Comparative Studies in African Dirge Poetry Gloria Monica T. Emezue, 2001 *Comparative Studies in African Dirge Poetry* is an important contribution to research in African literature by Nigerian scholar GMT Emezue. Emezue sets out to portray the role and function of African dirge. Moving from the general African milieu to the specific Igbo heritage she explores written and oral modes of poetic expressions. Emezue also posits a theory of the African dirge with features comparatively distinctive from the formalised structures of western art. GMT Emezue's interest in traditional African dirge songs and modern poetry is borne from her conviction that nowhere in the corpus of oral poetry have there been more works of heightened creativity than the dirge forms. *Advances in Digital Forensics VII* Gilbert Peterson, Sujeet Shenoj, 2011-09-15

Digital forensics deals with the acquisition, preservation, examination, analysis, and presentation of electronic evidence. Networked computing, wireless communications, and portable electronic devices have expanded the role of digital forensics beyond traditional computer crime investigations. Practically every crime now involves some aspect of digital evidence. Digital forensics provides the techniques and tools to articulate this evidence. Digital forensics also has myriad intelligence applications. Furthermore, it has a vital role in information assurance. Investigations of security breaches yield valuable information that can be used to design more secure systems. *Advances in Digital Forensics VII* describes original research results and innovative applications in the discipline of digital forensics. In addition, it highlights some of the major technical and legal issues related to digital evidence and electronic crime investigations. The areas of coverage include Themes and Issues, Forensic Techniques, Fraud and Malware Investigations, Network Forensics, and Advanced Forensic Techniques. This book is the 7th volume in the annual series produced by the International Federation for Information Processing (IFIP) Working Group 11.9 on Digital Forensics, an international community of scientists, engineers, and practitioners dedicated to advancing the state of the art of research and practice in digital forensics. The book contains a selection of 21 edited papers from the 7th Annual IFIP WG 11.9 International Conference on Digital Forensics held at the National Center for Forensic Science, Orlando, Florida, USA, in the spring of 2011. *Advances in Digital Forensics VII* is an important resource for researchers, faculty members, and graduate students, as well as for practitioners and individuals engaged in research and development efforts for the law enforcement and intelligence communities. Gilbert Peterson is an Associate Professor of Computer Engineering at the Air Force Institute of Technology, Wright-Patterson Air Force Base, Ohio, USA. Sujeet Shenoj is the F. P. Walter Professor of Computer Science at the University of Tulsa, Tulsa, Oklahoma, USA. **Africa's Big Five and Other**

Wildlife Filmmakers Jean Hartley, 2010 Jean Hartley, born in Kenya, is acknowledged as being the first to legitimise fixing for wildlife film crews. Over the last 25 years, she has worked on over a thousand films, the vast majority being about wildlife and nature. She features five of the great film makers who all started their careers in Kenya in the 1950s, legends whom she is proud to call personal friends. Watching all of their films and many more, she became fascinated by the history of film making.

in Kenya and determined to find out when it all started In this insightful book she traces the roots of wildlife film back a hundred years drawing on accounts of the original film makers and the professional hunters who guided those early safaris She tracks the changes from those grainy speeded up silent films through to the technologically perfect High Definition and 3D films that are being made today **The Last Safari** ,2013 Description Movie Press Kits **Television Western**
