The Last Tanker From Hormuz:

Kuwaiti Tankers United States. Congress. House. Committee on Merchant Marine and Fisheries, 1987 **Developments in the Persian Gulf, June 1984** United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Europe and the Middle East, 1984 **The Gulf Tanker War** Nadia El-Sayed El-Shazly, 2016-07-27 In the 1984 Tanker War Iraq used its superiority in airpower as an instrument in naval warfare in a strategy designed to end combat Iraq hoped to weaken Iran's economy and internationalize the war to force it to cease fighting or remove the government negotiations would follow with Baghdad in a position of strength Although the Iran Iraq War was first and foremost a ground war an argument can be made that the Tanker War contributed to the 1988 ceasefire **Getting Ready for Nuclear-Ready Iran**, 2005 Little more than a year ago the Nonproliferation Policy Education Center NPEC completed its initial analysis of Iran's nuclear program Checking Iran's Nuclear Ambitions Since then Tehran's nuclear activities and public diplomacy have only affirmed what this analysis first suggested Iran is not about to give up its effort to make nuclear fuel and thereby come within days of acquiring a nuclear bomb Iran's continued pursuit of uranium enrichment and plutonium recycling puts a premium on asking what a more confident nuclear ready Iran might confront us with and what we might do now to hedge against these threats These questions are the focus of this volume The book is divided into four parts The first presents the findings of the NPEC's working group on Iran It reflects interviews with government officials and outside specialists and the work of some 20 regional security experts whom NPEC convened in Washington to discuss the commissioned research that is contained in this book Some of this report's findings to keep Iran and others from overtly deploying nuclear weapons or leaving the Nuclear Nonproliferation Treaty NPT are beginning to gain official support The U S Government the International Atomic Energy Agency IAEA and an increasing number of allies now support the idea that states that violate the NPT be held accountable for their transgressions even if they should withdraw from the treaty There also has been increased internal governmental discussion about the need to clarify what should be permitted under the rubric of peaceful nuclear energy as delineated under the NPT The remaining report recommendations which were presented in testimony before Congress in March of 2005 remain to be acted upon **A Vanishing West in the Middle East** Charles Thépaut, 2022-03-24 *A Vanishing West in the Middle East* covers the history of Western cooperation in the Middle East and North Africa since the end of the Cold War Based on more than fifty interviews with diplomats and experts as well as consultations of the academic literature it describes the operational and political frameworks through which the United States and European countries have intervened in the Arab world and how their relations with the region have changed Practitioner testimonies and detailed case studies illuminate U S successes and failures in enlisting allies for campaigns in Iraq Syria and Libya This analysis goes to the heart of the American debate on endless wars but also questions the very concept of Western intervention in a region where the Arab Spring and subsequent uprisings have profoundly changed the geopolitical landscape Today whereas the United States

wishes to pull back from the region Europe understands it must become more involved Whatever their particular motivations both must adapt to an increasingly fragmented Middle East influenced specifically by more assertive Chinese Russian Iranian Emirati and Turkish foreign policies
