**The Culture of Piracy, 1580-1630** Claire Jowitt, 2016-12-05 Listening to what she terms unruly pirate voices in early modern English literature in this study Claire Jowitt offers an original and compelling analysis of the cultural meanings of piracy By examining the often marginal figure of the pirate and also the sometimes hard to distinguish privateer Jowitt shows how flexibly these figures served to comment on English nationalism international relations and contemporary politics She considers the ways in which piracy can sometimes in surprising and resourceful ways overlap and connect with rather than simply challenge some of the foundations underpinning Renaissance orthodoxies absolutism patriarchy hierarchy of birth and the superiority of Europeans and the Christian religion over other peoples and belief systems Jowitt's discussion ranges over a variety of generic forms including public drama broadsheets and ballads prose romance travel writing and poetry from the fifty year period stretching across the reigns of three English monarchs Elizabeth Tudor and James and Charles Stuart Among the early modern writers whose works are analyzed are Heywood Hakluyt Shakespeare Sidney and Wroth and among the multifaceted historical figures discussed are Francis Drake John Ward Henry Mainwaring Purser and Clinton What she calls the semantics of piracy introduces a rich symbolic vein in which these figures operating across different cultural registers and appealing to audiences in multiple ways represent and reflect many changing discourses political and artistic in early modern England The first book length study to look at the cultural impact of Renaissance piracy *The Culture of Piracy 1580-1630* underlines how the figure of the Renaissance pirate was not only sensational but also culturally significant Despite its transgressive nature piracy also comes to be seen as one of the key mechanisms which served to connect peoples and regions during this period

**Anti-Black Racism in Early Modern English Drama** Matthieu Chapman, 2016-11-03 This is the first book to deploy the methods and ensemble of questions from Afro pessimism to engage and interrogate the methods of Early Modern English studies Using contemporary Afro pessimist theories to provide a foundation for structural analyses of race in the Early Modern Period it engages the arguments for race as a fluid construction of human identity by addressing how race in Early Modern England functioned not only as a marker of human identity but also as an a priori constituent of human subjectivity Chapman argues that Blackness is the marker of social death that allows for constructions of human identity to become transmutable based on the impossibility of recognition and incorporation for Blackness into humanity Using dramatic texts such as *Othello* *Titus Andronicus* and other Early Modern English plays both popular and lesser known the book shifts the binary away from the currently accepted standard of white non white that defines otherness in the period and examines race in Early Modern England from the perspective of a non black black antagonism The volume corrects the Afro pessimist assumption that the Triangle Slave Trade caused a rupture

between Blackness and humanity By locating notions of Black inhumanity in England prior to chattel slavery the book positions the Triangle Trade as a result of rather than the cause of Black inhumanity It also challenges the common scholarly assumption that all varying types of human identity in Early Modern England were equally fluid by arguing that Blackness functioned as an immutable constant Through the use of structural analysis this volume works to simplify and demystify notions of race in Renaissance England by arguing that race is not only a marker of human identity but a structural antagonism between those engaged in human civil society opposed to those who are socially dead It will be an essential volume for those with interest in Renaissance Literature and Culture Shakespeare Contemporary Performance Theory Black Studies and Ethnic Studies

**American Slavers** Sean M. Kelley, 2023-05-30 The first telling of the unknown story of America's two hundred year history as a slave trading nation A total of 305 000 enslaved Africans arrived in the New World aboard American vessels over a span of two hundred years as American merchants and mariners sailed to Africa and to the Caribbean to acquire and sell captives Using exhaustive archival research including many collections that have never been used before historian Sean M Kelley argues that slave trading needs to be seen as integral to the larger story of American slavery Engaging with both African and American history and addressing the trade over time Kelley examines the experience of captivity drawing on more than a hundred African narratives to offer a portrait of enslavement in the regions of Africa frequented by American ships Kelley also provides a social history of the two American ports where slave trading was most intensive Newport and Bristol Rhode Island In telling this tragic brutal and largely unknown story Kelley corrects many misconceptions while leaving no doubt that Americans were a nation of slave traders

**Maritime Kent Through the Ages** Stuart Bligh, Sheila Sweetinburgh, Elizabeth Clare Edwards, 2021 A wide ranging history of the geography and communities of Kent from the earliest times to the present day Kent with its long coastline and its important geopolitical position close to London and continental Europe and on major trading routes between Britain and the wider world has had a very significant maritime history This book covers a wide range of topics relating to that history from the earliest times to the present day It sets Kent s varied coastline and waters in their geological and geographical context showing how erosion and sediment deposition have contributed to the changing nature of maritime activities and populations It examines Kent s strategic role in the defence of the country with the development and redevelopment of coastal defences including four naval

dockyards It goes on to consider the supporting industries which grew up around the coastline those which supplied raw materials and agricultural products from the county s hinterland and its wider national and international trading links It also discusses the diverse coastal communities of Kent and how they have changed in response to the demands of defence trade and changing population and migration patterns In addition the book includes detailed case studies which explore particular subject areas as exemplars of the major themes covered by the book

Tropics Bound James Seay Dean,2010-09-01 In the popular imagination English colonisation in the Americas began with the founding of Jamestown in Virginia in 1607 which recently celebrated its 400th anniversary But the focus of English voyages to the far side of the Atlantic for 100 years before that had been much further south in defiance of Pope Alexander VI s decree that South America would be divided between Spain and Portugal *Tropics Bound* examines not only the oft forgotten history of this period of English exploration between the Tropics of Cancer and Capricorn but also looks at the voyages themselves through the eyes of the sailors who faced that daunting journey It is a story of adventure hardship and courage Written by an historian with a practical knowledge of seamanship this is an important contribution to our understanding of the early period of failed English attempts at colonisation

*The Problem of the Color Line at the Turn of the Twentieth Century* W. E. B. Du Bois,2014-12-03 Early essays from the sociologist displaying the beginnings of his views on politics society and Black Americans status in the United States This volume assembles essential essays some published only posthumously others obscure another only recently translated by W E B Du Bois from 1894 to early 1906 They show the first formulations of some of his most famous ideas namely the veil double consciousness and the problem of the color line Moreover the deep historical sense of the formation of the modern world that informs Du Bois s thought and gave rise to his understanding of the problem of the color line is on display here Indeed the essays constitute an essential companion to Du Bois s 1903 masterpiece *The Souls of Black Folk* The collection is based on two editorial principles presenting the essays in their entirety and in strict chronological order Copious annotation affords both student and mature scholar an unprecedented grasp of the range and depth of Du Bois s everyday intellectual and scholarly reference These essays commence at the moment of Du Bois s return to the United States from two years of graduate level study in Europe at the University of Berlin At their center is the moment of Du Bois s first full self reflexive formulation of a sense of vocation as a student and scholar in the pursuit of the human sciences in their still nascent disciplinary organization that is the institutionalization of a generalized sociology or general ethnology as they could be brought to bear on the study of the situation of the so called Negro question in the United States in all of its multiply refracting dimensions They close with Du Bois s realization that the commitments orienting his work and intellectual practice demanded that he move beyond the institutional frames for the practice of the human sciences The ideas developed in these early essays remained the fundamental matrix for the ongoing development of Du Bois s thought The essays gathered here will therefore serve as the essential reference for those seeking to understand the most profound registers of this major

American thinker A seminal contribution to the history of modern thought Compiled and edited by the world's preeminent scholar of early Du Boisian thought these texts represent his most generative period when Du Bois engaged every discipline helped construct modern social science employed critical inquiry as a weapon of antiracism and political liberation and always set his sites on the entire world We know this not by the essays alone but by Nahum Dimitri Chandler's brilliant original and quite riveting introduction If you are coming to Du Bois for the first time or the 500th time this book is a must read Robin D G Kelley author of *Freedom Dreams The Black Radical Imagination* **The Jamestown Project** Karen Ordahl Kupperman, 2009-02-28 Despite the settlers dependence on the Algonquians and strained relations with London backers they forged a colony that survived where others had failed Reconfiguring the myth of Jamestown's failure Kupperman shows how the settlement's first decade represented a period of ferment in which individuals were learning how to make a colony work

*Formation of the African Methodist Episcopal Church in the Nineteenth Century* A. Owens, 2014-02-05 This book explores the parameters of the African Methodist Episcopal Church's dual existence as evangelical Christians and as children of Ham and how the denomination relied on both the rhetoric of evangelicalism and heathenism **Elizabethan Naval**

**Administration** C.S. Knighton, David Loades, 2016-04-29 This is the first general selection from the substantial body of surviving documents about Elizabeth's navy It is a companion to *The Navy of Edward VI and Mary I* Vol 157 in the NRS Series where the apparatus serving both volumes was printed and it complements the other NRS volumes that deal specifically with the Spanish Armada This collection concentrates though not exclusively so on the early years of Elizabeth's reign when there was no formal war From 1558-1585 the navy was involved in a number of small scale campaigns pursuit of pirates and occasional shows of force The documents selected emphasize the financial and administrative processes that supported these operations such as mustering victualing demobilisation and ship maintenance and repair The fleet varied in size from about 30 to 45 ships during the period and a vast amount of maintenance and repair was required The main component of the volume is the massively detailed Navy Treasurer's account for 1562-3 which is followed by and collated with the corresponding Exchequer Account The documents illustrate just how efficiently the dockyards functioned They were one of the great early Elizabethan achievements *Caribbean Exchanges* Susan Dwyer Amussen, 2009-01-22 English

colonial expansion in the Caribbean was more than a matter of migration and trade It was also a source of social and cultural change within England Finding evidence of cultural exchange between England and the Caribbean as early as the seventeenth century Susan Dwyer Amussen uncovers the learned practice of slaveholding As English colonies [The Age of Wars of Religion, 1000-1650](#) Cathal J. Nolan, 2006-04-30 The Age of Wars of Religion saw navies armies armed merchant companies and mercenaries battle one another and local potentates in many lands and along numerous shores Wars of religion were fought in and between all the major religions and civilizations from Europe to China in Africa and in the isolated Americas mixing motives of knightly idealism mercenary greed and competing claims of divine sanction This

unparalleled work traces the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict. It offers nearly 2 000 discrete but cross-referenced entries on cultural, military, religious and political history as well as geography, biography and military literature. Close to 2 000 entries offer detailed information on the major events, places, battles, figures, technologies and ideas one must know to begin to make sense of the past six centuries of global conflicts. Though especially ferocious and intense, the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in world or military history. The Byzantine Empire, bastion of Christian Orthodoxy, staggered to the tortuous end of its long conflict with the Ottoman Empire, the Great Power of the Sunni Muslim world. The Ottomans in turn were still engaged in an equally ancient intra-Muslim war between Sunnis and Shi'ites. In India, the Hindu Rajputs and Marathas, and also the Sikhs, organized armies around religious communities to throw off the Muslim Yoke. Mughul Empire and also fought against Christian invaders from Europe. As for the isolated Americas, ideas of divine kingship sustained by powerful priesthoods and religious warfare also prevailed, as exemplified by the Inca and Aztec empires.

The Dawning of the Apocalypse Gerald Horne, 2020-06-30. Acclaimed historian Gerald Horne troubles America's settler colonialism's creation myth. August 2019 saw numerous commemorations of the year 1619 when what was said to be the first arrival of enslaved Africans occurred in North America. Yet in the 1520s the Spanish, from their imperial perch in Santo Domingo, had already brought enslaved Africans to what was to become South Carolina. The enslaved people here quickly defected to local Indigenous populations and compelled their captors to flee. Deploying such illuminating research, *The Dawning of the Apocalypse* is a riveting revision of the creation myth of settler colonialism and how the United States was formed. Here Gerald Horne argues forcefully that in order to understand the arrival of colonists from the British Isles in the early seventeenth century, one must first understand the long sixteenth century from 1492 until the arrival of settlers in Virginia in 1607. During this prolonged century, Horne contends, whiteness morphed into white supremacy and allowed England to co-opt not only religious minorities but also various nationalities throughout Europe, thus forging a muscular bloc that was needed to confront rambunctious Indigenous and Africans. In retelling the bloodthirsty story of the invasion of the Americas, Horne recounts how the fierce resistance by Africans and their Indigenous allies weakened Spain and enabled London to dispatch settlers to Virginia in 1607. These settlers laid the groundwork for the British Empire and its revolting spawn that became the United States of America.

**Colonization, Piracy, and Trade in Early Modern Europe** Estelle Paranque, Nate Probasco, Claire Jowitt, 2017-08-03. This collection brings together essays examining the international influence of queens, other female rulers and their representatives from 1450 through 1700, an era of expanding colonial activity and sea trade. As Europe rose in prominence geopolitically, a number of important women such as Queen Elizabeth I of England, Catherine de Medici, Caterina Cornaro of Cyprus and Isabel Clara Eugenia of Austria exerted influence over foreign affairs. Traditionally male-dominated

spheres such as trade colonization warfare and espionage were sometimes for the first time under the control of powerful women This interdisciplinary volume examines how they navigated these activities and how they are represented in literature By highlighting the links between female power and foreign affairs Colonization Piracy and Trade in Early Modern Europe contributes to a fuller understanding of early modern queenship      *Francis Bacon's Hidden Hand in Shakespeare's The Merchant of Venice* Christina G. Waldman, 2018-07-01
