**The Sino-Soviet Rivalry and Chinese Security Debate** Jonathan D. Moscow's willingness to negotiate key bilateral issues      **The Taiwan Issue In Sinoamerican Strategic Relations** Martin L. Lasater, 2019-07-09 The first two years of the Reagan administration saw a close correlation between improved unofficial relations between Washington and Taipei and a deterioration of strategic cooperation between Washington and Beijing. These developments led many U.S. officials and scholars to conclude that U.S. security interests may require periodic concessions over Taiwan to ensure China's cooperation in countering the Soviet threat. Rejecting this view, Mr. Lasater argues that Washington's and Beijing's bilateral relations with Moscow and not the Taiwan issue are the key international determinants of Sino-American strategic cooperation. Examining the parameters of that cooperation and the role of Taiwan in Sino-American relations, Mr. Lasater suggests that Beijing is deliberately using U.S. security concerns to seek concessions on Taiwan and other issues. He advises a policy that stands firm in negotiations with the Chinese and that resists the temptation to make politically expedient concessions, a more balanced course of action whereby improved relations with Beijing are sought concurrently with the maintenance of friendly unofficial ties with Taipei.

**The Cambridge History of China: Volume 15, The People's Republic, Part 2, Revolutions Within the Chinese Revolution, 1966-1982** Roderick MacFarquhar, John K. Fairbank, Denis Crispin Twitchett, 1991-11-29 In continuing the post-revolution study started in Volume 14, Volume 15 considers the developments in Mao's thoughts and how they related to China's government. The most comprehensive account of this turbulent period in Chinese history.

*The Chinese Defense Establishment* Paul H. B. Godwin, 2019-06-18 Complex issues of national security and defense modernization continue to be a major preoccupation of the PRC leadership. In the 1970s, especially during the second half of that crucial decade, critical decisions were made that led to Beijing's alignment with the West against the USSR and a revitalization of its armed forces. This book looks at China.

Interpreting Chinese Foreign Policy Quansheng Zhao, 1996 This work applies the micro-macro linkage approach to Chinese foreign policy. It analyzes the effect of the international environment and domestic constraints, exploring the key trends of modernization, nationalism, and regionalism, reviewing literature on.

*The Cambridge History of Communism: Volume 2, The Socialist Camp and World Power 1941-1960s* Norman Naimark, Silvio Pons, Sophie Quinn-Judge, 2017-09-21 The second volume of *The Cambridge History of Communism* explores the rise of Communist states and movements after World War II. Leading experts analyze archival sources from formerly Communist states to re-examine the limits to Moscow's control of its satellites, the de-Stalinization of 1956, Communist reform movements, the rise and fall of the Sino-Soviet alliance, the growth of Communism in Asia, Africa, and Latin America, and the effects of the Sino-Soviet split on world Communism. Chapters explore the cultures of Communism in the United States, Western Europe, and China, and the conflicts engendered by nationalism and the continued need for support from Moscow. With the danger of a new Cold War developing between former and current Communist states and the West, this account of the roots, development, and dissolution of the socialist bloc is essential reading.

China in the Era of Deng Xiaoping: A Decade of Reform M.Y.M. Kau, Susan H. Marsh, Michael

Ying-mao Kau,2016-09-16 This is a reference on the ten years 1978 to 1987 of Deng Xiaoping's power in China. It also offers the views of Sinologists of the time. The concluding section examines policy implications arising from Deng's rule for the four great East Asian powers. **China Debates the Future Security Environment** Michael Pillsbury,2000 This study offers over 600 selected quotations from the writings of over 200 Chinese authors published from 1994 to 1999. Analysis and interpretation are kept to a minimum so that the Chinese may speak for themselves. Many Chinese scholars assisted with this study by providing hard to get books and articles unfamiliar to most Westerners. Half the authors were interviewed in China. They explained some of the viewpoints in recent debates about the future security environment. Debates in China are generally concealed and frequently authors pretend they do not exist. However, muted they may be, China's debates about the future nevertheless exist and merit attention if we are to understand the premises of China's national strategy and set a baseline from which to measure any future change in these premises. *The Fate of Nations* Michael

Mandelbaum,1988-09-30 New interpretations of historic episodes in international relations result from a fresh analysis of national security policies and the demands and constraints imposed upon their development by the international system.

He has selectively annotated 12,645 cross-referenced entries and organized them into 27 sub-regional and country chapters, including two particularly extensive chapters on Japan and China and two further chapters on relations between Australia, New Zealand, and the United States and on U.S. and Soviet policy. *Japan And The Pacific Quadrille* Herbert J. Ellison,2019-04-01 This book is based on the papers presented at the 1983 Tokyo conference on East Asian politics. It provides an analytic context for understanding Northeast Asian politics and deals with Japanese foreign policy with focus on the political challenges Japan faced and its changing international role.

**The Dynamics Of Foreign-policy Decisionmaking In China** Ning Lu,2018-02-19 Lu Ning, former assistant to a vice foreign minister of China, draws on archival materials, interviews, and personal experiences to provide unique insights into the formal and informal structures, processes, mechanisms, and dynamics of and key players in foreign policy decisionmaking in Beijing. Lu Ning sheds light on controversial decisions that were made, such as China's entering the Korean War, selling DF-3 missiles to Saudi Arabia in 1986, and cooperating with the Israeli defense establishment. Lu Ning divulges the inner workings of Beijing's foreign ministry, introduces new Chinese language sources, and presents a series of case studies that challenge existing Western theoretical analysis of Chinese policymaking. Based on his examination of the past forty years, Lu Ning makes predictions about likely changes in Beijing's leadership and in its foreign policy.
