Slaves of the Mastery Dump Full Egmont Books, Limited, 2001-05 Southern Manhood Craig Thompson Friend, Lorri Glover, 2004 Spanning the era from the American Revolution to the Civil War these nine pathbreaking original essays explore the unexpected competing or contradictory ways in which southerners made sense of manhood Employing a rich variety of methodologies the contributors look at southern masculinity within African American white and Native American communities on the frontier and in towns and across boundaries of class and age Until now the emerging subdiscipline of southern masculinity studies has been informed mainly by conclusions drawn from research on how the planter class engaged issues of honor mastery and patriarchy But what about men who didn't own slaves or were themselves enslaved These essays illuminate the mechanisms through which such men negotiated with overarching conceptions of masculine power Here the reader encounters Choctaw elites struggling to maintain manly status in the market economy black and white artisans forging rival communities and competing against the gentry for social recognition slave men on the southern frontier balancing community expectations against owner domination and men in a variety of military settings acting out community expectations to secure manly status As *Southern Manhood* brings definition to an emerging

subdiscipline of southern history it also pushes the broader field in new directions All of the essayists take up large themes in antebellum history including southern womanhood the advent of consumer culture and market relations and the emergence of sectional conflict

Masterful Women Kirsten E. Wood, 2005-12-15 Many early nineteenth century slaveholders considered themselves masters not only over slaves but also over the institutions of marriage and family According to many historians the privilege of mastery was reserved for white males But as many as one in ten slaveholders sometimes more was a widow and as Kirsten E Wood demonstrates slaveholding widows between the American Revolution and the Civil War developed their own version of mastery Because their husbands wills and dower law often gave women authority over entire households widowhood expanded both their domestic mandate and their public profile They wielded direct power not only over slaves and children but also over white men particularly sons overseers and debtors After the Revolution southern white men frequently regarded powerful widows as direct threats to their manhood and thus to the social order By the antebellum decades however these women found support among male slaveholders who resisted the popular claim that all white men were by nature equal regardless of wealth Slaveholding widows enjoyed material legal and cultural resources to which most other southerners could only aspire The ways in which they did and did not translate those resources into social political and economic power shed new light on the evolution of slaveholding society
