**Stalin, a Critical Survey of Bolshevism** Boris Souvarine,1939      *Stalin* Boris Souvarine,(Cyril Lionel Robert),1936

*Man and Society in an Age of Reconstruction* Karl Mannheim,2013-08-21 First published in 1980 This is Volume II of Mannheim s collected works translated by Edward Shils and includes recent developments in the author s thinking since 1935 when it was originally written      **Joseph Stalin** David R. Egan,Melinda A. Egan,2007-07-25 With the opening of Russian and communist bloc archives dating from the Soviet era there has been a significant increase of scholarly writings pertaining to Joseph Stalin Widely considered to be among the most influential historical figures of the twentieth century Stalin continues to be a source of intense study In the absence of a comprehensive compilation of periodical literature the need for Joseph Stalin An Annotated Bibliography of English Language Periodical Literature to 2005 is conspicuous Ranging from editorials and news reports to academic articles the more than 1 700 sources cited collectively cover the full range of his life the various aspects of his leadership and virtually all facets of the system and practices traditionally associated with his name The coverage in this bibliography extends beyond the person of Stalin to include the subjects of Stalinism the Stalinist system the Stalin phenomenon and those policies and practices of the Communist Party and Soviet state associated with him This volume also provides a record of scholarly opinion on Stalin and sheds light on the evolution and current state of Stalinology An effort has been made to list only those articles in which Stalin figures prominently but in some instances articles have been included which do not center on Stalin but are worthy of listing for other reasons The book is divided into fourteen main sections General Studies and Overviews Biographical Information and Psychological Assessments The Revolutionary Movement October Revolution and Civil War Rise to Power Politics Economics Society and Social Policy Nationalism and Nationality Policy Culture Religion Philosophy and Theory Foreign Relations and International Communism Military Affairs and De Stalinization Including a subject index of several hundred headings and even greater number of subheadings this comprehensive annotated bibliography should be of benefit to those individuals who for the purpose of research or classroom      **A Survey of European Civilization** Wallace Klippert Ferguson,Geoffrey Bruun,1947      **Stalin's Usable Past** David Brandenberger,2024-05-21 At the height of the Great Terror in 1937 Joseph Stalin took a break from the purges to edit a new textbook on the history of the USSR Published shortly thereafter the Short History of the USSR amounted to an ideological sea change Stalin had literally rewritten Russo Soviet History breaking with two decades of Bolshevik propaganda that styled the 1917 Revolution as the start of a new era In its place he established a thousand year pedigree for the Soviet state that stretched back through the Russian empire and Muscovy to the very dawn of Slavic civilization Appearing in million copy print runs through 1955 the Short History transformed how a generation of Soviet citizens were to understand the past not only in public school and adult indoctrination courses but on the printed page the theatrical stage and the silver screen Stalin s Usable Past supplies a critical edition of the Short History that both analyzes

the text and places it in historical context By highlighting Stalin's precise redactions and embellishments historian David Brandenberger reveals the scope of Stalin's personal involvement in the textbook's development documenting in unprecedented detail his plans for the transformation of Soviet society's historical imagination

**Stalin's Library** Geoffrey Roberts, 2022-01-01 A compelling intellectual biography of Stalin told through his personal library A fascinating new study Michael O'Donnell Wall Street Journal In this engaging life of the twentieth century's most self-consciously learned dictator Geoffrey Roberts explores the books Stalin read how he read them and what they taught him Stalin firmly believed in the transformative potential of words and his voracious appetite for reading guided him throughout his years A biography as well as an intellectual portrait this book explores all aspects of Stalin's tumultuous life and politics Stalin an avid reader from an early age amassed a surprisingly diverse personal collection of thousands of books many of which he marked and annotated revealing his intimate thoughts feelings and beliefs Based on his wide-ranging research in Russian archives Roberts tells the story of the creation fragmentation and resurrection of Stalin's personal library As a true believer in communist ideology Stalin was a fanatical idealist who hated his enemies the bourgeoisie kulaks capitalists imperialists reactionaries counter-revolutionaries traitors but detested their ideas even more

**Stalin** Abraham Ascher, 2016-11-03 Joseph Stalin began life as a frail child with an abusive father and an inferiority complex This triggered an early desire for greatness and respect that would eventually turn the young Bolshevik idealist into one of the most ruthless dictators in modern history Like his contemporary Adolf Hitler Stalin was responsible for millions of deaths and inflicted barbaric cruelty on the Soviet people But while Hitler is readily portrayed as a monster Stalin has not been subjected to quite the same level of vitriol In *Stalin: A Beginner's Guide* renowned historian Abraham Ascher analyses new and old sources separating truths from falsehoods to present an unvarnished portrait of the Soviet leader

**Stalin** Hiroaki Kuromiya, 2013-08-16 This profile looks at how Stalin despite being regarded as intellectually inferior by his rivals managed to rise to power and rule the largest country in the world achieving divine-like status as a dictator Through recently uncovered research material and Stalin's archives in Moscow Kuromiya analyzes how and why Stalin was a rare even unique politician who literally lived by politics alone He analyses how Stalin understood psychology campaigns well and how he used this understanding in his political reign and terror Kuromiya provides a convincing concise and up-to-date analysis of Stalin's political life

**Hannah Arendt: The Origins of Totalitarianism Expanded Edition (LOA #389)** Hannah Arendt, 2025-04-22 A deluxe expanded edition of the masterpiece of political philosophy that transformed how the world thinks about fascism and authoritarianism Includes two fascinating chapters that were later cut and are available in no other edition In 1951 a monumental book by a relatively unknown German Jewish migrant addressed the terrifying new mode of political organization underlying the twin horrors of Stalinism and Nazism Herself a refugee from Nazi persecution Hannah Arendt sought from her exile in New York City to answer the unfathomable questions raised by the Soviet gulag and the Holocaust How could there be such barbarism in the

midst of civilization How had governments exerted such absolute control over citizens terrorizing them and enlisting them to commit atrocities on their behalf Arendt s historical and cultural analyses extend to a thorough examination of nineteenth century antisemitism in Europe including a trenchant account of the Dreyfus Affair in France and brilliant insights into imperialism racism and their role in totalitarianism s rise in the 1920s and 1930s Arendt contends that totalitarianism as a political system is now embedded in contemporary life and is as she would later remark the central event of our world Her clear eyed warning that totalitarianism is not merely a historical episode but is rather a permanent feature of modernity and beyond a danger never to be fully eradicated and a continual temptation for anti democratic demagogues makes Arendt a half century after her death a preeminent thinker and political philosopher for the twenty first century The Library of America edition of this indispensable and influential work based on the final version she revised in her lifetime also restores to print Arendt s Concluding Remarks to the 1951 first American edition and a chapter on the Soviet suppression of the Hungarian revolt of 1956 both of which were cut from later editions The first annotated edition of *Origins* the volume contains concise and thorough glosses on Arendt s many historical and cultural references and its Chronology provides a detailed portrait of her remarkable life
