Stalin The French Communist Party 1941:

Stalin and the French Communist Party, 1941-1947 Alfred J. Rieber, 1962 Looks at the years from 1941 1947 when the Soviet Union the United States and Great Britain became allies in order to defeat Hitler and reconstruct war torn Europe The study focuses on the French Communist Party as one of the largest groups supporting Soviet aims in Western Europe

Stalin and the French Communist Party, 1941 to 1947 Albert Joseph Rieber, 1962 Intellectuals and the French Communist Party Sudhir Hazareesingh, 1991 This work examines the emergence and subsequent demise of intellectual identification with the French Communist Party arguing that after 1978 political conflicts between the Communist leadership and party intellectuals led to an erosion of support The French Communist Party in the Fifth Republic David Scott Bell, Byron Criddle, 1994 This up to date analysis of the French Communist Party sees it as an entirely unconventional political force not a normal party vying for office but a Leninist bureaucracy armed with an apocalyptic mission to deliver humanity from capitalism Its interests have been defined as part of an outpost of a world revolutionary movement and whilst its strategies may have varied they have done so in order to serve Soviet foreign policy purposes D S Bell and Byron Criddle trace the history of the Communist Party in France from its origins They focus in particular on the period since 1958 and explore the Party s unique organizational structures and international loyalties They examine structure and ideology relations with the Socialist party electoral performance and the 1980 s decline in the Party s fortunes This study will be essential reading for all students of contemporary French history and politics **The French Communist Party During the Fifth**

Republic Gino G. Raymond, 2005-08-10 The demise of the French Communist Party PCF has been a recurrent feature of overviews of the Left in France for the past two decades and yet the Communists survive This study examines the factors that undermined the position of the PCF as the premier party of France but also highlights the challenges that the party faces in a society disillusioned with politics and the new strategies that it is developing in order to revive its fortunes Stalin and the Struggle for Supremacy in Eurasia Alfred J. Rieber, 2015-08-27 This is a major re evaluation of Soviet foreign policy in the Eurasian borderlands from the Revolution to the Cold War **Stalin's Curse** Robert Gellately, 2013-03-05 A chilling riveting account based on newly released Russian documentation that reveals Joseph Stalin s true motives and the extent of his enduring commitment to expanding the Soviet empire during the years in which he seemingly collaborated with Franklin D

Roosevelt Winston Churchill and the capitalist West At the Big Three conferences of World War II Joseph Stalin persuasively played the role of a great world leader whose primary concerns lay in international strategy and power politics and not communist ideology Now using recently uncovered documents Robert Gellately conclusively shows that in fact the dictator was biding his time determined to establish Communist regimes across Europe and beyond His actions during those years and the poorly calculated responses to them from the West set in motion what would eventually become the Cold War Exciting deeply engaging and shrewdly perceptive Stalin s Curse is an unprecedented revelation of the sinister machinations

of Stalin's Kremlin *Stalin as Warlord* Alfred J. Rieber, 2022-01-01 An authoritative account of Stalin as a wartime leader showing how his paradoxical policies of mass mobilization and repression affected all aspects of Soviet society A superb new history Rieber analyses with clarity the impact of the war Wendy Slater Times Literary Supplement The Second World War was the defining moment in the history of the Soviet Union With Stalin at the helm it emerged victorious at a huge economic and human cost But even before the fighting had ended Stalin began to turn against the architects of success In this original and comprehensive study Alfred J Rieber examines Stalin as a wartime leader arguing that his policies were profoundly paradoxical In preparation for the war Stalin mobilized the whole of Soviet society in pursuit of his military goals and intensified the centralization of his power Yet at the same time his use of terror weakened the forces vital to the defense of the country In his efforts to rebuild the country after the devastating losses and destruction he suppressed groups that had contributed immeasurably to victory His steady ruthless leadership cultivated a legacy that was to burden the Soviet Union and Russia to the present day *French Communism, 1920-1972* Ronald Tiersky, 1974-08-22 The French Communist Party

The Communist Parties of Italy, France and Spain Peter Lange, Maurizio Vannicelli, 2021-06-29 First published in 1981 The Communist Parties of Italy France and Spain presents a comparative and integrative overview of the development of three Communist parties in the postwar Europe Through the systematic presentation of the most important documents of the Communist parties the book provides an access to the basic declarations and positions to illustrate the strategic and ideological evolution of these three parties in the advanced industrial democracies Eurocommunism the editors argue cannot be usefully understood as a phenomenon which suddenly appeared and equally as rapidly disappeared in the 1970s Rather it is a process of adaptation and change which characterizes the development of all three parties since World War II The explicitly comparative organisation of the documents into five basic themes general strategy alliances party organization international policy policy toward the communist movement allows the reader both to follow any single party in a specific policy area or to compare the parties in response to major domestic or international events of significance Rich in archival material this book will be an invaluable resource to scholars and researchers of European Politics comparative politics comparative communism and modern European history
