also the influence of celebrity performers like Gene Autry and Ella Fitzgerald Too often rock historians treat the genesis of rock n roll as a bolt from the blue an overnight revolution provoked by the bland pop music that immediately preceded it and created through the white appropriation of music till then played only by and for black audiences In Before Elvis Birnbaum daringly argues a more complicated history of rock s evolution from a heady mix of ragtime boogie woogie swing country music mainstream pop and rhythm and blues a melange that influenced one another along the way from the absorption of blues and boogies into jazz and pop to the integration of country and Caribbean music into rhythm and blues Written in an easy style Before Elvis presents a bold argument about rock s origins and required reading for fans and scholars of rock n roll history **The Guinness Encyclopedia of Popular Music: Primitives-Three's A Crowd** Colin Larkin,1995
