Corona Radiata Jean Harris Anderson,2024-09-04 THE KING S CROWN OR A CROWN OF CYBERNETICS CORONAVIRUS and CORONA RADIATA are two medical terms The corona pandemic was an attempt to influence the corona radiata A character from this book explains There is something far more important than the affects left by the psychological tampering during the coronavirus pandemic It is the intentional cruel altering of the human neuroanatomy The corona radiata is the encircling garland shaped crown of nerve bundles which controls the highest functions of the human brain It is self our personal identity and intellectual functioning this involves the individual s ability to make conscious decisions to recall and to have emotional perceptual behavioral expressions and motor skills The genetically modified virus continues to be deceptively used as a conveyance to destroy the foundation of civilization by overseeing the alteration of human behavior using the psychology of fear and panic But reprehensible dictators always look for a more permanent solution than brain washing What if the division of cognitive neuroscience was exploited by a tyrannical techno

scientist one who had authority to modernize the old lobotomy in essentially a noninvasive way reinventing it for the reason of conforming humanity's behavior. This is why neuroscience is of interest to the engineers of artificial intelligence. As there are already neural implants in use, neuroethicists caution us that while hacking microchips is criminal, violating a person is villainous. It is a time of dark medicine of conjuring up potions, profiting from pestilence and seeking prophets.

CORONA RADIATA GARLAND OF GRIEF A Novel By JEAN HARRIS ANDERSON The Journals of Davin Alastair embedded in the genre of science fiction have expanded into a parallel world of fables, fantasy, symbolism, and even courtly love is represented necessarily as we approach a dreadful time in the storyline when the captives are persecuted by the warlords. It's less severe to reflect upon such similar sufferings in the illustrations of Aesop and lessons from the folktales of Brothers Grimm. Of The First And Last King series, this is fifth of our hero's journals. It appears his planet is falling rapidly out of its natural orbit, spinning dizzily, and it may even collide with our very own globe. How might we prepare if this story is not a mythical account but one predestined as a convergent encounter.

You the Jury Gini Graham Scott, 2008-03-04. Can a person repress memories of childhood sexual abuse and suddenly recover those memories 10, 15, or 20 years later? **YOU THE JURY** offers a balanced approach in which you will hear arguments on both sides of the question in a representative case argued by opposing attorneys. It's a fast-paced legal drama that takes place both inside and outside the courtroom when the plaintiff, 27-year-old Roberta Claire, decides to file a lawsuit charging sexual abuse by the defendant, her 66-year-old stepfather, Lloyd Adams. Although the alleged incidents occurred more than fifteen years ago, Roberta is convinced they actually happened while Lloyd insists he is innocent and that Roberta's psychologist planted the awful memories in his stepdaughter's mind. When the case goes to trial, you'll be invited to participate in the decision-making process as a voting member of the jury. So are the memories of abuse real, and do you find for the plaintiff? Or do you reject the theory of recovered memories as junk science and find for the defendant? You decide. This book is unique among the many books about recovered memories because it presents both sides of the issue. Readers will get to see what really happens in a trial, and the reader is a juror. Which witnesses should be believed is up to the reader. It is a realistic challenge.

Robert Koscielney, Member Board of Directors, False Memory Syndrome Foundation. **You the Jury** is a riveting and fascinating book and shows the human element of the destruction and devastation of family members. It shows professional therapists with their conflicting opinions on this controversial issue. Written in fiction-like form, **You the Jury** is magnetic in holding your attention to an issue and tragedy that is all too endemic in our society.

Claire R. Reeves, President/Founder, Mothers Against Sexual Abuse (MASA). [Lessons from Problem-based Learning](#) H. J. M. van Berckel, 2010. Problem-based learning (PBL) has excited interest among educators around the world for several decades. Among the most notable applications of PBL is the approach taken at the Faculty of Health, Medicine, and Life Sciences (FHML) at Maastricht University, the Netherlands. Starting in 1974 as a medical school, the faculty embarked on the innovative pathway of problem-based learning, trying to establish a medical training program which applied recent

insights of education which would be better adapted to the needs of the modern physician The medical school currently part of the FHML can be considered as an established school where original innovations and educational changes have become part of a routine The first book to bring this wealth of information together Lessons from Problem based Learning documents those findings and shares the experiences of those involved to encourage further debate and refinement of problem based learning in specific applications elsewhere and in general educational discussion and thought Each chapter provides a description of why and what has been done in the Maastricht program followed by reflection on the benefits and issues that have arisen for these developments The final section of the book examines the application of PBL in the future and how it is likely to develop further
