**World Geography** Ralph Stockman Tarr, Frank Morton McMurry,1912 Knowing Manchuria Ruth Rogaski,2022-09-01 Making sense of nature in one of the world s most contested borderlands According to Chinese government reports hundreds of plague infected rodents fell from the skies over Gannan county on an April night in 1952 Chinese scientists determined that these flying voles were not native to the region but were vectors of germ warfare dispatched over the border by agents of imperialism Mastery of biology had become a way to claim political mastery over a remote frontier Beginning with this bizarre incident from the Korean War Knowing Manchuria places the creation of knowledge about nature at the center of our understanding of a little known but historically important Asian landscape At the intersection of China Russia Korea and Mongolia Manchuria is known as a site of war and

environmental extremes where projects of political control intersected with projects designed to make sense of Manchuria's multiple environments. Covering more than 500,000 square miles, Manchuria's landscapes include temperate rainforests, deserts, prairies, cultivated plains, wetlands, and Siberian taiga. With analysis spanning the seventeenth century to the present day, Ruth Rogaski reveals how an array of historical actors—Chinese poets, Manchu shamans, Russian botanists, Korean mathematicians, Japanese bacteriologists, American paleontologists, and indigenous hunters—made sense of the Manchurian frontier. She uncovers how natural knowledge, and thus the nature of Manchuria itself, changed over time, from a sacred land where the dragon arose to a global epicenter of contagious disease, from a tragic wasteland to an abundant granary that nurtured the hope of a nation.

Library of Congress Subject Headings Library of Congress, 2009      **Library of Congress Subject Headings** Library of Congress. Cataloging Policy and Support Office, 2009      *The Economic History in Qin and Han Dynasty* Li Shi, The book is the volume of *The Economic History in Qin and Han Dynasty* among a series of books of *Deep into China Histories*. The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c. 1600–1046 BC, and the *Bamboo Annals* 296 BC describe a Xia dynasty c. 2070–1600 BC before the Shang, but no writing is known from the period. The Shang ruled in the Yellow River valley, which is commonly held to be the cradle of Chinese civilization. However, Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization. The Zhou dynasty 1046–256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC, and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature, and philosophy first developed during those troubled times. In 221 BC, Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi, or emperor of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death and was supplanted by the longer-lived Han dynasty 206 BC–220 AD. Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men well versed in calligraphy, history, literature, and philosophy were carefully selected through difficult government examinations. China's last dynasty was the Qing 1644–1912, which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood, the most recent being the Chinese Civil War 1927–1949. China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population.

Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China      Treasured Oases: A Selection of Jao Tsung-i's Dunhuang Studies Tsung-i Jao,2022-12-12
