

# The Keys to Power

MANAGING THE PRESIDENCY

*Second Edition*

Shirley Anne Warshaw

# The Keys To Power Managing The Presidency 2nd Edition

**Shirley Anne Warshaw**

## **The Keys To Power Managing The Presidency 2nd Edition:**

**The Keys to Power** Shirley Anne Warshaw, 2015-09-25 An accessible and comprehensive main text for courses on the presidency this text argues that to be a successful presidential leader one must effectively manage the enormous institutional and personal resources or the keys to power Using the keys to power theme Warshaw argues that the presidency is far more powerful today than in past generations The book offers the most coverage in the market on the structures that provide the president with such power As a result there are discrete chapters dedicated to the vice president the president's cabinet the White House staff and the executive office of the President Standard topics such as the president and the economy are still covered but are integrated throughout the chapters

**New Directions in the American Presidency** Lori Cox Han, 2023-02-21 The third edition of *New Directions in the American Presidency* provides important updates on all topics throughout the text including new and relevant literature across the subfield of presidency studies within political science Significant changes have occurred within the political environment since the publication of the second edition Many scholars refer to the Trump presidency as a disruption to the political order and each chapter will assess the lessons and legacies of the Trump years and analyze how the Biden presidency is faring in the return to a more traditional style of presidential leadership New to the Third Edition Updated chapter on the 2020 presidential campaign and aftermath Assessment of the Trump years Presidential powers and management of executive branch use of social media relationship with Congress relationship with political parties public opinion domestic and foreign policy Supreme Court appointments Two new chapters unitary powers and intersectionality and the presidency

*Washington's Government* Max Edling, Peter J. Kastor, 2021-07-07 *Washington's Government* shows how George Washington's administration the subject of remarkably little previous study was both more dynamic and more uncertain than previously thought Rather than simply following a blueprint laid out by the Constitution Washington and his advisors constructed over time a series of possible mechanisms for doing the nation's business The results were successful in some cases disastrous in others Yet at the end of Washington's second term there was no denying that the federal government had achieved remarkable results As Americans debate the nature of good national governance two and a half centuries after the founding this volume's insights appear timelier than ever

**Building the Compensatory State** Robert F. Durant, 2019-09-24 Contemporary public administration research has marginalized the importance of taking history seriously With few exceptions little recent scholarship in the field has looked longitudinally rather than cross sectionally contextually and theoretically over extended time periods at big questions in public administration One such big question involves the evolution of American administrative reform and its link since the nation's founding to American state building This book

addresses this gap by analyzing administrative reform in unprecedented empirical and theoretical ways. In taking a multidisciplinary approach it incorporates recent developments in cognate research fields in the humanities and social sciences that have been mostly ignored in public administration. It thus challenges existing notions of the nature, scope and power of the American state and with these important aspects of today's conventional wisdom in public administration. Author Robert F. Durant explores the administrative state in a new light as part of a compensatory state driven, shaped and amplified since the nation's founding by a corporate social science nexus of interests. Arguing that this nexus of interests has contributed to citizen estrangement in the United States, he offers a broad empirical and theoretical understanding of the political economy of administrative reform, its role in state building and its often paradoxical results. Offering a reconsideration of conventional wisdom in public administration, this book is required reading for all students, scholars or practitioners of public administration, public policy and politics.

*The Development of the American Presidency* Richard J. Ellis, 2018-02-20. A full understanding of the institution of the American presidency requires us to examine how it developed from the founding to the present. This developmental lens, analyzing how historical turns have shaped the modern institution, allows for a richer, more nuanced understanding. *The Development of the American Presidency* pays great attention to that historical weight but is organized by the topics and concepts relevant to political science, with the constitutional origins and political development of the presidency its central focus. Through comprehensive and in-depth coverage, Richard Ellis looks at how the presidency has evolved in relation to the public, to Congress, to the executive branch and to the law, showing at every step how different aspects of the presidency have followed distinct trajectories of change. Each chapter promotes active learning, beginning with a narrative account of some illustrative puzzle that brings to life a central concept. A wealth of photos, figures and tables allow for the visual presentations of concepts. New to the Third Edition: Analysis of the 2016 election, including the role of the Electoral College and implications of Trump's nomination for the party; Decides thesis: Exploration of Trump's Twitter presidency and the effectiveness of using social media to bypass the Washington press corps; In-depth coverage of the development of twentieth-century president press relations, including a new section on broadcasting the presidency that explores the development of the presidential press conference and presidents' use of radio and television; Study of national security policy in the Obama administration with a special focus on the targeted killing of American citizens and Obama's legacy for presidential war powers; Examination of the original understanding and contemporary relevance of impeachment as well as updated discussion of the president's pardon power; Discussion of recent developments in the legislative and legal realms, including Trump's first hundred days, the Garland-Gorsuch episode and abolition of the filibuster for Supreme Court appointments; Preliminary assessment of Trump's place in historical time.

*The Second Term of George W. Bush* R. Maranto, D. Brattebo, T. Lansford, 2006-06-10. Second-term presidencies are distinctive, not least as the president no longer has to run for re-election. Placing the second term of George W. Bush in comparative perspective, this fascinating

book explores the political institutional and policy implications of a second term Combining topicality with analytical richness this is an important resource for scholars and students

#### **Guide to the White House Staff** Shirley Anne

Warshaw,2013-03-27 Guide to the White House Staff is an insightful new work examining the evolution and current role of the White House staff It provides a study of executive legislative relations organizational behavior policy making and White House cabinet relations The work also makes an important contribution to the study of public administration for researchers seeking to understand the inner workings of the White House In eight thematically arranged chapters Guide to the White House Staff Reviews the early members of the White House staff and details the need statutory authorization and funding for staff expansion Addresses the creation of the Executive Office of the President EOP and a formal White House staff in 1939 Explores the statutes executive orders and succession of reorganization plans that shaped and refined the EOP Traces the evolution of White House staff from FDR to Obama and the specialization of staff across policy and political units Explores how presidential transitions have operated since Eisenhower created the position of chief of staff Explains the expansion of presidential in house policymaking structures beginning with national security and continuing with economic and domestic policy Covers the exodus of staff and the roles remaining staff played during the second terms of presidents Examines the post White House careers of staff Guide to the White House Staff also provides easily accessible biographies of key White House staff members who served the presidencies of Richard M Nixon through George W Bush This valuable new reference will find a home in collections supporting research on the American presidency public policy and public administration

White House Studies Compendium Robert W. Watson,2007 brings together piercing analyses of the American presidency dealing with both current issues and historical events The compendia consists of the combined and rearranged issues of the journal White House Studies with the addition of a comprehensive subject index Preface

#### Judging Bush Robert Maranto,Tom Lansford,Jeremy Johnson,2009-09-02

There is no shortage of opinions on the legacy that George W Bush will leave as 43rd President of the United States Recognizing that Bush the Younger has been variously described as dimwitted opportunistic innovative and bold it would be presumptuous to draw any hard and fast conclusions about how history will view him Nevertheless it is well within academia s ability to begin to make preliminary judgments by weighing the evidence we do have and testing assumptions In the wake of the September 11 terrorist attacks and the initially successful military campaign in Afghanistan Bush and his administration enjoyed nearly unprecedented popularity But after failures in Iraq and in the federal government s response to Hurricane Katrina Bush s approval ratings plummeted Guided by a new framework Judging Bush boldly takes steps to evaluate the highs and lows of the Bush legacy according to four types of competence strategic political tactical and moral It offers a first look at the man his domestic and foreign policies and the executive office s relationship to the legislative and judicial branches from a distinguished and ideologically diverse set of award winning political scientists and White House veterans Topics include Bush s decision making style the management of the executive

branch the role and influence of Dick Cheney elections and party realignment the Bush economy Hurricane Katrina No Child Left Behind and competing treatments of the wars in Iraq and Afghanistan Contributors include Lara M Brown David B Cohen Jeffrey E Cohen Laura Conley Jack Covarrubias John J DiIulio Jr William A Galston Frederick M Hess Karen M Hult Lori A Johnson Robert G Kaufman Anne M Khademian Lawrence J Korb Patrick McGuinn Michael Moreland Costas Panagopoulos James P Pfiffner Richard E Redding Neil Reedy Andrew Rudalevige Charles E Walcott and Shirley Anne Warshaw

*The Presidency of George H. W. Bush* John Robert Greene, 2015-06-19 After George H W Bush lost his re election bid to Bill Clinton in 1992 John Robert Greene s verdict on the 41st president of the United States was that he brought no discredit to the office and was both patient and prudent making few mistakes In the years since the release of Greene s profile of the senior Bush deemed by Publishers Weekly the essential introduction to Bush s abbreviated but still consequential tenure in office a wealth of materials about Bush s presidency has become available even as distance has sharpened our perspective on the Bush years In this significantly expanded second edition of *The Presidency of George H W Bush* Greene takes full advantage of newly released documents to revisit Bush s term to consider his post presidency accomplishment and to enhance and clarify our understanding of his place in history Such milestones as the fall of the Berlin Wall the reunification of Germany the fall of the Soviet Union the savings and loan crisis and the transition to the Clinton administration receive renewed and far more detailed treatment here as do the ramifications of George H W Bush s positions and policies Greene also devotes ample attention to Bush s post presidency including his relationship with his son President George W Bush as well as the development of his close friendship with Bill Clinton The elder Bush emerges from this reappraisal as a considerably more activist president with a more activist administration than was previously assumed Greene s concise and readable account drawing on the contents of the Bush Library the papers of James A Baker III and personal interviews shows us the 41st president and thus an important chapter in American history in a new and more revealing light

**Democracy and Administration** Brian J. Cook, 2007-03-04 Though his term in the White House ended nearly a century ago Woodrow Wilson anticipated the need for new ideas to address the effects of modern economic and social forces on the United States including increased involvement in international affairs *Democracy and Administration* synthesizes the former world leader s thought on government administration laying out Wilson s concepts of how best to manage government bureaucracies and balance policy leadership with popular rule Linking the full gamut of Wilson s ideas and actions covering nearly four decades Brian J Cook finds success folly and fresh thinking with relevance in the twenty first century Building on his interpretive synthesis Cook links Wilson s tenets to current efforts to improve public management showing how some of his most prominent ideas and initiatives presaged major developments in theory and practice *Democracy and Administration* calls on scholars and practitioners to take Wilson s institutional design and regime level orientation into account as part of the ambitious enterprise to develop a new science of democratic governance The

President's Czars Mitchel A. Sollenberger, Mark J. Rozell, 2012-04-27 Faced with crises that would challenge any president Barack Obama authorized pay czar Kenneth Feinberg to oversee the 20 billion fund for victims of the BP oil spill and to establish and enforce executive pay guidelines for companies that received 700 billion in federal bailout money Feinberg's office comes with vastly expansive policy powers along with seemingly deep pockets yet his position does not formally fit anywhere within our government's constitutional framework The very word czar seems inappropriate in a constitutional republic but it has come to describe any executive branch official who has significant authority over a policy area works independently of agency or Department heads and is not confirmed by the Senate or subject to congressional oversight Mitchel Sollenberger and Mark Rozell provide the first comprehensive overview of presidential czars tracing the history of the position from its origins through its initial expansion under FDR and its dramatic growth during the presidencies of George W Bush and Barack Obama The President's Czars shows how under pressure to act on the policy front modern presidents have increasingly turned to these appointed officials even though by doing so they violate the Appointments Clause and can also run into conflict with the nondelegation doctrine and the principle that a president cannot unilaterally establish offices without legislative support Further Sollenberger and Rozell contend that czars not only are ill conceived but also disrupt a governing system based on democratic accountability A sobering overview solidly grounded in public law analysis this study serves as a counter argument to those who would embrace an excessively powerful presidency one with relatively limited constraints Among other things it proposes the restoration of accountability starting with significant changes to Title 3 of the U S Code which authorizes the president to appoint White House employees without regard to any other provision of law Ultimately the authors argue that czars have generally not done a good job of making the executive branch bureaucracy more effective and efficient Whatever utility presidents may see in appointing czars Sollenberger and Rozell make a strong case that the overall damage to our constitutional system is great and that this runaway practice has to stop

**George W. Bush** Bryan Hilliard, Tom Lansford, Robert P. Watson, 2012-02-01 Bringing together presidential scholars leading voices on the presidency and former White House aides this book provides a timely and thorough assessment of George W Bush at the historic midpoint of his presidency The book covers Bush's character and leadership style domestic policy foreign policy and the War on Terror and the Bush administration It concludes with a report card on the Bush presidency whereby the President his staff and his legislative record are graded

**Essentials of American Government** Karen O'Connor, Larry J. Sabato, 2005-04 The essentials version of this bestseller in American government has been aggressively revised to provide the most in depth and current coverage of the 2004 elections the beginnings of the second George W Bush administration and the ongoing wars on terror and in Iraq while also providing expansive new coverage of our system's Constitutional roots Written with the belief that students must first understand how American government developed to fully understand the issues facing our nation in the 21st century O'Connor Sabato offers the strongest coverage

of both history and current events on the market today The new edition provides deeper coverage of both history and events today by exploring the Constitutional roots of our system and how those roots are relevant and often challenged today The authors also continue their commitment to currency and student relevance by providing up to the minute coverage of the new Bush administration the ongoing war in Iraq etc      The Essentials of American Government 2006 Karen O'Connor, Larry J. Sabato, 2006-12 The brief edition of the number one book in American government continues to provide the most current and engaging introduction available for the course Like the comprehensive edition this nuts and bolts version was written with the belief that knowledge of the development of American government is integral to fully understand our current political system Essentials of American Government Continuity and Change is a student friendly text offering a strong historical perspective that highlights the evolution of government and engages students with examples relevant to their lives today      **Encyclopedia of the American Presidency** Michael A. Genovese, 2009 Praise for the print edition entries are well written an excellent addition      **American Government** Karen O'Connor, Larry Sabato, 2008 Guided by the belief that students must first understand how American government developed to fully understand the issues facing the United States in the 21st century O Connor Sabato offers the strongest coverage of both history and current events of any college textbook devoted to American politics This best selling book provides the historical context students need to understand American government and the most crucial and controversial issues affecting the nation O Connor Sabato has been extensively revised to provide the most in depth and current coverage of the 2006 midterm elections the second George W Bush administration the Iraq War and increasing controversies related to the conduct of the war on terrorism including renewed calls for additional congressional oversight of the Executive Branch The new edition also emphasizes the extent to which shared American values shape and affect policy and influence key political conflicts      **American Government 2004** Larry J. Sabato, Stefan Haag, Karen J. O'Connor, Gary Keith, 2004 O Connor Sabato s best selling American government text with seven chapters on Texas politics and government Offers a historical perspective of American Texas government Brings everything right up to the present with an abundance of current and student relevant examples New Join the Debate On Campus boxes engage students in the material New Analyzing Visuals boxes help develop visual literacy skills      *American Book Publishing Record* , 2005      **American Government 2006** Karen O'Connor, Larry J. Sabato, 2006-12 This election update edition of the number one book in American government continues to provide the most current and engaging introduction available for the course without chapters dedicated to policy Written with the belief that knowledge of the development of American government is integral to fully understand our current political system American Government Continuity and Change offers a strong historical perspective that highlights the evolution of government and engages students with examples relevant to their lives today
