Congress,1976 **Bucks County Trolleys** Mike Szilagyi,2020-10-26 Bucks County Pennsylvania was once served by 120 miles of trolley lines During the decades spanning the 1890s to 1950s a variety of trolley cars glided through Bucks County s towns and countryside beginning with Langhorne s quaint open streetcars and culminating with streamlined interurbans streaking across open fields from Sellersville to Quakertown at 80 miles per hour The trolleys were powered by electricity with the line stretching north from Doylestown energized by renewable hydroelectric power generated by the Delaware Canal Before automobiles and trucks were commonplace and before roads were paved the rapid convenient electric trolley was the best mode of travel for both passengers and freight shipments Although the trolleys have almost completely disappeared today the photographs on these pages provide rare glimpses of a long lost mode of travel and charming scenes of Bucks County s soon to be altered landscapes *The Changes Trilogy* Peter Dickinson,2015-05-26 Three dystopian novels by an award winning author that imagine a world where humankind has suddenly and violently rejected modern technology Something has gone very wrong in England In a tunnel beneath Wales one man opens a crack in a mysterious stone wall and all over the island of Britain people react with horror to perfectly normal machines Abandoning their cars on the roads and destroying their own factories many flee the cities for the countryside where they return to farming and an old fashioned life When families are split apart and grown ups forget how they used to live young people face unexpected challenges Nicola Gore survives on her own for nineteen days before she s taken in by a Sikh family that still remembers how to farm and forge steel by hand Margaret and Jonathan brave the cold and risk terrible punishment in order to save a man s life and lift the fog of fear and hate that s smothering their village And Geoffrey and his little sister Sally escape to France only to be sent back to England on a vital mission to make their way north to Wales alone and find the thing under the stones that shattered civilization the source of the Changes Prolific author Peter Dickinson was known for keeping up a page turning pace and these adventure packed novels are some of his most important contributions to science fiction The Guardian This ebook features an illustrated personal history of Peter Dickinson including rare images from the author s collection **Movement** Nicole Gelinas,2024-11-05 A gripping account of how the automobile has failed NYC and how mass transit and a revitalized streetscape are vital to its post pandemic recovery In 1969 as all students of New York City history think they have learned master builder Robert Moses lost his long battle to urbanist Jane Jacobs over his planned Lower Manhattan Expressway The ten lane elevated expressway would have sliced across SoHo and Little Italy demolishing historic buildings and displacing thousands of families and businesses Jacobs and her neighbors defeated Moses and as a result New

York became the only major American city with no interstate highway running through its core Like many global cities though New York had spent fifty years during the first half of the twentieth century trying and failing to tame its heavily populated landscape to fit the private automobile New York has now spent more than fifty years trying to undo those mistakes wresting back city space for people not cars Movement New York's Long War to Take Back Its Streets from the Car chronicles the earlier less known battles that preceded the cancellation of the Lower Manhattan Expressway Jacobs became an example for generations of urban planners but whose example did Jacobs emulate in an earlier victory that saved Washington Square Park Moses may serve handily as New York's uber villain now but who before him was responsible for destroying a critical part of New York's transit system A well respected urban writer who has focused on New York's transportation system for more than a decade author Nicole Gelinas resumes the story where Robert Caro's landmark The Power Broker ended Movement explores how in the half century leading up to the COVID 19 pandemic New York's re-embrace of its mass transit system and a livable streetscape helped save the city Gelinas tackles the 1970s environmental movement the 1980s rebuilding of the subways and more contemporary battles from Mayor Bloomberg's push for more pedestrian plazas and bike lanes in the early 2000s to transportation advocates protests to prevent traffic deaths in the Mayor de Blasio era of the 2010s to how New York's stewardship of its streets and subways have played a critical role during the 2020 pandemic and subsequent recovery Introducing a cast of transportation heroes to rival Jane Jacobs Shirley Hayes Hazel Henderson Richard Ravitch Nilka Martell and puncturing the myth of Moses as New York's anti hero Movement explores how New York City has helped redefine what it means to be a global city not a place that is easy to drive through but a place where people can take transit walk and bike to work to school or just for fun *Caught* Uta
