Six Presidents Too Many Wars:

Six Presidents, Too Many Wars Bill Lawrence, 1972 Buried by the Times Laurel Leff, 2005-03-21 Publisher Description

Air University Library Index to Military Periodicals, 1971 **Campaign of the Century** Irwin F.

Gellman, 2022-01-04 Based on massive new research a compelling and surprising account of the twentieth century's closest election The 1960 presidential election between John F Kennedy and Richard Nixon is one of the most frequently described political events of the twentieth century yet the accounts to date have been remarkably unbalanced Far more attention is given to Kennedy's side than to Nixon's The imbalance began with the first book on that election Theodore White's *The Making of the President 1960* in which as he later admitted White deliberately cast Kennedy as the hero and Nixon as the villain and it has been perpetuated in almost every book since then Few historians have attempted an unbiased account of the election and none have done the archival research that Irwin F Gellman has done Based on previously unused sources such as the FBI's surveillance of JFK and the papers of Leon Jaworski vice presidential candidate Henry Cabot Lodge and many others this book presents the first even handed history of both the primary campaigns and the general election The result is a fresh engaging chronicle that shatters long held myths and reveals the strengths and weaknesses of both candidates

Harry S. Truman and the News Media Franklin D. Mitchell, 1998 Based upon extensive research in the papers of President Harry S Truman and in several journalistic collections *Harry S Truman and the News Media* recounts the story of a once unpopular chief executive who overcame the censure of the news media to ultimately win both the public's and the press's affirmation of his personal and presidential greatness Franklin D Mitchell traces the major contours of journalism during the lifetime and presidency of Truman Although newspapers and newsmagazines are given the most emphasis reporters and columnists of the Washington news corps also figure prominently for their role in the president's news conferences and their continuing coverage of Truman and his family Broadcast journalism's expanding coverage of the president is also explored through chapters dealing with radio and television President Truman's advocacy of a liberal Fair Deal for all Americans and a prudent and visible role for the nation in world affairs drew fire from the anti administration news media particularly the publishing empire of William Randolph Hearst the McCormick Patterson newspapers the Scripps Howard chain and the Time Life newsmagazines of Henry R Luce Despite press opposition and the almost universal prediction of defeat in the 1948 election Truman was victorious in the greatest miscalled presidential election in journalistic history During his full term Truman's relations with the news media became contentious over such matters as national security in the Cold War the conduct of the Korean War and the continuing charges of communism and corruption in the administration Although Truman's career in politics was based on honesty and the welfare of the people his early political alliance with Thomas Pendergast Kansas City's notorious political boss provided the opportunity for a portion of the press to charge Truman with subservience to Pendergast's own agenda of corrupt government The history and the dynamics of the

Truman presidency and the American news media combined with biographical and institutional sketches of key individuals and news organizations make Harry S Truman and the News Media a captivating and original investigation of an American president Well written and researched this book will be of great value to Truman scholars journalists and anyone interested in American history or presidential studies

The Postwar Decline of American Newspapers, 1945-1965 David R. Davies, 2006-07-30 On the surface the American newspaper industry appears to have changed little from 1945 to 1965 remaining both healthy and prosperous The number of newspapers in 1965 was about the same as in 1945 while during the twenty year period advertising revenues increased substantially despite new competition from television Just as in 1945 the vast majority of newspapers went to press with improved but old fashioned letterpress methods in 1965 And newspaper reporters still professed a strong if now somewhat shaken faith in the federal government at the end of the twenty years But the surface appearance of both stability and profitability obscured profound change In the two decades after World War II the business of newspaper publishing changed significantly in myriad ways By 1965 editors and publishers had recognized the extent of these changes and were beginning to adjust Each of the changes was significant of its own accord and the range of challenges throughout the period combined to transform newspapers and the nation they served by 1965 This transformation was evident to varying degrees in newspapers content their production methods their economic position within the overall media marketplace and their relationship with government Newspapers some more than others made strides to keep up with and overcome some of these challenges But in each of these areas newspapers as a group were slow to respond to the problems facing journalism
