The Miracle On Washington Square:

The Miracle on Washington Square Joan Marans Dim, Nancy Murphy Cricco, 2001-01-01 At the millennium one wonders What would the founders of New York University think of the modern rendering of their great notion Could they have even in their wildest dreams envisioned a University of such complexity of such spirit of such immense reach and resource while still fulfilling the determined destiny of its founders More than likely they would be amazed and proud to see how much their dream has been realized especially considering the numerous travails New York University has weathered The reasons for this Miracle on Washington Square are complicated and many Without question however the University s recent successes rest in great part on the shoulders of the able leaders who have led the University especially during the past forty years These men and women with a firm and focused grasp on the University s direction had the courage to make critical even painful choices in the quest for a secure and healthy future To mark the millennium and the University s many achievements this volume provides a pictorial panorama of the way we were the way we are and the way we hope to be The real story is in the faces Look at them Study them The photographs are a testament to the dreams ideas and convictions behind the contributions New York University has made and will ever continue to make to the development and advancement of knowledge

argues all of the Park's visitors help keep the park safe and lively The Taming of New York's Washington Square is an engaging and entertaining look at a surprisingly safe space in the heart of Manhattan Classical New York Elizabeth Macaulay-Lewis, Matthew McGowan, 2021-05-20 Essays on the historical Greco Roman influence on the evolving architectural landscape of New York City During its rise from capital of an upstart nation to global metropolis the visual language of Greek and Roman antiquity played a formative role in the development of New York's art and architecture This compilation of essays offers a survey of diverse reinterpretations of classical forms in some of the city's most iconic buildings public monuments and civic spaces Classical New York examines the influence of Greco Roman thought and design from the Greek Revival of the late eighteenth and early nineteenth centuries through the late nineteenth century American Renaissance and Beaux Arts period and into the twentieth century's Art Deco At every juncture New Yorkers looked to the classical past for knowledge and inspiration in seeking out new ways to cultivate a civic identity and to structure their public and private spaces Specialists from a range of disciplines archaeology architectural history art history classics and history focus on how classical art and architecture are repurposed to help shape many of New York City's most evocative buildings and works of art Federal Hall evoked the Parthenon as an architectural and democratic model the Pantheon served as a model for the creation of libraries at New York University and Columbia University Pennsylvania Station derived its form from the Baths of Caracalla and Atlas and Prometheus of Rockefeller Center recast ancient myths in a new light during the Great Depression This examination of post Revolutionary art politics and philosophy enriches the conversation about how we shape space be it civic religious academic theatrical or domestic and how we make use of that space and the objects in it *Denver's Washington Park* Sarah O. Our American Theatre Oliver Martin Sayler, 1923

NYU'S Stern School of Business Abraham L Gitlow, 1995-06-01 American business schools from their inception in the 1880s have grown dramatically both in quality and in numbers Regarded as late as the 1950s as essentially vocational schools whose role in academia was still to be resolved they are now among the most respected professional schools in the university community In recent decades this increase in prestige has been matched by the growth of both Bachelor's and MBA programs The forces and events shaping this dramatic rise in importance have been recounted by Dean Emeritus of New York University's Stern School of Business Abraham L Gitlow He brings his 45 years of experience as a faculty member at the Stern School to bear as he analyzes the educational and philosophical issues and tensions that marked the history of the school and of American higher education in general in the twentieth century

When For-Profit Meets Nonprofit

Jared Bleak, 2017-09-25 This study addresses the increasing tumult over the commercialization of higher education a battle over profit and principle money and mission While many issues in higher education encompass the mission and values of the university the operation of for-profit subsidiaries by nonprofit universities provides the potential for an especially contentious clash Some faculty have been especially vocal in this debate claiming that the culture of the academy is being irreparably altered as traditional values are being replaced by a corporate style of management or by some hybrid By answering the questions of why for-profit subsidiaries of nonprofit universities were created how they are governed and managed and what

the nature of the relationship with their nonprofit parent is this book contributes to a better understanding of the larger controversy over whether universities have become too business like too market oriented and whether they have sold their souls and values in the process In essence the book provides a window into whether it is possible to do business like a business a trend afoot in the academy and still retain allegiance to core values
