BONUS This edition includes an excerpt from Robert Ludlum's *The Bourne Identity* **The Exchange** Nina Palmer, 2022-06-02 Set in Chicago *The Exchange* A Planet Girl Adventure is a fictionalized version of the 2008 economic meltdown that marked a turning point in the U S economy The events that transpired during this time period collapsed the housing market drove the economy into a ditch and increased the Federal Reserve's balance sheet to lofty levels that have only gained momentum over the next decade The stories of the main characters a syndicated newspaper astrologer and her assistant an exotic dancer a trader a mobster and a prominent government head weave together a fictional alternative tapestry illustrating the underbelly of the machinations in the world of high finance **The Exchange Order** Richard Adelstein, 2017-08-31 There are three basic institutional systems for governing the exchange of property One is consensual the exchange of property rights in ordinary markets The other two however are nonconsensual the involuntary exchange of entitlements in either civil or criminal liability cases In *The Exchange Order* Richard Adelstein argues that while markets torts and criminal justice are ostensibly different constellations of institutions organizations and individuals they are remarkably alike Each governs a particular kind of exchange through a distinctive set of institutions rules and procedures They have all evolved over many centuries from the same root a deep seated human propensity to communicate with others through trade to exchange goods for goods and costs for costs as a means of reconciling opposing interests and increasing personal welfare They perform the same social function facilitating individually efficient exchanges of rights and compensatory prices in very different exchange environments that demand very different institutional responses to the problem all three are in place to solve identifying efficient transfers and seeing that they are completed *The Exchange Order* provides a sweeping historical comparative and philosophical analysis of how rights and objects goods and harms are

exchanged in these apparently very different realms What unites them is a core norm take only what you can pay for and pay for everything you take In markets free exchange is governed by prices and the willingness to sell or buy Tort and criminal law apply when consensual exchange is violated The violation is the non consensual seizure of entitlements and the payment is a liability price on the taker that compensates the victim for the costs imposed by the taking Tit for tat an eye for an eye is the principle of exchange that unites markets tort and crime
