## **Skyview Canada:**

**Terra Nostra** Jeffrey S. Murray, 2006-04-01 Maps have been invaluable throughout Canada's history. They promised fame and fortune to early merchant adventurers and guided army commanders. They legitimized a politician's dominion and allowed businessmen to stake new claims. And they helped ordinary citizens build communities. *The Industrial Transformation of Subarctic Canada* Liza Piper, 2010-01-01 Between 1821 and 1960 industrial economies took root in the North, transgressing political geographies and superseding the historically dominant fur trade. Imported southern scientists and sojourning labourers worked the Northwest, and its industrial history bears these newcomers' imprint. This book reveals the history of human impact upon the North. It provides a baseline grounded in historical and scientific evidence for measuring subarctic environmental change. Liza Piper examines the sustainability of industrial economies, the value of resource exploitation in volatile ecosystems, and the human consequences of northern environmental change. She also addresses northern communities' historical resistance to external resource development and their fight for survival in the face of intensifying environmental and economic pressures. *The Canadian Space Program* Andrew B. Godefroy, 2017-05-03 Canada's space efforts from its origins towards the end of the Second World War through to its participation in the ISS today are revealed in full in this complete and carefully researched history. Employing recently declassified archives and many never previously used sources, author Andrew B. Godefroy explains the history of the program through its policy and many fascinating projects. He assesses its effectiveness as a major partner in both US and international space programs, examines its current national priorities and capabilities, and outlines the country's plans for the future. Despite being the third nation to launch a satellite into space after the Soviet Union and the United States, being a major partner in the US space shuttle program with the iconic Canadarm, being an international leader in the development of space robotics, and acting as one of the five major partners in the ISS, the Canadian Space Program remains one of the least well-known national efforts of the space age. This book attempts to shed a clearer light on the progress made by the CSA thus far with more ambitious goals ahead. Technical information, diagrams, glossaries, a chronology, and extensive notes on sources are also included in this volume. *Science, Technology and Canadian History* Richard A. Jarrell, Norman R. Ball, 2006-01-01 The first Conference on the Study of the History of Canadian Science and Technology held in Kingston, Ontario, in November 1978 marks the emergence of a new Canadian discipline. This wide-ranging bilingual collection of papers and workshops includes contributions by some of the historians, scientists, educators, students, archivists, and government representatives present at the conference. The papers discuss the nature of the new field, its objectives, and the problems of resources, funding, publishing, and practical uses, which face historians of Canadian science and technology. Records of the workshops convey the flavour of excitement present at the conference. Included in the volume are an extensive bibliography and listings of museums and available collections, research in progress, and conference participants. **Mechanical Engineering at the National**

**Research Council of Canada** W.E. Knowles Middleton,1984-04-12 W E Knowles Middleton continuing his series of books on the history of the National Research Council of Canada here presents a history of the challenges defeats and triumphs of mechanical engineering at the Council Throughout much of the history of the National Research Council the Division of Mechanical Engineering has been mostly preoccupied with problems of aeronautics During World War II the Division constituted an aeronautical laboratory The influence of individuals government departments and individuals all involved in supporting and demanding research into problems of mechanical engineering in Canada makes intriguing reading The volume will be of interest to those investigating the history of science and technology in Canada It will also be crucial to those interested in Canada s contribution to World War II on the fronts of technology and aeronautics *Art Et Architecture Au Canada* Loren Ruth Lerner,Mary F. Williamson,1991-01-01 Identifies and summarizes thousands of books article exhibition catalogues government publications and theses published in many countries and in several languages from the early nineteenth century to 1981 *Polar Winds* Danielle Metcalfe-Chenail,2014-09-10 With historical research and rare interviews explore the highs and lows of aviation north of the 60th parallel This journey takes readers from hot air balloons above the Klondike gold fields to international bids for the North Pole to high profile crashes and search and rescue operations *Surveying and Mapping* ,1978 *Understanding Surveillance Technologies* J.K. Petersen,Cawood James S.,Corcoran James S.,Michael H. Ph.D.,2007-02-05 Understanding Surveillance Technologies demystifies spy devices and describes how technology is used to observe and record intimate details of people s lives often without their knowledge or consent From historical origins to current applications it explains how satellites pinhole cameras cell phone and credit card logs DNA kits tiny m **Transforming the Prairies** Shannon Stunden Bower,2024-11-01 Transforming the Prairies proposes a new understanding of Canada s Prairie Farm Rehabilitation Administration PFRA complicating common views of the agency as a model of effective government environmental management Between 1935 and 2009 the PFRA promoted agricultural rehabilitation in and beyond the Canadian Prairies with mixed and equivocal results The promotion of strip farming as a soil conservation technique for example left crops susceptible to sawfly infestations The PFRA s involvement in irrigation development in Ghana increased the local population s vulnerability to various illnesses And PFRA infrastructure construction intended to serve the public good failed to account for the interests of affected Indigenous peoples The PFRA is revealed as being a high modernist state agency that produced varied environmental outcomes and that contributed to consolidating colonialism and racism This investigation affirms the importance of engaging historical perspectives to help ensure that contemporary environmental management efforts support more just and sustainable futures *Photographing Canada from Flying Canoes* S. Bernard Shaw,2001 **Handbook of Surveillance Technologies** J.K. Petersen,Pamela Taylor,2012-01-23 From officially sanctioned high tech operations to budget spy cameras and cell phone video this updated and expanded edition of a bestselling handbook reflects the rapid and significant growth of the surveillance industry The

Handbook of Surveillance Technologies Third Edition is the only comprehensive work to chronicle the background and current
