**The Land Grabbers** Fred Pearce, 2012-05-29 How Wall Street Chinese billionaires oil sheiks and agribusiness are buying up huge tracts of land in a hungry crowded world An unprecedented land grab is taking place around the world Fearing future food shortages or eager to profit from them the world s wealthiest and most acquisitive countries corporations and individuals have been buying and leasing vast tracts of land around the world The scale is astounding parcels the size of small countries are being gobbled up across the plains of Africa the paddy fields of Southeast Asia the jungles of South America and the prairies of Eastern Europe Veteran science writer Fred Pearce spent a year circling the globe to find out who was doing the buying whose land was being taken over and what the effect of these massive land deals seems to be *The Land Grabbers* is a first of its kind expos that reveals the scale and the human costs of the land grab one of the most profound ethical environmental and economic issues facing the globalized world in the twenty first century The corporations speculators and governments scooping up land cheap in the developing world claim that industrial scale farming will help local economies But Pearce s research reveals a far more troubling reality While some mega farms are ethically run all too often poor farmers and cattle herders are evicted from ancestral lands or cut off from water sources The good jobs promised by foreign capitalists and home governments alike fail to materialize Hungry nations are being forced to export their food to the wealthy and corporate potentates run fiefdoms oblivious to the country beyond their fences Pearce s story is populated with larger than life characters from financier George Soros and industry tycoon Richard Branson to Gulf state sheikhs Russian oligarchs British barons and Burmese generals We discover why Goldman Sachs is buying up the Chinese poultry industry what Lord Rothschild and a legendary 1970s asset stripper are doing in the backwoods of Brazil and what plans a Saudi oil billionaire has for Ethiopia Along the way Pearce introduces us to the people who actually live on and live off of the supposedly empty land that is being grabbed from Cambodian peasants victimized first by the Khmer Rouge and now by crony capitalism to African pastoralists confined to ever smaller tracts Over the next few decades land grabbing may matter more to more of the planet s people than even climate change It will affect who eats and who does not who gets richer and who gets poorer and whether agrarian societies can exist outside corporate control It is the new battle over who owns the planet *The Land Grabbers* Wayne D. Overholser, 1955 *The Land Grabbers* Emerson Dodge, 1976\* **The Land Grabbers** Lee Davis Willoughby, 1981-02 *The Land Grabbers* Tom Benson, 2007 The death of notorious rogue Harry Payne in a gunfight leads to revenge against his killers and a range war by his sons drawing in the new marshal of Coville

and skips town leaving Giles Clanahan to take the blame At first Clanahan is praised for killing the notorious bandit but when the townspeople realize the dead man isn't Shockley they sentence Giles to hang He escapes and sets out across the desert planning to bring justice to the man who framed him even if it means dying in the sand

**The Land Grabbers** Dwight Bennett Newton,1975 *The Land Grabbers* John S. Daniels,1955 **The Great African Land Grab?** Lorenzo Cotula,2013-07-11 Over the past few years large scale land acquisitions in Africa have stoked controversy making headlines in media reports across the world Land that only a short time ago seemed of little outside interest is now being sought by international investors to the tune of hundreds of thousands of hectares Private sector expectations of higher world food and commodity prices and government concerns about longer term national food and energy security have both made land a more attractive asset Dubbed land grabs in the media large scale land acquisitions have become one of the most talked about and contentious topics amongst those studying working in or writing about Africa Some commentators have welcomed this trend as a bearer of new livelihood opportunities Others have countered by pointing to negative social impacts including loss of local land rights threats to local food security and the risk that large scale investments may marginalize family farming Lorenzo Cotula a leading expert in the field casts a critical eye over the most reliable evidence on this hotly contested topic examining the implications of land deals in Africa both for its people and for world agriculture and food security

**Gender and the Global Land Grab** Andrea M. Collins,2024-06-15 Since the year 2000 millions of hectares of land in the Global South have been acquired by foreign investors for large scale agricultural projects displacing and disrupting rural communities Women are especially disadvantaged by the global land grab they are less likely to inherit control or make decisions over land but often need land to support themselves their families and their communities While international organizations have developed global guidelines to improve land governance tensions still run high as the current policies fall short Gender and the Global Land Grab introduces a feminist conceptual framework to analyze land governance policy around the world Andrea Collins shows how gender norms biases and expectations shape land politics at different levels of governance Drawing on examples from sub Saharan Africa and with an in depth case study of land politics in Tanzania the book assesses guidelines developed by institutions such as the Food and Agriculture Organization of the United Nations and the World Bank to highlight essential considerations for developing and implementing gender sensitive policy Illustrating how gender shapes resource policy across all levels of political activity Gender and the Global Land Grab provides valuable tools for transforming global policymaking

*The Global Land Grab* Annelies Zoomers,Mayke Kaag,2014-02-13 The last two years have seen a huge amount of academic policy making and media interest in the increasingly contentious issue of land grabbing the

large scale acquisition of land in the global South It is a phenomenon against which locals seem defenceless and one about which multilateral organizations such as the World Bank as well as civil society organizations and action NGOs have become increasingly vocal This in depth and empirically diverse volume taking in case studies from across Africa Asia and Latin America takes a step back from the hype to explore a number of key questions Does the global land grab actually exist If so what is new about it And what beyond the immediately visible dynamics and practices are the real problems A comprehensive and much needed intervention on one of the most hotly contested but little understood issues facing countries of the South today

**The Land Grabbers** Peter Keyes,1975-01-01 *Beyond the Global Land Grab* Gustavo de L. T. Oliveira,Juan Liu,Ben M. McKay,2021-11-17 The conjunction of climate food and financial crises in the late 2000s triggered renewed interest in farmland and agribusiness investments around the world This phenomenon became known as the global land grab and sparked vibrant debates among social movements NGOs international development agencies and various government agencies and academics worldwide This book addresses four key areas that are moving the debate beyond land grabs These include the role of contract farming and differentiation among farm workers in the consolidation of farmland the broader forms of dispossession and mechanisms of control and value grabbing beyond classic land grabs for agricultural production discourses about and responses to Chinese agribusiness investments abroad and the relationship between financialization and land grabbing The chapters in this edited volume propose new directions to deepen and even transform the research agenda on land struggles and agro industrial restructuring around the world This book will be of great interest to scholars and researchers interested in development studies agrarian changes and land struggles The chapters in this book were originally published as a special issue of the journal Globalizations

*Black Women against the Land Grab* Keisha-Khan Y. Perry,2013-10-01 In Brazil and throughout the African diaspora black women especially poor black women are rarely considered leaders of social movements let alone political theorists But in the northeastern city of Salvador Brazil it is these very women who determine how urban policies are established Focusing on the Gamboa de Baixo neighborhood in Salvador s city center *Black Women against the Land Grab* explores how black women s views on development have radicalized local communities to demand justice and social change In *Black Women against the Land Grab* Keisha Khan Y Perry describes the key role of local women activists in the citywide movement for land and housing rights She reveals the importance of geographic location for understanding the gendered aspects of urban renewal and the formation of black women led social movements How have black women shaped the politics of urban redevelopment Perry asks and what does this kind of political intervention tell us about black women s agency Her work uncovers the ways in which political labor at the neighborhood level is central to the mass mobilization of black people against institutional racism and for citizenship rights and resources in Brazil Highlighting the political life of black communities specifically those in urban contexts often represented as socially pathological and politically bankrupt *Black Women against the Land Grab* offers a valuable corrective

to how we think about politics and about black women particularly poor black women as a political force      **Encountering Land Grab** Abhijit Guha, 2022-04-27 Taking possession of private land for public purpose by the eminent domain of the state is a global phenomenon but it displaces and marginalizes the people at the local level The researchers have mainly dealt with this phenomenon either from the field or from the archive In this book the author has studied the observable fact of land grab or acquisition for industries in a particular locale of the West Bengal State by combining the field and archive in a unique mode through a multi sited ethnographic journey Unlike the traditional anthropological ethnographies consisting of single tribes or multi caste villages this vertical ethnographic voyage of the author led him to come across a group of dispossessed peasants in the villages a bunch of files in the district land acquisition department a rich text of proceedings in the West Bengal Assembly Library the growing global literature on land grab and also to reflect on his dialogues with the elected members of the parliamentary standing committee at New Delhi Ethnography for the author was the road map which guided his journey in these apparently separate existential domains of land acquisition and throws new light on how development policies are made and how they failed and what were the lessons learnt Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka      **The Land Grabbers: a Tale of Robbery.
