Arkin, 2022-04-26 The definitive book about America s perpetual wars and how to end them from bestselling author military expert and award winning journalist William M Arkin The first rule of perpetual war is to never stop a fact which former NBC News analyst William M Arkin knows better than anyone having served in the Army and having covered all of America s wars over the past three decades He has spent his career investigating how the military throws around the word war to justify everything from physical combat to today s globe straddling cyber and intelligence network In *The Generals Have No Clothes* Arkin traces how we got where we are bombing ten countries killing terrorists in dozens more all without Congressional approval or public knowledge Starting after the 9 11 attacks the government put forth a singular idea that perpetual war was the only way to keep the American people safe Arkin explains why President Obama failed to achieve his national security goal of ending war in Iraq and reducing our military engagements and shows how President Trump has been frustrated in his attempts to end conflict in Afghanistan and Syria He also reveals how COVID 19 is a watershed moment for the military where the country s civilian and public health needs clash with the demands of future wars against China and Russia North Korea and Iran Proposing bold solutions Arkin calls for a new era of civilian control over the military He also calls for a Global Security Index GSX the security equivalent to the Dow Jones Industrial Average which would measure the national and international events in real time to determine whether perpetual war is actually making the nation safer Arguing that the

American people should be empowered by facts rather than spurred by fear The Generals Have No Clothes builds a damning case against the status quo Publishers Weekly and outlines how we can take control of the military before it s too late

Atkinson,2010-04-01 The New York Times bestseller about West Point s Class of 1966 by Pulitzer Prize winning journalist and author Rick Atkinson A story of epic proportions and an awesome feat of biographical reconstruction The Boston Globe A classic of its kind The Long Gray Line is the twenty five year saga of the West Point class of 1966 With a novelist s eye for detail Rick Atkinson author of the Liberation Trilogy illuminates this powerful story through the lives of three classmates and the women they loved from the boisterous cadet years to the fires of Vietnam to the hard peace and internal struggles that followed the war The rich cast of characters also includes Douglas MacArthur William C Westmoreland and a score of other memorable figures The class of 1966 straddled a fault line in American history and Atkinson s masterly book speaks for a generation of American men and women about innocence patriotism and the price we pay for our dreams The Agency:

The Rise and Decline of the CIA (Book Two) John Ranelagh,2024-08-08 In 2000 the Washington Post listed The Agency as one of the ten best books on Intelligence in the twentieth century calling it An encyclopedic and fair minded overview of the agency into the 1980s A history of the CIA from its intrepid early days to becoming a mature bureaucracy riddled with scandal and scrutiny During World War II Wild Bill Donovan started the Office of Special Services OSS and gave the CIA its original image dashing Ivy League and Eastern Establishment Successive CIA Directors covered in the book were Allen Dulles Richard Helms William Colby and William Casey The Agency is the first comprehensive history of the CIA a book designed in its author s words to get away from contemporary demonology and to place the CIA firmly within the context of its time a dazzling panoramic overview of the CIA s history Ranelagh mixes keen insights into the organization and the people who ran it with superb accounts of specific crises and operations This brilliant book is so rich both in detail and generalization that even a reader unfamiliar with the history of the CIA will find it hard to put down the book pursues many themes such as organizational changes within the agency and shifts in its sense of mission its relationship with presidents and their advisers and other intelligence agencies the history of specific projects and operations and the general mood within both the CIA and the government and nation at large The result is a complex tapestry full of new information and fresh generalizations Reviews in American History A massive history of the CIA Ranelagh has a good feel for the murky world of

intelligence and has constructed quite a readable work he conducted scores of interviews with insiders and studied more than 7 000 pages of classified and formerly classified documents Great reading and a valuable reference for students of government bureaucracy and intelligence work Kirkus Ranelagh provides here a major overview of the Central Intelligence Agency from its founding in 1947 to 1987 Based largely on hundreds of interviews the book examines the personality and policies of each director in the context of the times Publishers Weekly A comprehensive examination of the CIA Unlike most books on the nearly 40 year old spy organization The Agency is not a diary of old war stories or a flashy expose it is a thoughtful analysis of the CIA from gestation to middle age An important difference between The Agency and many other scholarly treatments of intelligence gathering is the extensive use of quotes from both on the record and unattributed sources as well as documents obtained under the Freedom of Information Act The New York Times A thoughtful analysis of the CIA from its beginnings arguing that dependence on technology has crippled American intelligence The New York Times Mr Ranelagh a British television producer has written the best comprehensive history of the CIA He is in control of the massive secondary literature has used the Freedom of Information Act effectively interviewed widely and mined congressional sources The tone is critical but detached devoid of both the muckraking passion of the left and the self congratulatory approach of the old boy network A fine book Foreign Affairs The Agency is without a doubt the finest best documented and most entertainingly written study of the Central Intelligence Agency CIA of which I know It traces the agency from its first gleam in the eye of Wild Bill Donovan through the first term of William Casey on behalf of President Reagan a genuine literary and stylistic accomplishment Annals of the American Academy of Political and Social Science

Designing Denuclearization Bruce D. Larkin, 2011-12-31 This work canvasses nuclear weapon abolition proposals placed on the table since 1945 and the obstacles and issues which a realistic program for abolition confronts today It has an ambitious purpose to show that nuclear abolition can and should be placed on the public agenda The author terms it interpretive in that it incorporates his commentaries never hiding his reasons and judgments It is neither just the facts nor all the facts It is an encyclopedia in the original meaning of a general course of instruction He identifies himself with all who pursue the problem posed by nuclear weapons systematically and with seriousness of purpose committed to self instruction In another sense he writes this work is a conversation with the Reader What is needed to abolish nuclear weapons His starting point is this As long as nuclear weapons are stockpiled and deployed there is risk of their use which would be catastrophic Abolition however is inconceivable in the absence of a developed and articulated alternative to the nuclear status quo Even with that the politics of abolition bringing the governments of the nuclear weapon states to believe that abolition is in their interest is the sine qua non of achieving a world free of nuclear weapons Larkin's text is written for those whether practitioners or citizens interested in designing and bringing about denuclearization Abolition cannot be achieved by political elites in the absence of broad concurrent public support Governments career policy officials and legislators have chosen to assume responsibility for the public agenda They may be asked must be asked what they will do to bring about denuclearization
