By looking at our 3rd and 4th dimensions through the eyes of the highest dimensions readers will discover a new perspective on science theology and nature. James uses the example of fish limited to perceiving only the 1st and 2nd dimensions unable to comprehend the full depth of higher dimensions. He applies this concept to the 12th dimension incorporating evidence from sciences mathematics theology and nature. Readers views will be transformed as they experience a broader understanding of the cosmos and their place within it.
