The Cayuse Indians Robert H. Ruby, John Arthur Brown, 2005 In this book Robert H Ruby and John A Brown tell the story of the Cayuse people from their early years through the nineteenth century when the tribe was forced to move to a reservation First published in 1972 this expanded edition is published in 2005 in commemoration of the sesquicentennial of the treaty between the Cayuse Umatilla and Walla Walla Confederated Tribes and the U S government on June 9 1855 as well as the bicentennial of Lewis and Clark s visit to the tribal homeland in 1805 and 1806 Volume 120 in The Civilization of the American Indian Series

An Interior Empire Stephen Dow Beckham, 1995

Possessing the Pacific Stuart Banner, 2009-06-30 During the nineteenth century British and American settlers acquired a vast amount of land from indigenous people throughout the Pacific but in no two places did they acquire it the same way Stuart Banner tells the story of colonial settlement in Australia New Zealand Fiji Tonga Hawaii California Oregon Washington British Columbia and Alaska Today indigenous people own much more land in some of these places than in others And certain indigenous peoples benefit from treaty rights while others do not These variations are traceable to choices made more than a century ago choices about whether indigenous people were the owners of their land and how that land was to be transferred to whites Banner argues that these differences were not due to any deliberate land policy created in London or Washington Rather the decisions were made locally by settlers and colonial officials and were based on factors peculiar to each colony such as whether the local indigenous people were agriculturalists and what level of political organization they had attained These differences loom very large now perhaps even larger than they did in the nineteenth century because they continue to influence the course of litigation and political struggle between indigenous people and whites over claims to land and other resources Possessing the Pacific is an original and broadly conceived study of how colonial struggles over land still shape the relations between whites and indigenous people throughout much of the world
