Library, 1977 **Soviet and East European Transport Problems** John Ambler, Denis J B Shaw, Leslie Symons, 2021-05-11 Originally published in 1985 this book considers many important aspects of the transport systems of the former Soviet Union and Eastern Europe It looks at the different modes of transport and the problems faced by each Examining the relationship between transport problems and those of poor economic performance against the possibilities of economic reform the book analyses some of the measures which were taken to remedy the situation **Governing Complex City-Regions in the Twenty-First Century** Philip Harrison, 2023-11-10 Provides a comparative study of the complex governance challenges confronting city regions in each of the BRICS countries It traces how governance approaches emerge from the disparate intentions actions and practices of multiple collaborating and competing actors working in diverse contexts of political settlement and culture **South African geographer** ,1978 Soviet Urban Management, with Comparisons to the United States Carol Weiss Lewis, Stephen Sternheimer, 1979 **The End of Peasantry?** Grigory Ioffe, Tatyana Nefedova, Ilya Zaslavsky, 2006-10-19 The End of Peasantry examines the dramatic recent decline of agriculture in post Soviet Russia Historically Russian farmers have encountered difficulties relating to the sheer abundance of land the vast distances between population centers and harsh environmental conditions More recently the drastic depopulation of rural spaces decreases in sown acreage and overall inefficiency of land usage have resulted in the disruption and spatial fragmentation of the

countryside For many decades rural migration has been a selective process resulting in the most enterprising and self motivated people leaving the rural periphery The new agricultural operators representing nascent but aggressive Russian agribusiness have difficulty co-opting traditional rural communities afflicted by profound social dysfunction The contrast between agriculture in proximity to large cities and in their hinterlands is as sharp as ever and some vacant niches are increasingly occupied by ethnically non-Russian migrants All of these conditions existed to some degree in pre-Soviet times but they have been exacerbated since Russia took steps toward a market economy Understudied and often underestimated in the West the crisis facing Russian agriculture has profound implications for the political and economic stability of Russia The authors see hope in the significant increase in land use intensity on vastly diminished farmland The lessons gathered from this thoroughly researched study are far-reaching and relevant to the disciplines of Slavic and European studies agriculture political science economics and human geography
