Monique Lorist, Jan Snel, 2013-12-19 Often people use nicotine caffeine and some level of alcohol in varying combinations at different times of the day in order to optimize their functioning and feelings of well being whether at work in leisure time or in a social context However until now studies on the effects of this everyday practice have been diverse widespread and insufficiently summarized Recently developed methods to study the effects in more detail have received little attention especially among a nonscientific readership Nicotine Caffeine and Social Drinking focuses readers attention on the effects of normal socially accepted psychoactive substances on cognitive performance and on the brain Divided into three sections this book studies each substance individually before examining the effects of their combined usage *Books In Print 2004-2005*
