Campbell, 1980 *Hippolyte's Island* Barbara Hodgson, 2012-06-08 From an acclaimed author and artist this cleverly illustrated novel takes readers on a fabulous journey and a touching pilgrimage of faith Publishers Weekly Adventurer and travel writer Hippolyte Web has set his sights on an expedition to the Auroras a group of tiny islands in the South Atlantic that haven't been spotted in centuries Equipped with outdated charts an inadequate sailboat and an advance for a book about his quest the trip soon leads to discoveries beyond anything he could have imagined But the challenges that he meets are nothing compared to those that await him when he returns Marie Simphon his no nonsense book editor is more than a little skeptical of Hippolyte's strange tale As he inundates her with centuries old maps sketches and specimens she is drawn into the mysterious details of his voyage The two are soon joined in a race Hippolyte to prove his islands exist Marie to refute his claims But Marie's conflicting emotions about the journey and the man lead her on her own quest to discover for herself the limits of logic and the power of belief **The Publishers Weekly**, 1982
