and commercial centers The program thus underestimated the values enshrined in the materials and designs of Luanda s existing informally constructed neighborhoods or musseques The Aesthetics of Belonging explores the political significance of aesthetics in the remaking of the city Claudia Gastrow s archival and ethnographic work which includes interviews with city planners architects nonprofit leaders and urban dwellers shows how government infrastructure projects and foreign inspired designs came to embody displacement and exclusion for many This Gastrow argues catalyzed a countermovement an aesthetic dissent rooted in critically reframing informal urbanism as Indigenous a move that enabled the possibility of recognizing the political potential of informal settlements as spaces that produce belonging

**Africa and the Africans in the Nineteenth Century: A Turbulent History** Catherine Coquery-Vidrovitch, Mary Baker, 2015-02-12 Most histories seek to understand modern Africa as a troubled outcome of nineteenth century European colonialism but that is only a small part of the story In this celebrated book beautifully translated from the French edition the history of Africa in the nineteenth century unfolds from the perspective of Africans themselves rather than the European powers It was above all a time of tremendous internal change on the African continent Great jihads of Muslim conquest and conversion swept over West Africa In the interior warlords competed to control the internal slave trade In the east the sultanate of Zanzibar extended its reach via coastal and interior trade routes In the north Egypt began to modernize while Algeria was colonized In the south a series of forced migrations accelerated spurred by the progression of white settlement Through much of the century African societies assimilated and adapted to the changes generated by these diverse forces In the end the West's technological advantage prevailed and most of Africa fell under European control and lost its independence Yet only by taking into account the rich complexity of this tumultuous past can we fully understand modern Africa from the colonial period to independence and the difficulties of today
