Skilful Means A Concept In Mahayana Buddhism:

Skilful Means Michael Pye, 2003-01-01 A journey through inhospitable landscapes proves to be challenging in the extreme While employed by the Cameroons Development Corporation CDC the author who finds herself drawn to hot arid and sandy places cherishes a seemingly impossible ambition to return to Europe via the Sahara when her contract ends As the fates would have it a Dutch journalist materializes one day in this small close knit Cameroons community Named Pete he has just traversed the Sahara in a southerly direction alone with a motor cycle with sidecar Serious planning began and an apparently suitable pick up truck became available in Douala **Paul Tillich and Asian Religions** Ka-fu Keith

Chan, Yau-nang William Ng, 2017-08-21 This volume investigates Paul Tillich's relationship to Asian religions and locates Tillich in a global religious context It appreciates Tillich's heritage within the western and eastern religious contexts and explores the possibility of global religious cultural understanding through the dialogue of Tillich's thought and East West religious cultural matrix Transforming Buddhism Andre Van Der Braak, Paul Van Der Velde, Tristan Letzer, 2021-11-30 The world of Buddhism has always been a dynamic one There are endless developments and interactions as the dharma spread throughout Asia In more recent times Buddhism has even made a more global appeal dharma centers are everywhere nowadays Transforming Buddhism presents a number of casestudies of a group of scholars who each of them focus on the ways how Buddhism transforms and is transformed both in the past and in modernity The book presents results of research performed in Asia for instance on women in the Buddhist monastic tradition of Thailand foreigners living in the harsh conditions of specific Thai Theravada monasteries and childmonks in Tibet Other subjects are developments within Japanese Zen Buddhism in interaction with modern western philosophy and the Japanese Buddhism incited by K b Daishi 774 835 Next there is the inspiration for modernity that can be found in the works of the Korean monk Chinul 1158 1210 and themes in Buddhist life histories legendary historical and personal As such Transforming Buddhism gives a broad view on a number of transformations of the Buddhist dharma from various perspectives Pneumatology and the Christian-Buddhist Dialogue

Amos Yong, 2012-07-26 This project at the interface of Buddhist Christian studies comparative theology and Christian systematic theology proceeds by way of exploring questions related to the presence and activity of the Holy Spirit in a 21st century world of many faiths **Augustine and World Religions** Brian Brown, John A. Doody, Kim Paffenroth, 2008-05-30 Augustine and World Religions examines Augustine's thought for how it can inform modern inter religious dialogue Despite Augustine's reputation as the father of Christian intolerance one finds in his thought the surprising claim that within non Christian writings there are some truths in regard even to the worship of the One God This it seems hints at a deeper level of respect and dialogue between religions because one engages in such dialogue in order to better understand and worship God The essays here uncover provocative points of comparison and similarity between Christianity and other religions to further such an Augustinian dialogue *Buddhist Practice and Visual Culture* Julie Gifford, 2011-03-16 Providing an overall

interpretation of the Buddhist monument Borobudur in Indonesia this book looks at Mahayana Buddhist religious ideas and practices that could have informed Borobudur including both the narrative reliefs and the Buddha images The author explores a version of the classical Mahayana that foregrounds the importance of the visual in relation to Buddhist philosophy meditation devotion and ritual The book goes on to show that the architects of Borobudur designed a visual world in which the Buddha appeared in a variety of forms and could be interpreted in three ways by realizing the true nature of his teaching through visionary experience and by encountering his numinous presence in images Furthermore the book analyses a particularly comprehensive and programmatic expression of Mahayana Buddhist visual culture so as to enrich the theoretical discussion of the monument It argues that the relief panels of Borobudur do not passively illustrate but rather creatively picture selected passages from texts Presenting new material the book contributes immensely to a new and better understanding of the significance of the Borobudur for the field of Buddhist and Religious Studies **Religious Diversity**

in Chinese Thought P. Schmidt-Leukel, J. Gentz, 2013-09-04 This collection of essays by major scholars analyze the religious diversity in Chinese religion bringing together topics from traditional and contemporary contexts and Chinese religions encounters with Western religion *The Bodhisattva Path*, 2007 The Inquiry of Ugra Ugrapariproccha is one of the most influential Mahayana sutras preserved and transmitted in both India and China over many centuries and actively quoted in treatises on the bodhisattva path It is nevertheless one of the most neglected texts in Western treatments of Buddhism The Ugra appears to be one of the earliest bodhisattva scriptures to come down to us and as such it offers a particularly valuable window on the process by which the bodhisattva path came to be seen as a distinct vocational alternative within certain Indian Buddhist communities The Bodhisattva Path is a study and translation of the Ugra that will fundamentally alter previous perceptions of the way in which Mahayana was viewed and practiced by its earliest adherents To achieve a better understanding of the universe of ideas activities and institutional structures within which early self proclaimed bodhisattvas lived the author first considers the Ugra as a literary document employing new methodological tools to examine the genre to which it belongs the age of its extant versions and their relationships to one another She goes on to challenge the dominant notions that the Mahayana emerged as a reform of earlier Buddhism and offered lay people an easier option On the contrary the picture that emerges is of the early Mahayana as a more difficult and demanding vocation initially limited to a small contingent of monastic males Combining a detailed critical study and translation of an important Buddhist scripture with a sweeping re examination of the relationship between the Buddha and the practitioners alike and other interested in the history of Indian Buddhism and the formation of Mahayana Human Rights and the World's Major Religions William H. Brackney, 2013-10-01 Based on the celebrated five volume set published in 2005 this updated one volume edition offers readers a concise yet complete understanding of the interplay between the major religions and human rights In a world where religious beliefs have become inseparable from the events of the day ranging from the ongoing strife in the Middle

East to cases of sexual abuse by clergy and controversy over circumcision laws in Europe this is an invaluable work It offers readers a comprehensive examination of the way the world's five major faiths Judaism Christianity Islam Hinduism and Buddhism view and have viewed human rights from ancient times to the present An overview of each tradition is provided followed by chapters that show how human rights have been shaped and understood in the tradition from the earliest textual evidence to the contemporary era Considering the differences among religious traditions globally the book shows how each faith advanced the cause of human rights in unique ways Contributors track the development of ideas opinions and issues documenting both the advancement and violation of human rights in the name of religion Demonstrating that human rights discourse cannot be divorced from religious history and experience the book covers such issues as the right to life the rights of women punishment for crimes war and peace slavery and violence
