The Bhagavadgita in the Nationalist Discourse Nagappa Gowda K.,2011-05-30 The Bhagavadgita has lent itself to several readings to defend or contest various views on life morality and metaphysics This book explores the the role of the Bhagavadgita in the formation of nationalist discourse It examines the ways in which the Gita became the central terrain of nationalist contestation and the diverse ethico moral mappings of the Indian nation Focusing on Bankimchandra Chatterjee Balgangadhar Tilak Swami Vivekananda Aurobindo Ghose Mahatma Gandhi Vinoba Bhave and B R Ambedkar as the representatives of different strands of nationalist discourse this volume probes their reflections on the Gita The author also discusses with issues such as the relation between the nation and the masses renunciation and engagement with the world the ideas of equality freedom and common good in the context of a nationalist discourse He argues that the commentaries on this timeless text opened up several possible understandings without necessarily eliminating one another *Nationalism and Globalisation* Stephen Tierney,2015-10-08 This book addresses a seemingly paradoxical situation On the one hand nationalism from Scotland to the Ukraine remains a resilient political dynamic fostering secessionist movements below the level of the state On the other the competence and capacity of states and indeed the coherence of nationalism as an ideology are increasingly challenged by patterns of globalisation in commerce cultural communication and constitutional authority beyond the state It is the aim of this book to shed light on the relationship between these two processes addressing why the political currency of nationalism remains strong even when the salience of its objective independent and autonomous statehood becomes ever more attenuated The book takes an interdisciplinary approach both within law and beyond with contributions from international law constitutional law constitutional theory history political science and sociology The challenge for our time is considerable Global networks grow ever more sophisticated while territorial borders such as those in Eastern and Central Europe become seemingly more unstable It is hoped that this book by bringing together areas of scholarship which have not communicated with one another as much as they might will help develop an ongoing dialogue across disciplines with which better to understand these challenging and potentially destabilising developments Memory, Nationalism, and Narrative in Contemporary South Asia J. Edward Mallot,2012-09-25 This book investigates the ambivalent responses to the opposing compulsions of memory and forgetting in cultural production in South Asia Mallot reveals how writers such as Salman Rushdie Michael Ondaatje and Amitav Ghosh indict nationalism s sins by accessing and encoding the past In the Crossfire of History Lava Asaad,Fayeza Hasanat,2022-09-16 In the global south women have and continue to resist multiple forms of structural violence The atrocities committed against Yazidi women by ISIS have been recognized internationally and the Nobel Peace Prize awarded to Nadia Murad in 2018 was a tribute to honor women whose bodies have been battered in the name of race nationality war and religion In the Crossfire of History Women s War Resistance Discourse in the Global South is an edited collection that incorporates literary works testimonies autobiographies women s resistance

movements and films that add to the conversation on the resilience of women in the global south The collection focuses on Palestine Kashmir Syria Kurdistan Congo Argentina Central America Sri Lanka and Bangladesh The essays question historical accuracy and politics of representation that usually undermine women's role during conflict and they reevaluate how women participated challenged sacrificed and vehemently opposed war discourses that erase women's role in shaping resistance movements The transformative mode of these examples expands the definition of heroism and defiance To prevent these types of heroism from slipping into the abyss of history this collection brings forth and celebrates women's fortitude in conflict zones In the Crossfire of History shines a light on women across the globe who are resisting the sociopolitical and economic injustices in their nation states

Western Political Thought in Dialogue with Asia Cary J. Nederman, Takashi Shogimen, 2008-12-16 Given the rise of globalization and coinciding increase in cultural clashes among diverse nations it has become eminently clear to scholars of political thought that there exists a critical gap in the knowledge of non Western philosophies and how Western thought has been influenced by them This gap has led to a severely diminished capacity of both state and nonstate actors to communicate effectively on a global scale The political theorists area scholars and intellectual historians gathered here by Takashi Shogimen and Cary J Nederman examine the exchange of political ideas between Europe and Asia from the Middle Ages to the early twentieth century They establish the need for comparative political thought showing that in order to fully grasp the origins and achievements of the West historians of political thought must incorporate Asian political discourse and ideas into their understanding By engaging in comparative studies this volume proves the necessity of a cross disciplinary approach in guiding the study of the global history of political thought

Essays on Religion and Human Rights David Little, 2015-03-26 This collection of essays by David Little addresses human rights in relation to the historical settings in which its language was drafted and adopted Featuring five original essays Little articulates his view that fascist practices before and during World War II vivified the wrongfulness of deliberately inflicting severe pain injury and destruction for self serving purposes and that the human rights corpus developed in response was designed to outlaw all practices of arbitrary force He contends that while there must be an accountable human rights standard it should guarantee latitude for the expression and practice of beliefs consistent with outlawing arbitrary force Little details the theoretical grounds of the relationship between religion and human rights and concludes with essays on US policy and the restraint of force in regard to terrorism With a foreword by John Kelsay this book is a capstone of the work of this influential writer on religion philosophy and law
