The Language of Criticism Jacqueline Margaret Henkel, 1996 Jacqueline M Henkel explores the impact of linguistics and ordinary language philosophy on literary theory over the past four decades Her readings of key texts relocate the principal literary issues raised by the interaction between these fields She shows how various linguistic models among them Saussurean and Prague School linguistics generative grammar and speech act theory have affected such major movements in literary criticism as stylistics Jakobsonian structuralism narratology reader oriented criticism and deconstruction and its offshoots Among the major figures she discusses in addition to Saussure and Jakobson are Chomsky Derrida Austin and Searle *Language, Gender, and Community in Late Twentieth-Century Fiction* M. Hurst, 2011-04-11 Drawing on critical frameworks this study establishes the centrality of language gender and community in the quest for identity in contemporary American fiction Close readings of novels by Alice Walker Ernest Gaines Ann Beattie John Updike Chang rae Lee and Rudolfo Anaya among others show how individuals find their American identities Enciclopedia de Lingüística Hispánica Volume I Javier Gutiérrez-Rexach, 2016-01-29 The Enciclopedia de Linguística Hisp nica provides comprehensive coverage of the major and subsidiary fields of Spanish linguistics Entries are extensively cross referenced and arranged alphabetically within three main sections Part 1 covers linguistic disciplines approaches and methodologies Part 2 brings together the grammar of Spanish including subsections on phonology morphology syntax and semantics Part 3 brings together the historical social and geographical factors in the evolution of Spanish Drawing on the expertise of a wide range of contributors from across the Spanish speaking world the Enciclopedia de Linguística Hisp nica is an indispensable reference for undergraduate and postgraduate students of Spanish and for anyone with an academic or professional interest in the Spanish language Spanish linguistics **Linguistic Metaphor and the Language of Criticism** Jacqueline Margaret Henkel, 1984 **A Cognitive Approach to Ernest Hemingway's Short Fiction** Gabriela Tucan, 2021-04-09 How do readers make sense of Hemingway s short stories How is it possible that the camera like quality of his narrative can appeal to our senses and arouse our emotions How does it capture us With reserved narrators and protagonists engaged in laconic dialogs his texts do not seem to say much This book consciously revisits our responses to the Hemingway story a belated response to his invitation to discover what lies beneath the surface of his iceberg What this pioneering critical endeavor seeks to understand is the thinking required in reading Hemingway s short fiction It proposes a cognitively informed model of reading which questions the resources of the reader s imaginative powers The cognitive demonstrations here are designed to have potentially larger implications for the short story s general mode of knowing Drawing from both cognitively oriented poetics and narratology in equal measure this book explains what structures our interaction with literary texts Sins Against Science Lynda Walsh, 2006-09-14 Recounts the fake news stories written from 1830 to 1880 about scientific and technological discoveries and the effect these hoaxes had on readers and their trust in science *Cognitive Linguistics* Gitte Kristiansen, Michel

**Linguistic Perspectives on Literature (RLE Linguistics C: Applied Linguistics)** Marvin K.L. Ching, Michael C. Haley, Ronald F. Lunsford, 2014-01-10 Although linguistics is often a technical and increasingly abstruse discipline many linguists retain a concern for the way in which linguistics can shed light on literature and literary problems In their introductory chapter the editors of this collection of essays by linguists on either side of the Atlantic enunciate a bold stance that defines the theoretical relationship between linguistics and literature delimits what should be considered a linguistic analysis of literature and explains how such an analysis is related to current theories of readership and literary criticism The editors theory of the relationship between linguistic and literary studies stipulates an eclectic rather than a holistic approach and the essays they have gathered together reflect this belief The contributions include such varied approaches as transformational grammar text grammar and speech act theory and the topics analysed include many that are at the heart of literature such as topicalization imagery figurative language ambiguity and the play on words through puns The anthology as a whole illustrates how linguistic theory illuminates the very nature of literary language It also gives evidence of the new insights into literature that have arisen from a close analysis of the language in which the literature is encoded

**Encyclopedia of Contemporary Literary Theory** Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed

into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture *Textual Subjectivity* A. C. Spearing, 2005-10-27 This book investigates how subjectivity is encoded in the texts of a wide variety of medieval narratives and lyrics not how they express the subjectivity of individuals but how subjectivity escaping the bounds of individuality is incorporated in the linguistic fabric of their texts Most of the poems discussed are in English and the book includes analyses of Chaucer's *Troilus and Criseyde* *Man of Law's Tale* and *Complaint Unto Pity* the works of the Pearl poet Havelok the Dane the lyric sequence attributed to Charles of Orleans the earliest such sequence in English and many anonymous poems It also devotes sections to Ovid's *Heroides* and to poems by the troubadour Bernart de Ventadorn For the first time it brings to bear on medieval narratives and lyrics a body of theory which denies the supposed necessity for literary texts to have narrators or speakers and in doing so reveals the implausibilities into which a dogmatic assumption of this necessity has led much of the last century's criticism **Concise Encyclopedia of Pragmatics** J.L.
