float down to earth as normal skydiving does In fact the world record for this kind of skydiving is actually a 400 man dive The formation was maintained for 4 25 seconds from the altitude of 25 000 ft in Udon Thai Thailand Freestyle Skydiving A Solo Performance This kind of diving can be a very entertaining one It is where the skydiver would perform some acrobatic manoeuvres and stunts such as rolls tumbles and graceful Skydiving 101 formations by himself throughout the freefall period and before he opens his parachute Freestyle dives would also need the participation of another skydiver The second diver on the other hand would not do any kind of stunts However he would be the one to film his partners performance through a camera that is mounted on his helmet This kind of dive is actually a registered competitive sport that was declared in 1996 by the FAI Free Flying Do It Your Way This is considered to be the art of controlling your body and having the ability to move through different static positions while you are in the freefall period of your jump before you open your parachute If you ll be doing dives like this you would have to do some manoeuvres like Sit Flying Back Flying and Head Down These would allow you to have more control on your speed and trajectory You also have to do some exit rolls or tumbles at the end of your freefall stage so that you can safely deploy your parachute by the time you reach the right altitude Parachuting Dan Poynter, Mike Turoff, 2003-09 Skydiving is the closest humankind can come to unfettered flight Parachuting The Skydiver s Handbook helps both novice and experienced jumpers get the most out of the sport The book details every phase of skydiving canopy flying safety and equipment It thoroughly explores freefall progression learning to skydive canopy progression and formation flying specialized jumping and every aspect of parachutes **Pulling the Rip Cord** Jeff C.
