Alpers, Gwyn Campbell, Michael Salman, 2007-01-24 This volume examines the various abolitionist impulses in the Indian Ocean World during the nineteenth and twentieth centuries and assesses their efficacy within a context of a growing demand for labour resulting from an expanding international economy and European colonisation *A History of Slavery and Emancipation in Iran, 1800-1929* Behnaz A. European Slave Trading in the Indian Ocean, 1500-1850 Richard B. Allen, 2015-01-01 Between 1500 and 1850 European traders shipped hundreds of thousands of African Indian Malagasy and Southeast Asian slaves to ports throughout the Indian Ocean world The activities of the British Dutch French and Portuguese traders who operated in the Indian Ocean demonstrate that European slave trading was not confined largely to the Atlantic but must now be viewed as a truly global phenomenon European slave trading and abolitionism in the Indian Ocean also led to the development of an increasingly integrated movement of slave convict and indentured labor during the late eighteenth and early nineteenth centuries the

consequences of which resonated well into the twentieth century Richard B Allen's magisterial work dramatically expands our understanding of the movement of free and forced labor around the world Drawing upon extensive archival research and a thorough command of published scholarship Allen challenges the modern tendency to view the Indian and Atlantic oceans as self contained units of historical analysis and the attendant failure to understand the ways in which the Indian Ocean and Atlantic worlds have interacted with one another In so doing he offers tantalizing new insights into the origins and dynamics of global labor migration in the modern world

[The Anti-Slavery Project](#) Joel Quirk, 2011-05-26 It is commonly assumed that slavery came to an end in the nineteenth century While slavery in the Americas officially ended in 1888 millions of slaves remained in bondage across Africa Asia and the Middle East well into the first half of the twentieth century Wherever laws against slavery were introduced governments found ways of continuing similar forms of coercion and exploitation such as forced bonded and indentured labor Every country in the world has now abolished slavery yet millions of people continue to find themselves subject to contemporary forms of slavery such as human trafficking wartime enslavement and the worst forms of child labor The Anti Slavery Project From the Slave Trade to Human Trafficking offers an innovative study in the attempt to understand and eradicate these ongoing human rights abuses In The Anti Slavery Project historian and human rights expert Joel Quirk examines the evolution of political opposition to slavery from the mid eighteenth century to the present day Beginning with the abolitionist movement in the British Empire Quirk analyzes the philosophical economic and cultural shifts that eventually resulted in the legal abolition of slavery By viewing the legal abolition of slavery as a cautious first step rather than the end of the story he demonstrates that modern anti slavery activism can be best understood as the latest phase in an evolving response to the historical shortcomings of earlier forms of political activism By exposing the historical and cultural roots of contemporary slavery The Anti Slavery Project presents an original diagnosis of the underlying causes driving one of the most pressing human rights problems in the world today It offers valuable insights for historians political scientists policy makers and activists seeking to combat slavery in all its forms

Language and Civilization

Change in South Asia Maloney, 1978-06 *Abolition* Seymour Drescher, 2009-07-27 In one form or another slavery has existed throughout the world for millennia It helped to change the world and the world transformed the institution In the 1450s when Europeans from the small corner of the globe least enmeshed in the institution first interacted with peoples of other continents they created in the Americas the most dynamic productive and exploitative system of coerced labor in human history Three centuries later these same intercontinental actions produced a movement that successfully challenged the institution at the peak of its dynamism Within another century a new surge of European expansion constructed Old World empires under the banner of antislavery However twentieth century Europe itself was inundated by a new system of slavery larger and more deadly than its earlier system of New World slavery This book examines these dramatic expansions and contractions of the institution of slavery and the impact of violence economics and civil society in the ebb and flow of slavery

and antislavery during the last five centuries African Re-Genesis Jay B Haviser, Kevin C MacDonald, 2016-07 An exploration of the archaeology of the African diaspora *Slavery and Colonial Rule in French West Africa* Martin A. Klein, 1998-07-28 Martin Klein's book is a history of slaves during the nineteenth and twentieth centuries in three former French colonies It investigates the changing nature of local slavery over time and the evolving French attitudes towards it through the phases of trade conquest and colonial rule The heart of the study focuses on the period between 1876 and 1922 when a French army composed largely of slave soldiers took massive numbers of slaves in the interior while in areas near the coast hesitant actions were taken against slave raiding trading and use After 1900 the French withdrew state support of slavery and as many as a million slaves left their masters A second exodus occurred after World War I when soldiers of slave origin returned home The renegotiation of relationships between those who remained and their masters carries the story into the contemporary world **Slavery and the Birth of an African City** Kristin Mann, 2007-09-26 As the slave trade entered its last illegal phase in the 19th century the town of Lagos on West Africa's Bight of Benin became one of the most important port cities north of the equator *Slavery and the Birth of an African City* explores the reasons for Lagos's sudden rise to power By linking the histories of international slave markets to those of the regional suppliers and slave traders Kristin Mann shows how the African slave trade forever altered the destiny of the tiny kingdom of Lagos This magisterial work uncovers the relationship between African slavery and the growth of one of Africa's most vibrant cities *The Palgrave Handbook of Bondage and Human Rights in Africa and Asia* Gwyn Campbell, Alessandro Stanziani, 2020-01-14 In the West human bondage remains synonymous with the Atlantic slave trade But large slave systems in Africa and Asia predated co existed and overlapped with the Atlantic system and have persisted in modified forms well into the twenty first century posing major threats to political and economic stability within those regions and worldwide This handbook examines the deep historical roots of unfree labour in Africa and Asia along with its contemporary manifestations It takes an innovative longue dure perspective in order to link the local and global the past and present Contributors trace shifting forms of forced labour in the region since circa 1800 connecting punctual shocks such as environmental crisis conflict market instability and crop failure to human security threats such as impoverishment violence migration kidnapping and enslavement Together these chapters illuminate the historical and contemporary dimensions of bondage in Africa and Asia with important implications for the fight against modern day bondage and human trafficking **Slavery and Reform in West Africa** Trevor R. Getz, 2004-04-20 A series of transformations reforms and attempted abolitions of slavery form a core narrative of nineteenth century coastal West Africa As the region's role in Atlantic commercial networks underwent a gradual transition from principally that of slave exporter to producer of legitimate goods and dependent markets institutions of slavery became battlegrounds in which European abolitionism pragmatic colonialism and indigenous agency clashed In *Slavery and Reform in West Africa* Trevor Getz demonstrates that it was largely on the anvil of this issue that French and British policy in West Africa was forged With

distant metropolises unable to intervene in daily affairs local European administrators striving to balance abolitionist pressures against the resistance of politically and economically powerful local slave owners sought ways to satisfy the latter while placating or duping the former The result was an alliance between colonial officials company agents and slave owning elites that effectively slowed sidetracked or undermined serious attempts to reform slave holding Although slavery was outlawed in both regions in only a few isolated instances did large scale emancipations occur Under the surface however slaves used the threat of self liberation to reach accommodations that transformed the master slave relationship By comparing the strategies of colonial administrators slave owners and slaves across these two regions and throughout the nineteenth century Slavery and Reform in West Africa reveals not only the causes of the astounding success of slave owners but also the factors that could and in some cases did lead to slave liberations These findings have serious implications for the wider study of slavery and emancipation and for the history of Africa generally
