The Monuments Of Aksum An Illustrated Account:

The Monuments of Aksum Enno Littmann, Daniel Krencker, 1997 The ancient Ethiopian capital at Aksum in Tigray is one of Africa's most spectacular archaeological sites. During the first seven centuries AD it was the metropolis of a major civilisation whose influence extended far beyond its homeland. The first and only comprehensive attempt at recording Aksum's monuments—huge carved stelae, the foundations of elaborate stone palaces and underground tombs—was made in 1906 by the Deutsche Aksum Expedition and the results were published in 1913. This book is a translation of their report, now extremely rare, with a chapter on more recent discoveries.

Aksum and Nubia George Hatke, 2013-01-07 Aksum and Nubia assembles and analyzes the textual and archaeological evidence of interaction between Nubia and the Ethiopian kingdom of Aksum, focusing primarily on the fourth century CE. Although ancient Nubia and Ethiopia have been the subject of a growing number of studies in recent years, little attention has been given to contact between these two regions. Hatke argues that ancient Northeast Africa cannot be treated as a unified area politically, economically, or culturally. Rather, Nubia and Ethiopia developed within very different regional spheres of interaction, as a result of which the Nubian kingdom of Kush came to focus its energies on the Nile Valley, relying on this as its main route of contact with the outside world, while Aksum was oriented towards the Red Sea and Arabia. In this way, Aksum and Kush coexisted in peace for most of their history, and such contact as they maintained with each other was limited to small-scale commerce. Only in the fourth century CE did Aksum take up arms against Kush, and even then the conflict seems to have been related mainly to security issues on Aksum's western frontier. Although Aksum never managed to hold onto Kush for long, much less dealt the final death blow to the Nubian kingdom, as is often believed, claims to Kush continued to play a role in Aksumite royal ideology as late as the sixth century. Aksum and Nubia critically examines the extent to which relations between two ancient African states were influenced by warfare, commerce, and political fictions. Online edition available as part of the NYU Library's Ancient World Digital Library and in partnership with the Institute for the Study of the Ancient World (ISAW).

Visions of Community in the Post-Roman World Clemens Gantner, 2016-03-03 This volume looks at visions of community in a comparative perspective from Late Antiquity to the dawning of the age of crusades. It addresses the question of why and how distinctive new political cultures developed after the disintegration of the Roman World and to what degree their differences had already emerged in the first post-Roman centuries. The Latin West, Orthodox Byzantium, and its Slavic periphery, and the Islamic world each retained different parts of the Graeco-Roman heritage while introducing new elements. For instance, ethnicity became a legitimizing element of rulership in the West, remained a structural element of the imperial periphery in Byzantium, and contributed to the inner dynamic of Islamic states without becoming a resource of political integration. Similarly, the political role of religion also differed between the emerging post-Roman worlds. It is surprising that little systematic research has been done in these fields so far. The 32 contributions to the volume explore this new line of research and look at different

aspects of the process with leading western Medievalists Byzantinists and Islamicists covering a wide range of pertinent topics At a closer look some of the apparent differences between the West and the Islamic world seem less distinctive and the inner variety of all post Roman societies becomes more marked At the same time new variations in the discourse of community and the practice of power emerge Anybody interested in the development of the post Roman Mediterranean but also in the relationship between the Islamic World and the West will gain new insights from these studies on the political role of ethnicity and religion in the post Roman Mediterranean

The Garima Gospels Judith S. McKenzie,Francis

Watson,2016-12-31 The three Garima Gospels are the earliest surviving Ethiopian gospel books They provide glimpses of lost late antique luxury gospel books and art of the fifth to seventh centuries in the Aksumite kingdom of Ethiopia as well as in the Christian East As this work shows their artwork is closely related to Syriac Armenian Greek and Georgian gospel books

and to the art of late antique Coptic Egypt Nubia and Himyar Yemen Like most gospel manuscripts the Garima Gospels contain ornately decorated canon tables which function as concordances of the different versions of the same material in the gospels Analysis of these tables of numbered parallel passages devised by Eusebius of Caesarea contributes significantly to our understanding of the early development of the canonical four gospel collection The origins and meanings of the decorated frames portraits of the evangelists Alexandrian circular pavilion and unique image of the Jerusalem Temple are elucidated The Garima texts and decoration demonstrate how a distinctive Christian culture developed in Aksumite Ethiopia while also belonging to the mainstream late antique Mediterranean world Lavishly illustrated in colour this volume presents all of the Garima illuminated pages for the first time and extensive comparative material It will be an essential resource for those studying late antique art and history Ethiopia eastern Christianity New Testament textual criticism and illuminated books
