Sir Edward Newenham Mp 1734-1814 Defender Of The Protestant Constitution:

Sir Edward Newenham, MP, 1734-1814 James Kelly, 2004 Propagandist popular politician conservative reactionary Edward Newenham excited sharply different responses during his lifetime He was encouraged by his admiration for Charles Lucas in Ireland and John Wilkes in England to take up the issue of parliamentary reform and by his support for the cause of the American colonists to become one of the warmest advocates of American independence from Britain this side of the Atlantic during the American Revolution His admiration for the American cause brought him into contact with Benjamin Franklin who aspired to recruit him to the American cause George Washington John Jay and the marquis of Lafayette who introduced him to the court of Louis XVI though Britain and France were at war Their surviving correspondences provide one of the main sources for this study and they show clearly that Newenham did not as some contemporaries believed ever engage in treasonable activity His commitment throughout his political life was to uphold the Protestant constitution and it is this commitment that allows one to make sense of a life that saw him make a significant contribution as a reforming revenue officer as a prolific and outspoken propagandist as a popular MP for County Dublin for more than twenty years as a Volunteer officer and finally as a conservative ideologue who supported the Act of Union and opposed Catholic relief He was also a devoted husband and father to eighteen children until his mismanagement of his inheritance largely on the construction of Belcamp Hall in north County Dublin precipitated him on an economic roller coaster that caused him to spend a spell in a debtors prison He died in genteel poverty but he remained until the end a representative voice of that strong strand of Protestant opinion that believed utterly in the merits of a Protestant constitution

Irish Artisans and Radical Politics, 1776-1820 Timothy Murtagh, 2022-10-15 Irish Artisans and Radical Politics 1776 1820 Apprenticeship to Revolution is a comparative study of the political activities of workers in three Irish cities Dublin Belfast and Cork It investigates how Ireland's journeymen and apprentices engaged in campaigns for political reform as well as in revolutionary conspiracies during the years 1776 to 1820 This book marks the first ever attempt to analyse the role of Irish workers in the creation of eighteenth century republicanism representing the careful distillation of nearly a decade of research on the topic It argues that Irish craftsmen truly did serve an apprenticeship to revolution In the literal sense the experience of the workshop provided artisans with a set of traditions which shaped how new revolutionary doctrines were received But generations of Irish workers also served a figurative apprenticeship to successive political movements the campaigns of Irish Patriot MPs the Volunteering movement of the 1770s and the revolutionary campaigns of the United Irishmen The book explores the role of urban workers within the 1798 Irish Rebellion and Robert Emmet's 1803 rising and adopting a transnational framework places the actions of these Irish artisans within the context of British radicalism and the creation of an industrial working

class [The Laws and Other Legalities of Ireland, 1689-1850](#) Seán Patrick Donlan,2016-03-03 While Irish historical writing has long been in thrall to the perceived sectarian character of the legal system this collection is the first to concentrate attention on the actual relationship that existed between the Irish population and the state under which they lived from the War of the Two Kings 1689 1691 to the Great Famine 1845 1849 Particular attention is paid to an understanding of the legal character of the state and the reach of the rule of law with contributors addressing such themes as how law was made and put into effect how ordinary people experienced the law and social regulations how Catholics related to the legal institutions of the Protestant confessional state and how popular notions of legitimacy were developed These themes contribute to a wider understanding of the nature of the state in the long eighteenth century and will therefore help to situate the study of Irish society into the mainstream of English and European social history

The Cambridge History of Ireland: Volume 3, 1730-1880 James Kelly,2018-02-28 The eighteenth and nineteenth centuries was an era of continuity as well as change Though properly portrayed as the era of Protestant Ascendancy it embraces two phases the eighteenth century when that ascendancy was at its peak and the nineteenth century when the Protestant elite sustained a determined rear guard defence in the face of the emergence of modern Catholic nationalism Employing a chronology that is not bound by traditional datelines this volume moves beyond the familiar political narrative to engage with the economy society population emigration religion language state formation culture art and architecture and the Irish abroad It provides new and original interpretations of a critical phase in the emergence of a modern Ireland that while focused firmly on the island and its traditions moves beyond the nationalist narrative of the twentieth century to provide a history of late early modern Ireland for the twenty first century
