The Musical Workshop Frederick Dorian, 1971 *The Musical Workshop. (The Inner Story of Great Music.) [With Plates.]* Frederick Dorian, 1947

The Musical Gift Jim Sykes, 2018-08-31 The Musical Gift tells Sri Lanka's music history as a story of giving between humans and nonhumans and between populations defined by difference. Author Jim Sykes argues that in the recent past the genres we recognize today as Sri Lanka's esteemed traditional musics were not originally about ethnic or religious identity but were gifts to gods and people intended to foster protection and or healing. Noting that the currently assumed link between music and identity helped produce the narratives of ethnic difference that drove Sri Lanka's civil war 1983-2009, Sykes argues that the promotion of connected music histories has a role to play in post-war reconciliation. The Musical Gift includes a study of how NGOs used music to promote reconciliation in Sri Lanka and it contains a theorization of the relations between musical gifts and commodities. Eschewing a binary between the gift and identity, Sykes claims the world's music history is largely a story of entanglement between both paradigms. Drawing on fieldwork conducted widely across Sri Lanka over a span of eleven years, including the first study of Sinhala Buddhist drumming in English and the first ethnography of music making in the former warzones of the north and east, this book brings anthropology's canonic literature on the gift into music studies while drawing on anthropology's recent ontological turn and the new materialism in religious studies.

The Music of Sounds and the Music of Things Leigh Landy, John Richards, 2024-09-30 This book investigates two areas in which the appreciation of sonic creativity can be easily acquired across diverse cultures: ages and interests, the music of sounds, making music with any sounds, part of today's sampling culture, and the music of things, and the creation of instruments using existent materials, another type of sampling involving the notion of instrument as composition, as part of today's DIY or DIT, do it together culture. The book offers broad discussions regarding the music of things, written by John Richards, followed by the music of sounds, written by Leigh Landy. These chapters are followed by a focus on the workshop, demonstrating the collaborative and inclusive potential in both areas, and a spotlight on eight artists with a broad diversity of backgrounds and approaches to sound and music who discuss their perceptions. The book's conclusion focuses on similarities and differences between the music of sounds and the music of things, suggesting finally that both might form part of the 21st century's folk music landscape. The book is primarily aimed towards students interested in current forms of sonic creativity but will be of interest to those interested in broader issues of sampling, culture hacking, and sound studies.

Musical Identities Raymond A. R. MacDonald, David J. Hargreaves, Dorothy Miell, 2002-07-18 Music is a tremendously powerful channel through which people develop their personal and social identities. Music is used to communicate emotions, thoughts, political statements, social relationships, and physical expressions. But just as language can mediate the construction and negotiation of developing identities, so music can also be a means of communication through which aspects of people's identities are constructed. Music can have a profound influence on our
