Siwah Oasis:

Siwa Sir Charles Dalrymple Belgrave,1923 Siwa Margaret M. Vale,2015-01-01 Siwa is a remote oasis deep in the heart of the Egyptian desert near the border with Libya Until an asphalt road was built to the Mediterranean coast in the 1980s its only links to the outside world were by arduous camel tracks As a result of this isolation Siwa developed a unique culture manifested in its crafts of basketry pottery and embroidery and in its styles of costume and silverwork The most visible and celebrated example of this was the silver jewelry that was worn by women in abundance at weddings and other ceremonies Based on conversations with women and men in the oasis and with reference to old texts this book describes the jewelry and costume at this highpoint of Siwan culture against the backdrop of its date gardens and springs social life and dramatic history It places the women s jewelry costume and embroidery into social perspective and describes how they were used in ceremonies and everyday life and how they were related to their beliefs and attitudes to the world The book also describes how in the second half of the twentieth century the arrival of the road and of television brought drastic change and the oasis was exposed to the styles and fashions of the outside world and how the traditional silver ornaments were gradually replaced by gold **Seawater Intrusion in Coastal Aquifers** ,1997-01-01 Siwa Oasis Ahmed Fakhry,1944

Tourism as a Tool for Development P. Díaz,2013-10-30 Some researchers perceive tourism as a process which creates dependency and causes loss of socioeconomic and environmental control and is harmful to traditional sociocultural structures For others it is clearly an opportunity for development and convergence among societies The main consequences of tourism are economic sociocultural and socio ecological ones These directly affect the natural and cultural landscape as

well as the inhabitants of the destinations Proper management can unite the local community strengthen the historical memory and promote the recognition that the landscape is a legacy worth preserving If local people can learn to appreciate the need for regulation and careful development of cultural tourism then it is possible to have an alternative to the strategies of convenience based upon the view of tourism only for profit Designing tourism to serve heritage and local sustainable development not only helps to conserve the resources that make it possible but also complies with the ethical duty to guide social perception towards awareness and respect which in turn will lead to sustainability By means of case studies and theoretical developments the authors attempt to present methods designed to minimise the impacts of tourism and encourage its positive effects Some ideas in the book discuss the role of local communities their participation in development management the singularities of community tourism planning local governance and the relationship between socio economic benefits and impacts
