Silviu Vasile, The time you invest is the guarantee of your future Personal development and the desire to know and learn constantly raise you to a higher level of performance The good news is that you don t have to invest 8 hours or 10 hours it only takes 3% of your time or 45 minutes a day to develop personally What do you do if you don t have those 45 minutes every day Surely you can find 45 minutes a day You can gain time from anywhere when you go straight home after work or when you turn off the TV and computer early The wealth that will be spread over your life is the accumulation of all the investments you ve made every day A year has 365 days if you invest 45 minutes every day then in two or three years you will have the performance you could normally achieve in 10 or 15 years of hard work Time is relative You decide if it is the most important resource you have or if you choose to waste it unnecessarily Time is money The more time you invest in your education and self education the more money you will have until you can be financially independent Every person s dream should be financial independence a way of living independent of pressing material worries and problems Lack of money is the biggest stress factor the reason for arguments and divorces suffering and illness This is why time management is vital Because without it your life is outlined in dull grey colours You will live a life of constant discontent frustration and unhappiness In the end all this unhappiness will make you a sad and lonely man because people want positive and dynamic people around them It s time to invest in time management no time could be better for you than now You will find in this book information that will help you to create your own image of time management and this image will be the basis of a strategy that will help you to save your life to get out of the grey area the place where food has no taste and water does not saturate you no matter how much you drink of it The information will take you to where the world is pulsating and moving fast where you too are forced to move fast and evolve into the champion that life rewards What could be more enjoyable than to lay your head on your pillow in the evening satisfied that you have built something for yourself and your future in the day that has just ended What can be more beneficial to you than to fall asleep thinking excitedly about what new opportunities tomorrow will bring
