[Understanding Child Development](#)

Rosalind Charlesworth, 2008 *Understanding Child Development 7e* is a text designed for students in early childhood teacher preparation programs and for teachers in service and those in related in service and preparation programs. It is now available in the seventh edition and includes many new features and benefits. For students, it introduces the unique qualities of the young child as distinguished from older children and demonstrates how to work with young children in ways that correspond with their individual developmental level and social and cultural environment. For in-service teachers, the text offers an opportunity to evaluate their views of young children and compare them with the views presented in the text. In each section of the book, critical social and cultural factors are related to young children's development, and factors relevant to working with children with special needs are integrated throughout the text. Other areas covered include developmentally appropriate practice, readiness assessment, working with children and families from diverse cultures, development of early stages of reading, the importance of brain development and play and learning. Content is connected directly to the importance of play and technology to a young child's learning is included along with the popular theoretical views of learning. Many real-life examples and anecdotes are included in the text in order to make theory and research come alive. The text is organized in larger sections with chapter divisions that provide the reader with easily digested segments of material. Each chapter includes boxed problems for reflection and for further learning as well as further activities, reference lists, and review questions at the end of each chapter. The text includes many examples, explanatory charts, and full-color photographs, and the online resources are expanded.

This Is Balanced Literacy, Grades K-6 Douglas Fisher, Nancy Frey, Nancy

Akhavan, 2019-08-26 *This is Balanced Literacy Grades K-6*. Students learn to read and write best when their teachers balance literacy instruction. But how do you strike the right balance of skills and knowledge, reading and writing, small and whole group instruction, and direct and dialogic instruction so that all students can learn to their maximum potential? The answer lies in the intentional design of learning activities, purposeful selection of instructional materials, evidence-based teaching methods, and in strategic groupings of students based on assessment data. Together, these create the perfect balance of high-impact learning experiences that engage and excite learners. In this hands-on essential guide, best-selling authors Douglas Fisher, Nancy Frey, and Nancy Akhavan help you define that balance for your students, lighting the path to implementing balanced literacy in your classroom. Their plan empowers you to integrate evidence-based approaches that include instructional materials comprised of both informational and narrative texts. The best uses of instructional delivery modes, including direct and dialogic instruction, grouping patterns that work best to accomplish learning aims for different learners at different stages, instruction in foundational skills and meaning-making, including oral language, phonemic awareness, phonics, fluency, vocabulary, comprehension, and writing. Technology used as a tool for increasing learning of a specific literary process. All the tips and tools you need to realize the goal of balanced literacy learning are included, with classroom videos that show strategies in action. Tap your intuition, collaborate with your peers, and put the research-based strategies embedded
