Adorno on Music Robert W. Witkin, 2013-06-17 Adorno is one of the leading cultural thinkers of the twentieth century This is the first detailed account of Adorno's texts on music from a sociological perspective In clear non technical language Robert Witkin guides the reader through the complexities of Adorno's argument about the link between music and morality and between musical works and social structure It was largely through these works Adorno established the right of the arts to be acknowledged as a moral and critical force in the development of a modern society By recovering them for non musicologists Witkin adds immeasurably to our appreciation of this giant of twentieth century thought

Musical Listening in the German Enlightenment Matthew Riley, 2017-07-05 The silent attentiveness expected of concert audiences is one of the most distinctive characteristics of modern Western musical culture This is the first book to examine the concept of attention in the history of musical thought and its foundations in the writings of German musical commentators of the late eighteenth century Those critics explained numerous technical features of the music of their time as devices for arousing sustaining or otherwise influencing the attention of a listener citing in illustration works by Gluck C P E Bach Georg Benda and others Two types of attention were identified the uninterrupted experience of a single emotional state conveyed by a piece of music as a whole and the fleeting sense of wonder or astonishment induced by a local event in a piece The relative validity of these two modes was a topic of heated debate in the German Enlightenment encompassing issues of musical communication compositional integrity and listener competence Matthew Riley examines the significant writers on the topic Descartes Leibniz Wolff Baumgarten Rousseau Meier Sulzer and Forkel and provides analytical case studies to illustrate how these perceived modes of attention shaped interpretations of music of the period

[Bloomsbury Encyclopedia of Popular Music of the World, Volume 11](#) David Horn, 2017-10-05 See *Modern Music and After* Paul Griffiths, 2011-02-16 Over three decades Paul Griffiths's survey has remained the definitive study of music since the Second World War this fully revised and updated edition re-establishes *Modern Music and After* as the preeminent introduction to the music of our time The disruptions of the war and the struggles of the ensuing peace were reflected in the music of the time in Pierre Boulez's radical reformation of compositional technique and in John Cage's development of zen music in Milton Babbitt's settling of the serial system and in Dmitry Shostakovich's unsettling symphonies in Karlheinz Stockhausen's development of electronic music and in Luigi Nono's pursuit of the universally human in Iannis Xenakis's view of music as sounding mathematics and in Luciano Berio's consideration of it as language The initiatives of these composers and their contemporaries opened prospects that haven't yet stopped unfolding This constant expansion of musical thinking since 1945 has left us with no singular history of music Griffiths's study accordingly follows several different paths showing how and why they converge and diverge This new edition of *Modern Music and After* discusses not only the music of the fifteen years that have passed since the previous edition but also the recent explosion of scholarly interest in the latter half of the twentieth century In particular the book has been expanded to incorporate the variety of responses to the modernist impasse experienced by composers of the 1980s and 1990s Griffiths then moves the book into the twenty-first century as he examines such highly influential composers as Helmut Lachenmann and Salvatore Sciarrino For its breadth wealth of detail and characteristic wit and clarity the third edition of *Modern Music*

and After is required reading for the student and the enquiring listener Music and Humanism R. A. Sharpe, 2000 The metaphor of music as a language has exerted a deep influence on the way we think about music and the way we hear it we conceive of music as expressive and as something to be understood These two ideas underpin the thought that it is a humanist art Sharpe suggests that Western music may have entered a new period in which the language analogy and the humanist conception are becoming less and less appropriate BOOK JACKET
