Money and the Governance of Punishment Patricia Cabana,2017-06-26 Money is the most frequently means used in the legal system to punish and regulate Monetary penalties outnumber all other sanctions delivered by criminal justice in many jurisdictions imprisonment included More people pay fines than go to prison and in some jurisdictions many of those in prison are there because of failure to pay their fines Therefore it is surprising how little has been written in the Anglophone academic world about the nature of money sanctions and their specific characteristics as legal sanctions In many ways legal innovations related to money sanctions have been poorly understood This book argues that they are a direct consequence of the changing meaning of money Considering the meaninglessness of modern money the book aims to examine the history of changing conceptions in how fines have been conceived and used Using a set of interpretative techniques sensitive to how money and freedom are perceived the genealogy of the penal fine is presented as a story of constant reformulation in response to shifting political pressures and changes in intellectual developments that influenced ideological commitments of legislators and practitioners This book is multi disciplinary and will appeal to those engaged with criminology sociology and philosophy of punishment socio legal studies and criminal law

The American Prison Francis T. Cullen,Cheryl Lero Jonson,Mary K. Stohr,2013-04-11 For the first time in four decades prison populations are declining and politicians have reached the consensus that mass

imprisonment is no longer sustainable At this unique moment in the history of corrections the opportunity has emerged to discuss in meaningful ways how best to shape efforts to control crime and to intervene effectively with offenders The American Prison Imagining a Different Future by Francis T Cullen Cheryl Lero Johnson and Mary K Stohr pulls together established correctional scholars to imagine what this prison future might entail Each scholar uses his or her expertise to craft in an accessible way for students to read a blueprint for how to create a new penology along a particular theme For example one contributor writes about how to use existing research expertise to create a prison that is therapeutic and another provides insight on how to create a feminist prison In the final chapter the editors pull together the lessons learned in a cohesive comprehensive essay **The New Politics of Crime and Punishment** Roger Matthews,Jock

Young,2013-01-11 The underlying theme of the book is that a qualitative change has taken place in the politics of crime control in the UK since the early 1990s It provides an overview of recent government initiatives in the field of crime and punishment reviewing both the policies themselves the perceived problems and issues they seek to address and the broader social and political context in which this is taking place *Encyclopedia of Community Corrections* Shannon M.

Barton-Bellessa,2012-05 In response to recognition in the late 1960s and early 1970s that traditional incarceration was not working alternatives to standard prison settings were sought and developed One of those alternatives community based corrections had been conceived in the 1950s as a system that might prove more progressive humane and effective particularly with people who had committed less serious criminal offenses and for whom incarceration with constant exposure to serious offenders and career criminals might prove more damaging than rehabilitative The alternative of community corrections has evolved to become a substantial part of the criminal justice and correctional system spurred in recent years not so much by a progressive humane philosophy as by dramatically increasing prison populations court orders to fix overextended prison settings and an economic search for cost savings Encyclopedia of Community Corrections explores all aspects of community corrections from its philosophical foundation to its current inception Features a thematic reader s guide in the front matter groups entries by broad topical or thematic areas to make it easy for users to find related entries at a glance a chronology in the back matter helps students put individual events into broader historical context a glossary provides students with concise definitions to key terms in the field a resource guide to classic books journals and web sites along with the further readings accompanying each entry guides students to further resources in their research journeys and appendix offers statistics from the Bureau of Justice **Evaluating Intensive Supervision Probation/parole** Joan Petersilia,Susan Turner,1993
