of a wide variety of issues and forms of agreement as well as the various forms of international commercial dispute resolution. The seventh edition includes new and updated material on a large number of issues and concepts such as new developments and technical progress in electronic commerce, the use of concepts of standardization i.e. the work of the International Organization for Standardization as a contract drafting tool, new developments in artificial intelligence in contract drafting, the use of cryptocurrencies as a payment device, expedited arbitration, early neutral evaluation and digital procedures for dispute resolution online, dispute resolution including the phenomenon of the robot arbitrator and foreign direct investment, investment law and investor state dispute resolution. Each chapter provides numerous references to additional sources including websites, journal articles and texts. Materials from and citations to appropriate literature and languages other than English are included. Recognizing that business executives entering into an international commercial transaction are mainly interested in drafting and negotiating an agreement that satisfies all of the parties and that will be performed as promised, this superb guide will measurably assist any lawyer or business executive in planning and implementing contracts and resolving disputes even when that person is not interested in a full blown understanding of the entire landscape of international contracts. Business executives who are not lawyers will find that this book gives them the understanding and perspective necessary to work effectively with legal experts. *American Conflicts Law, 5th edition* Luther L.
