Entrepreneur's Guide to Start, Grow, and Manage A Profitable Business Daniel R. Hogan, Daniel R. Hogan Jr. Ph. D., 2011-05 The Entrepreneur's Guide To Start Grow and Manage a Profitable Business In his book The Right Stuff Tom Wolfe describes what it took for the early test pilots to succeed A career in flying was like climbing one of those ancient Babylonian pyramids made up of a dizzy progression of steps and ledges and the idea was to prove at every foot of the way that you were one of the elected and anointed ones who had the right stuff and could move higher and higher and even ultimately God willing one day that you might be able to join that special few at the very top that elite who had the capacity to bring tears to men's eyes the very brotherhood of the right stuff itself Although success as an entrepreneur launching a new business does not include feeling superior or facing death it does require that a person have a special set of qualities and skills with which to exercise good judgment make wise decision take calculated risk and get along with and lead others The Entrepreneur's Guide To Start Grow and Manage a Profitable Business provides what it takes what is the right stuff for the successful entrepreneur The most successful entrepreneurs are not necessarily those who work hardest or longest Successful business owners are those who have a vision that can see beyond the bottom line who have learned to manage their professional and personal lives Making it with a new business venture requires all the traits of an entrepreneur as enumerated in The Entrepreneur's Guide as well as the knowledge skills and persistence to grow and withstand the stress ambiguity conflicting objectives emotions and chaos that comes with a new business effort Achieving this balance is what The Entrepreneur's Guide is about It will help you steer a path to guide you with the right stuff to the top of the pyramid of business success

How to Start a Small Business Gregory Khan, 2015-09-16 Starting your own business is always a good idea to have floating around your head But there's a difference between fantasizing about it and actually getting around to making it happen Even the smallest simplest businesses have the potential to grow into success over time and it's one of the most rewarding and worthwhile pursuits The catch is of course that starting a business is a daunting undertaking for most people A lot of people actually psyche themselves out before they even begin believing that the prospect of entrepreneurship is only for the right kind of people and that they're not one But as the old saying goes the first step is always the hardest And in this case planning out and piecing your business together from scratch is going to be the first step and that's exactly what this book is designed to help you conquer Together we're going to walk through the logistics of starting a new business through a step by step process from ascertaining the legal requirements to understanding your market right up to the point when you're finally ready to open up shop You will also learn what you lack and what you need to do in order to become ready to take on the challenge of entrepreneurship By the end of this book you'll realize that the first step to starting a business isn't so tough after all
