Sirius Olaf Stapledon, 2023-11-14 In *Sirius* Olaf Stapledon crafts a poignant and thought provoking narrative that delves into the complexities of identity and consciousness through the lens of a genetically engineered dog Set in an alternate early 20th century the novel intertwines philosophical musings with a richly imaginative plot as Sirius struggles with existential questions and the stark realities of his canine existence Stapledon's signature style marked by expansive ideas and a contemplative tone conveys the profound implications of humanity's reach into the realm of evolution and intelligence echoing themes prevalent in early science fiction while transcending mere genre conventions Olaf Stapledon was a visionary thinker whose background in philosophy and literature greatly influenced his writing The tensions of his time particularly the impact of World War I and the evolving discourse on ethics and technology deeply informed his exploration of what it means to be conscious His experiences and intellectual inquiries culminate in *Sirius* where he juxtaposes human and animal experiences shedding light on our moral responsibilities towards other sentient beings Readers seeking a unique blend of speculative fiction and deep philosophical questioning will find *Sirius* to be an essential read Stapledon's exploration invites reflection on the nature of intelligence empathy and what it truly means to be alive This novel is not only an engaging story but also a timeless discourse on the ethical dimensions of humanity's aspirations

Sirius William Olaf Stapledon, 2020-10-23 PLAXY and I had been lovers rather uneasy lovers for she would never speak freely about her past and sometimes she withdrew into a cloud of reserve and despond But often we were very happy together and I believed that our happiness was striking deeper roots Then came her mother's last illness and Plaxy vanished Once or twice I received a letter from her giving no address but suggesting that I might reply to her care of the Post Office in a village in North Wales sometimes one sometimes another In temper these letters ranged from a perfunctory amiability to genuine longing to have me again They contained mysterious references to a strange duty which she said was connected with her father's work The great physiologist I knew had been engaged on very sensational experiments on the brains of the higher mammals He had produced some marvelously intelligent sheep dogs and at the time of his death it was said that he was concerned with even more ambitious research One of the colder of Plaxy's letters spoke of an unexpectedly sweet reward in connection with her new duty but in a more passionate one she cried out against this exacting fascinating dehumanizing life Sometimes she seemed to be in a state of conflict and torture about something which she must not explain One of these letters was so distraught that I feared for her sanity I determined therefore to devote my approaching leave to walking in North Wales in the hope of finding her I spent ten days wandering from pub to pub in the region indicated by the addresses asking everywhere if a Miss Trelone was known in the neighbourhood At last in Llan Ffestiniog I heard of her There was a young lady of that name living in a shepherd's cottage on the fringe of the moor somewhere above Trawsfynydd The local shopkeeper who gave me this information said with an air of mystery She is a strange young lady indeed She has friends and I am one of them but she has enemies Following his directions I walked for some miles along the winding Trawsfynydd road and then turned to the left up a lane After another mile or so right on the edge of the open moor I came upon a minute cottage built of rough slabs of shale and surrounded by a little garden and stunted trees The door was shut but smoke rose from a chimney I knocked The door remained shut Peering through a window I saw a typical cottage kitchen but on the table was a pile of books I sat down on a rickety seat in the garden and noted the neat rows of cabbages and peas Away to my right

across the deep Cynfal gorge was Ffestiniog a pack of slate grey elephants following their leader the unsteeped church down a spur of hill towards the valley Behind and above stood the Moelwyn range I was smoking my second cigarette when I heard Plaxy s voice in the distance It was her voice that had first attracted me to her Sitting in a cafe I had been enthralled by that sensitive human sound coming from some unknown person behind me And now once more I heard but did not see her For a moment I listened with delight to her speech which as I had often said was like the cool sparkling talk of small waves on the pebbly shore of a tarn on a hot day I rose to meet her but something strange arrested me Interspersed with Plaxy s remarks was no other human voice but a quite different sound articulate but inhuman Just before she came round the corner of the house she said But my dear don t dwell on your handlessness so You have triumphed over it superbly There followed a strange trickle of speech from her companion then through the gate into the garden came Plaxy and a large dog

Modernism and Time Machines Tung Charles M. Tung,2019-03-14 Bridging modernist studies and science fiction scholarship Modernism and Time Machines places the fascination with time in canonical works of twentieth century literature and art side by side with the rise of time travel narratives and alternate histories in popular culture Both modernism and this cardinal trope of science fiction produce a range of effects and insights that go beyond the exhilarations of simply sliding back and forth in history Together the modernist time obsession and the fantasy of moving in time help us to rethink the shapes of time the consistency of timespace and the nature of history

Key Features Draws on insights from a range of sources including critical geography postcolonial theory science and technology studies and time studies Examines different kinds of objects together SF Impressionism and Henri Lefebvre s rhythm analysis evolutionary biology Eliot s The Waste Land and Leinster s e Sidewise in Timee Woolf Philip K Dick s alternate history and the film Interstellar bullet time Faulkner s racialized lag and Jessica Hagedorn s postcolonial anachronism e big history e Olaf Stapledon s two billion year novel of the human species and Terrence Malick s film Tree of Life

Animals and Science Maggie Bolton,Cathrine Degnen,2020-05-15 What exactly does a focus on animals bring to anthropological studies of science This is a question that the various contributors to this edited collection set out to answer This range of studies explores the intersections between animals and science across different ethnographic settings and in different historical periods The contributions to this volume look at what it means to be human the place of human beings vis vis other species on this planet our ideas of what nature and culture are the limits to our ideas of kinship the ethical debates that surround science together with their interpretation by both scientific communities and the lay public and the moral comportment of scientists Through focusing on science our contributors not only demonstrate that people elsewhere have different relationships with and knowledge of beasts and that different possibilities of relating to animals exist within our own Western

worldview but further suggest that our Western knowledge about animals and their positions in society arrived at through Western science and the social sciences is itself in need of rethinking to incorporate other ways of knowing This volume contends that accounts in which animals meet science provide important theoretical insights for anthropologists and can set new agendas for theory in anthropology and science studies

Colonialism and the Emergence of Science Fiction John Rieder,2013-01-01 This groundbreaking study explores science fiction s complex relationship with colonialism and imperialism In the first full length study of the subject John Rieder argues that the history and ideology of colonialism are crucial components of science fiction s displaced references to history and its engagement in ideological production With original scholarship and theoretical sophistication he offers new and innovative readings of both acknowledged classics and rediscovered gems Rider proposes that the basic texture of much science fiction in particular its vacillation between fantasies of discovery and visions of disaster is established by the profound ambivalence that pervades colonial accounts of the exotic other Includes discussion of works by Edwin A Abbott Edward Bellamy Edgar Rice Burroughs John W Campbell George Tomkyns Chesney Arthur Conan Doyle H Rider Haggard Edmond Hamilton W H Hudson Richard Jefferies Henry Kuttner Alun Llewellyn Jack London A Merritt Catherine L Moore William Morris Garrett P Serviss Mary Shelley Olaf Stapledon and H G Wells
