Williams,W.H. Schmitt,2012-12-06 This second edition has been designed to monitor the progress in development over the past few years and to build on the information given in the first edition It has been extensively revised

and updated My thanks go to all who have contributed to this work D F W May 1996 Preface to the first edition This book is the result of a group of development scientists feeling that there was an urgent need for a reference work that would assist chemists in understanding the science involved in the development of new products The approach is to inform in a way that allows and encourages the reader to develop his or her own creativity in working with marketing colleagues on the introduction of new products Organised on a product category basis emphasis is placed on formulation selection of raw materials and the technology of producing the products discussed Performance considerations safety product liability and all aspects of quality are covered Regulations governing the production and sale of cosmetic products internationally are described and sources for updated information provided Throughout the book reference is made to consumer pressure and environmental issues concerns which the development scientist and his or her marketing counterpart ignore at their own and their employer's peril In recent years many cosmetic fragrances and toiletry products have been converted from aerosols to mechanically pressurised products or sprays and these are described along with foam products such as hair conditioning mousses

Clinical Pediatric Dermatology - E-Book Devinder Mohan Thappa, 2009-11-15 Parents bring their children to pediatrician for common pediatric problems and ask for opinion on coexisting skin problems secondary complaint or they come with primary dermatological problems Very few pediatricians work in dermatology OPD or wards during their training in pediatrics and hence are not able to handle dermatological complaints when they set up their practice When faced with such a problem there is a tendency to prescribe ointments containing antibacterial antifungal agents and steroids Such a polytherapeutic approach may have disastrous consequences Moreover some of the dermatological conditions in children are different from those in adults In this era of sub specialization general pediatricians who offer primary care to children must be knowledgeable in pediatric dermatological problems Since 20-30% of cases in pediatric practice have dermatological problems there is a need for a book on Pediatric Dermatology keeping in view the specific problems encountered in Indian subcontinent Clinical Pediatric Dermatology is primarily meant for beginners in pediatric dermatology and pediatricians This book has been written keeping in view the interests of both The main purpose of this book is to educate pediatricians and dermatologists who take care of young ones with pediatric dermatoses A clinically oriented book for beginners in pediatric dermatology Develops key learning skills to manage pediatric dermatoses Builds clear cut concepts in pediatric dermatology Focuses on common pediatric dermatoses seen in India
