also explores the cultural and social aspects of mining in the Old West It delves into the lives of miners their families and the communities that formed around these remote outposts Readers will discover the camaraderie and resilience that bound these individuals together as well as the struggles they faced in a harsh and unforgiving environment With vivid descriptions and compelling storytelling this book brings to life the era of mining in the Old West It is a testament to the indomitable spirit of those who dared to venture into the unknown a chronicle of their triumphs and heartbreaks and a reminder of the enduring legacy they left behind If you like this book write a review on google books *Visions of the American West* Gerald F. Kreyche,2014-07-11 Countless studies of the American West have been written from the viewpoint of history psychology sociology and anthropology But the West has seldom been written about with the reflective pen of a philosopher Offering more than a fresh retelling in thoroughly human terms of the major historical events of the nineteenth century West Gerald Kreyche also leads the reader in a search for the spirit of the West itself That spirit was one with the American Dream which offered freedom individualism and self sufficiency to those strong enough and gutsy enough to heed the call of Manifest Destiny Although the West was and is the most American part of America itself its natural wonders its spacious grandeur its myths and mystique have captured the hearts and imaginations of people the world over We have all experienced the quickened pulse at the mention of things indelibly western tumbleweed mountain men high plains cowboys and Indians sod houses coyotes and grizzlies And who doesn t react to such bigger than life figures as Jim Bridger Buffalo Bill George Armstrong Custer Sitting Bull and Crazy Horse The personal humdrum of our times rapidly disappears when through

the magic of western films TV shows and books we vicariously lose ourselves and then find ourselves in the American West of a bygone time The West then produced a quasi separate culture And as each culture must it gave birth to its own ethos its own special character its own tone and set of guiding beliefs Kreyche contends that in the process of westering the veneer of the sophisticated easterner was sloughed off leaving in sharp outline the frontiersman and the pioneer In their own manner these men and women produced a new species of homo americanus
