

Slavery In The American South

William J. Cooper Jr., Thomas E. Terrill

Slavery In The American South:

Slavery in the American South John White, Ralph Willett, 1970 Slavery And Freedom James Oakes, 2013-04-17 This pathbreaking interpretation of the slaveholding South begins with the insight that slavery and freedom were not mutually exclusive but were intertwined in every dimension of life in the South James Oakes traces the implications of this insight for relations between masters and slaves slaveholders and non slaveholders and for the rise of a racist ideology *Slavery and the American South* Annette Gordon-Reed, 2003 In 1900 very few historians were exploring the institution of slavery in the South But in the next half century the culture of slavery became a dominating theme in Southern historiography In the 1970s it was the subject of the first Chancellor s Symposium in Southern History held at the University of Mississippi Since then scholarly interest in slavery has proliferated ever more widely In fact the editor of this retrospective volume states that since the 1970s the expansion has resulted in a corpus that has a huge number of components scores even hundreds rather than mere dozens He states that no such gathering could possibly summarize all the changes of those twenty five years Hence for the Chancellor Porter L Fortune Symposium in Southern History in the year 2000 instead of providing historiographical summary the participants were invited to formulate thoughts arising from their own special interests and experiences Each paper was complemented by a learned penetrating reaction On balance the editor avers in his introduction reflection about the whole can convey a further sense of the condition of this field of scholarship at the very end of the last century which was surely an improvement over what prevailed at the beginning The collection of papers includes the following Logic and Experience Thomas Jefferson s Life in the Law by Annette Gordon Reed with commentary by Peter S Onuf The Peculiar Fate of the Bourgeois Critique of Slavery by James Oakes with commentary by Walter Johnson Reflections on Law Culture and Slavery by Ariela Gross with commentary by Laura F Edwards Rape in Black and White Sexual Violence in the Testimony of Enslaved and Free Americans by Norrece T Jones Jr with commentary by Jan Lewis The Long History of a Low Place Slavery on the South Carolina Coast 1670 1870 by Robert Olwell with commentary by William Dusi Berre Paul Robeson and Richard Wright on the Arts and Slave Culture by Sterling Stuckey with commentary by Roger D Abrahams Winthrop D Jordan is William F Winter Professor of History and professor of African American studies at the University of Mississippi His previous books include *White Over Black American Attitudes toward the Negro 1550 1812* and *The White Man s Burden Historical Origins of Racism in the United States* and his work has been published in the *Atlantic Monthly* *Daedalus* and the *Journal of Southern History* among other periodicals **The ^A Old South's Modern Worlds** L. Diane Barnes, Brian Schoen, Frank Towers, 2011-04-06 Bringing together original scholarly essays *The Old South s Modern Worlds* deprovincializes the antebellum South revealing a diverse region both shaped by and contributing to the complex modern developments that were transforming the nineteenth century world **The American South** William J. Cooper Jr., Thomas E. Terrill, 2008-10-23 In *The American South A History* Fourth Edition William J Cooper Jr and Thomas E Terrill demonstrate their belief that it is

impossible to divorce the history of the South from the history of the United States The authors analysis underscores the complex interaction between the South as a distinct region and the South as an inescapable part of America Cooper and Terrill show how the resulting tension has often propelled section and nation toward collision In supporting their thesis the authors draw on the tremendous amount of profoundly new scholarship in Southern history Each volume includes a substantial biographical essay completely updated for this edition which provides the reader with a guide to literature on the history of the South Coverage now includes the devastation of Hurricane Katrina in 2005 up to date analysis of the persistent racial divisions in the region and the South s unanticipated role in the 2008 presidential primaries Race in the American South David Brown,Clive Webb,2007 The issue of race has indelibly shaped the history of the United States Nowhere has the drama of race relations been more powerfully staged than in the American South This book charts the turbulent course of southern race relations from the colonial origins of the plantation system to the maturation of slavery in the nineteenth century through the rise of a new racial order during the Civil War and Reconstruction to the civil rights revolution of the twentieth century While the history of race in the southern states has been shaped by a basic struggle between black and white the authors show how other forces such as class and gender have complicated the colour line They distinguish clearly between ideas about race mostly written and disseminated by intellectuals and politicians and their reception by ordinary southerners both black and white As a result readers are presented with a broad over arching view of race in the American South throughout its chequered history Key Features racial issues are the key area of interest for those who study the American South race is the driving engine of Southern history unique in its focus on race broad coverage origins of the plantation system to the situation in the South today **Slavery and Class in the American South** William L. Andrews,2019 Slavery and Class in the American South reveals how work family and connections that made for socioeconomic differences among the enslaved of the South are critical components of the American slave narrative

Deep Roots Avidit Acharya,Matthew Blackwell,Maya Sen,2020-03-10 Despite dramatic social transformations in the United States during the last 150 years the South has remained staunchly conservative Southerners are more likely to support Republican candidates gun rights and the death penalty and southern whites harbor higher levels of racial resentment than whites in other parts of the country Why haven t these sentiments evolved or changed Deep Roots shows that the entrenched political and racial views of contemporary white southerners are a direct consequence of the region s slaveholding history which continues to shape economic political and social spheres Today southern whites who live in areas once reliant on slavery compared to areas that were not are more racially hostile and less amenable to policies that could promote black progress Highlighting the connection between historical institutions and contemporary political attitudes the authors explore the period following the Civil War when elite whites in former bastions of slavery had political and economic incentives to encourage the development of anti black laws and practices Deep Roots shows that these forces created a local

political culture steeped in racial prejudice and that these viewpoints have been passed down over generations from parents to children and via communities through a process called behavioral path dependence While legislation such as the Civil Rights Act and the Voting Rights Act made huge strides in increasing economic opportunity and reducing educational disparities southern slavery has had a profound lasting and self reinforcing influence on regional and national politics that can still be felt today A groundbreaking look at the ways institutions of the past continue to sway attitudes of the present Deep Roots demonstrates how social beliefs persist long after the formal policies that created those beliefs have been eradicated Jacket **Black Southerners, 1619-1869** John B. Boles, 2014-10-17 This revealing interpretation of the black

experience in the South emphasizes the evolution of slavery over time and the emergence of a rich hybrid African American culture From the incisive discussion on the origins of slavery in the Chesapeake colonies John Boles embarks on an interpretation of a vast body of demographic anthropological and comparative scholarship to explore the character of black bondage in the American South On such diverse issues as black population growth the strength of the slave family the efficiency and profitability of slavery the diet and health care of bondsmen the maturation of slave culture the varieties of slave resistance and the participation of blacks in the Civil War Black Southerners provides a balanced and judicious treatment Scars on the Land David Silkenat, 2022 Scars on the Land is the first comprehensive history of American

slavery to examine how the environment fundamentally formed enslaved people's lives and how slavery remade the Southern landscape *Working Toward Freedom* Larry E. Hudson, 1994 The opportunity for slaves to produce goods for their own use or for sale facilitated the development of a domestic economy largely independent of their masters and the wider white community Drawing from a range of primary sources In their efforts to protect the integrity of their families they became primary actors in their preparation for freedom Selected and revised for publication this collection of essays stems from the University of Rochester conference African American Work and Culture in the 18th and 19th Centuries Contributors

Josephine A Beoku Betts Kenneth L Brown John Campbell Cheryll Ann Cody Mary Beth Corrigan Stanley L Engerman Sharon Ann Holt Larry E Hudson Jr Robert Olwell Lorena S Walsh The Indian Slave Trade Alan Gallay, 2002-01-01 This absorbing book is the first ever to focus on the traffic in Indian slaves during the early years of the American South The Indian slave trade was of central importance from the Carolina coast to the Mississippi Valley for nearly fifty years linking southern lives and creating a whirlwind of violence and profit making argues Alan Gallay He documents in vivid detail how the trade operated the processes by which Europeans and Native Americans became participants and the profound consequences for the South and its peoples The author places Native Americans at the center of the story of European colonization and the evolution of plantation slavery in America He explores the impact of such contemporary forces as the African slave trade the unification of England and Scotland and the competition among European empires as well as political and religious divisions in England and in South Carolina Gallay also analyzes how Native American societies approached warfare diplomacy and

decisions about allying and trading with Europeans His wide ranging research not only illuminates a crucial crossroad of European and Native American history but also establishes a new context for understanding racism colonialism and the meaning of ethnicity in early America

Slave Country Adam ROTHMAN, 2009-06-30 *Slave Country* tells the tragic story of the expansion of slavery in the new United States In the wake of the American Revolution slavery gradually disappeared from the northern states and the importation of captive Africans was prohibited Yet at the same time the country's slave population grew new plantation crops appeared and several new slave states joined the Union Adam Rothman explores how slavery flourished in a new nation dedicated to the principle of equality among free men and reveals the enormous consequences of U S expansion into the region that became the Deep South Rothman maps the combination of transatlantic capitalism and American nationalism that provoked a massive forced migration of slaves into Louisiana Alabama and Mississippi He tells the fascinating story of collaboration and conflict among the diverse European African and indigenous peoples who inhabited the Deep South during the Jeffersonian era and who turned the region into the most dynamic slave system of the Atlantic world Paying close attention to dramatic episodes of resistance rebellion and war Rothman exposes the terrible violence that haunted the Jeffersonian vision of republican expansion across the American continent *Slave Country* combines political economic military and social history in an elegant narrative that illuminates the perilous relation between freedom and slavery in the early United States This book is essential reading for anyone interested in an honest look at America's troubled past

A Critical Historical Geography of Slavery in the American South Matthew Russell Cook, 2016 In the more than 150 years since the end of the Civil War Emancipation Proclamation and 13th 14th and 15th Amendments to the U S Constitution that formally brought an end to chattel slavery people in the United States have done much to downplay sanitize and outright forget both the history of slavery despite its foundational role in the establishment of the U S political economy and the life altering damage that powerful white men predominantly inflicted upon millions of Africans and African Americans through a brutal system that lasted more than 200 years Contributing to the process of whitewashing the histories and geographies of slavery have been the large absences of many academic disciplines to engage in critical research on chattel slavery until relatively recently Since the 1960s geographers have increasingly grappled with the discipline's racist and imperialist past engaging in critical studies that have advanced the discipline and added emphases on social justice drawing upon diverse social theories such as Marxism feminism Critical Race Theory and postmodernism This dissertation builds upon this scholarship in developing a critical historical geographic understanding of slavery and its legacy in the U S paying particular attention to the Deep South states of Alabama Mississippi and Louisiana In the case of researching slavery this dissertation argues that the ways in which people in the contemporary South misremember the United States history are serious reflections on how contemporary issues of racism and white privilege operate in America Taking a critical approach to historical geographic research of slavery is not merely an academic process but is inherently political The

dissertation engages with critical historical geographies of slavery by focusing primarily on counter narratives of slavery counter in the sense that they stand in opposition to and correct whitewashed dominant narratives that purport slavery was a mostly benign patriarchal system Further it examines social and economic relations that operate to perpetuate these mythic perceptions of the United States chattel slavery system The overarching goal of the dissertation is to study the processes through which people form operationalize and can advance counter narratives of slavery American Slavery, Atlantic Slavery, and Beyond Enrico Dal Lago, 2015-12-22 American Slavery Atlantic Slavery and Beyond provides an up to date summary of past and present views of American slavery in international perspective and suggests new directions for current and future comparative scholarship It argues that we can better understand the nature and meaning of American slavery and antislavery if we place them clearly within a Euro American context Current scholarship on American slavery acknowledges the importance of the continental and Atlantic dimensions of the historical phenomenon comparing it often with slavery in the Caribbean and Latin America However since the 1980s a handful of studies has looked further and has compared American slavery with European forms of unfree and nominally free labor Building on this innovative scholarship this book treats the U S peculiar institution as part of both an Atlantic and a wider Euro American world It shows how the Euro American context is no less crucial than the Atlantic one in understanding colonial slavery and the American Revolution in an age of global enlightenment reformism and revolutionary upheavals the Cotton Kingdom s heyday in a world of systems of unfree labor and the making of radical Abolitionism and the occurrence of the American Civil War at a time when nationalist ideologies and nation building movements were widespread Liberty and Slavery William J. Cooper, Jr., 2021-04-16 Explores the South s paradoxical devotion to liberty and the practice of slavery The recipient of high praise and considerable debate for its provocative thesis William J Cooper Jr s sweeping survey of antebellum southern politics returns to print for classroom and general use with this new paperback volume In Liberty and Slavery Cooper contends that southerners defined their notions of liberty in terms of its opposite slavery He suggests that a jealous guardianship of the peculiar institution unified white southerners of differing economic social and religious standing and grounded their debates on nationalism and sectionalism agriculture and manufacturing territorial expansion and Western settlement Cooper assesses how the South s devotion to liberty shaped its response to major legislation judicial decisions and military actions and how abolitionism in the eyes of white southerners threatened the destruction of local control and the death of liberty **Mastered by the Clock** Mark Michael Smith, 1997 Challenging traditional assumptions about the plantation economy s reliance on a pre modern nature based conception of time Mark M Smith shows how and why southerners particularly masters and their slaves came to view the clock as a legitimate arbiter of time Ironically Smith shows freedom largely consolidated the dependence of masters as well as freedpeople on the clock The Routledge Historical Atlas of the American South Andrew Frank, 2020-11-25 This book illuminates singular aspects of Southern society and culture and provides justification for

thinking about the South as a region unto itself It also shows that the South in fact consists of many shifting social and cultural sub regions

Slave Trading in the Old South Frederic Bancroft, 2023-02-24 Overwhelming evidence against the historical view of slavery as a benevolent peculiar institution Posting what he called a most deadly array of facts Frederic Bancroft exploded deeply entrenched myths about antebellum slavery when *Slave Trading in the Old South* was first published in 1931 As fresh and informative today as it was then the classic study returns to print giving a new generation of historians students and history enthusiasts access to Bancroft s pioneering examination of the domestic slave trade Drawing largely on research that could not be duplicated today correspondence with individuals involved in the slave trade and interviews with former slaves Bancroft exposed the commercial aspects of the enterprise including the breeding and rearing of slaves for future sale to western states and territories the separation of slave families and the profitability of the practice By showing that the slave trade so thoroughly dominated the South Bancroft demonstrated antebellum slavery to be an essentially commercial exploitative and cruel industry rather than as many historians have claimed a benevolent peculiar institution in which the selling of slaves was a relatively rare exchange between neighbors He also discredited the notion that slave traders were social outcasts finding instead that they came from even the highest ranks of Southern society Michael Tadman s new introduction offers a comprehensive thoughtful analysis of the evolving historical literature on the subject reminding readers of the devastating effects the slave trade had both on Southern society as a whole and on its principal victims

Slave Law in the American South Mark V. Tushnet, 2003 Tying together legal historical social political and literary strands to show how the law itself was implicated in the persistence of slavery this work sheds new light on slavery and Southern history as it probes the conscience of a troubled jurist incapable of fully transcending his times

Decoding **Slavery In The American South**: Revealing the Captivating Potential of Verbal Expression

In an era characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its power to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring.
