P. R. James, 2008 George Payne Rainsford James was a 19th century novelist and historical writer He was a rapid writer producing over 100 works some of which are Richelieu 1829 Philip Augustus 1831 The Man at Arms 1840 The Huguenot 1838 The Robber Henry of Guise 1839 The King s Highway 1840 and The Smuggler 1845 From the beginning of the book Though the weather was hot and sultry and the summer was at its height yet the evening was gloomy and low angry clouds hung over the distant line of the sea when under the shelter of some low browed cliffs upon the Irish coast three persons stood together two of whom were talking earnestly About four or five miles from the shore looking like a spectre upon the misty background of clouds appeared a small brig with her canvas closely reefed though there was little wind stirring and nothing announced the approach of a gale unless it were a long heavy swell that heaved up the bosom of the ocean as if with a suppressed sob and then The three persons we have mentioned were standing together close at the foot of the rocks and though there was nothing in their demeanour which would imply that they were seeking concealment by the points and angles of the cliff for they spoke loud and one of them laughed more than once with the short but jocund laugh of a heart whose careless gaiety no circumstances can repress yet the spot was well calculated to hide them from any eye unless it were one gazing down from the cliffs above or one looking towards the shore from the sea **The King's Highway** George D. Carleton, 1940 The King's Highway (Classic Reprint) Amelia Edith Huddleston Barr, 2017-09-18 Excerpt from The King s Highway And I began my life in that condition and Stephen sees and knows what I have brought out Of nothing It is incredible God never made a bigger fool About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve

Castleman, 2005-04-01 The importance of the silver trade to the Spanish colonial effort is well documented as it opened up an exchange of goods with Europe and Asia Lesser known is the story of the roads on which this trade moved and the people responsible for building them Focusing on the camino real linking Mexico City and the port of Veracruz Bruce Castleman has written a social history of road construction laborers in late Bourbon Mexico He has drawn on employment and census records to study a major shift in methods used by the Spanish colonial regime to mobilize the supply of unskilled labor and concomitant changes in the identities those laborers asserted for themselves Through a close analysis of wages actually paid to named individuals from one week to the next Castleman opens a new window on Mexican history In the 1760s a free wage labor regime replaced a draft labor system and by examining records of road construction he traces both this transformation and its implications During this time free wage artisans saw their earnings reduced and they were pushed into the labor pool and Castleman reveals how a shift occurred in the way that laborers identified themselves as the Spanish *casta* system of racial classification became increasingly fluid In his study Castleman introduces some of the principle players of eighteenth century Mexico from viceroys to tobacco planters to military engineers He then fleshes out the lives of working persons drawing on a complete set of construction records from the construction of the Puente de Escamela at Orizaba to forge a collective biography that considers their existences apart from the workplace By linking census and employment records he uncovers a host of social indicators such as marriage preference family structure and differences over time in how the caste system was used to classify people according to ancestry As Castleman shows roads did not so much link Mexico to the global economy as forge regional markets within New Spain and his work provides an astute analysis of struggles between the Bourbon colonial state the important consulados of Mexico City and Veracruz and more localized interests over road policy More important *Building the King's Highway* provides a valuable new perspective on people's lives as it advances our understanding of labor in late colonial Latin America
