The Kybalion Hermetic Philosophy originally published in 1908 under the pseudonym of the Three Initiates is a book claiming to be the essence of the teachings of Hermes Trismegistus. The Kybalion Hermetic Philosophy originally published in 1908 under the pseudonym of the Three Initiates is a book claiming to be the essence of the teachings of Hermes Trismegistus. Since 1908 it has served as a study of basic Hermetic teachings that outline an ageless wisdom. In ancient times and even today these teachings were not understood by the lay person but were readily understood by students after the axioms and principles had been explained and exemplified by the Hermetic Initiates and Masters to their Neophytes. The purpose of this work is not the enunciation of any special philosophy or doctrine but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study. Our intent is not to erect a new Temple of Knowledge but rather to place in the hands of the student a Master Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered. The Kybalion

*The Kybalion*, 2006-10-01

He was the father of the occult, the founder of astrology, the discoverer of alchemy. He was Hermes Trismegistus and as the scribe of the gods of ancient Egypt, he possessed all divine knowledge which he passed on to humanity though only those who have been tutored in its wonders can fully understand it. In this extraordinary 1912 book, three secret initiates tell his teachings who remain

anonymous to this day share their insight with all who seek to understand the mysterious underpinnings of the universe and our relationship with it An appreciation of Hermeticism as the basis of all paranormal philosophies still studied today is an absolute must for anyone fascinated by magic the supernatural and the wisdom of the ancients     *The Kybalion: A Study of The Hermetic Philosophy of Ancient Egypt and Greece* Three Initiates, Not exactly what it says on the tin Despite the subtitle the Kybalion introduces streams of thought that were never present in the hermetic philosophy of Ancient Greece and Egypt But the occult is a living system subject to enlargement and change and this work remains worth study     *The Kybalion* Three Initiates,2008-12-18 Hermes Trismegistus was an ancient Egyptian a genius elevated to the status of god the father of alchemy astrology and the magical arts The figure of Hermes has fascinated students of the occult for generations and the sages of late antiquity named Hermes Trismegistus as the author of their own esoteric lineage The Kybalion is one of the most recent works in this sacred lineage and it has generated much debate and controversy who are the Three Initiates Initiates to what tradition In this concise and easy to read book the Initiates present the Hermetic doctrine in seven compelling principles and provide practical methods for applying them to personal self development in everyday life     **The Kybalion** William Walker Atkinson,2019-01-09 The Kybalion Hermetic Philosophy is a book claiming to be the essence of the teachings of Hermes Trismegistus We take great pleasure in presenting to the attention of students and investigators of the Secret Doctrines this little work based upon the world old Hermetic Teachings There has been so little written upon this subject notwithstanding the countless references to the Teachings in the many works upon occultism that the many earnest searchers after the Arcane Truths will doubtless welcome the appearance of this present volume The purpose of this work is not the enunciation of any special philosophy or doctrine but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study Our intent is not to erect a new Temple of Knowledge but rather to place in the hands of the student a Master Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered There is no portion of the occult teachings possessed by the world which have been so closely guarded as the fragments of the Hermetic Teachings which have come down to us over the tens of centuries which have elapsed since the lifetime of its great founder Hermes Trismegistus the scribe of the gods who dwelt in old Egypt in the days when the present race of men was in its infancy Contemporary with Abraham and if the legends be true an instructor of that venerable sage Hermes was and is the Great Central Sun of Occultism whose rays have served to illumine the countless teachings which have been promulgated since his time All the fundamental and basic teachings embedded in the esoteric teachings of every race may be traced back to Hermes Even the most ancient teachings of India undoubtedly have their roots in the original Hermetic Teachings     **The Kybalion** Three Initiates,2022-09-15 The Kybalion A Study of the Hermetic Philosophy of Ancient Egypt and Greece is a book first published in 1908 by Three Initiates
