The overall argument includes data from mobilizations in England, Switzerland, Czechoslovakia, Russia, China, India, Argentina, Chile, Cuba, Mexico, Egypt, Tunisia, Iran, Iraq, and Kazakhstan. This new edition has been fully updated and revised with young researchers and students in mind. Timelines are included to familiarise the reader with the events discussed, and discussion questions are framed to increase understanding of the implications, limits, and importance of historical and ongoing social movements.

The Modern Defense Industry Richard A. Bitzinger, 2009-10-15 Whether it's guns and ammunition or multidimensional anti-terrorism systems, the defense industry is dynamic, complex, and ubiquitous.  Defence Integration Martin Trybus, 2005-10-05 This monograph examines the legal dimension of European defence
 integration from the Second World War to the Treaty Establishing a Constitution for Europe It covers the evolution of
 European defence and security law in its legal historical and political context The notion of defence law describes the entire
 field of rules created to regulate the defence of a nation or alliance The analysis leads from the earliest mutual defence
 treaties to the failure of the European Defence Community and the eventual separation of defence from the mainstream of
 European integration in the 1950s further to the re vitalisation of a European security policy in the Treaties of Maastricht
 Amsterdam and Nice In the context of this evolutionary process the book examines the function of Community Law as an
 instrument of European defence integration Community law affects the economic and social aspects of the defence within the
 limits of the security exemptions of the EC Treaty It has an impact on the composition of the armed forces the procurement
 of armaments or the regulation of the defence industries The book concludes with an analysis of the Common Security and
 Defence Policy of the Constitutional Treaty agreed by the European Council in 2004 The discussion shows that European
 defence integration is characterised by fragmentation in an area where coherence is particularly important First defence and
 security are addressed in several organisations the EU the Western European Union NATO the Organisation for Security and
 Cooperation in Europe and the Organisation for Joint Armaments Cooperation Second defence and security are addressed in
 both the supranational Community Pillar and the intergovernmental Second Pillar of the Treaty on European Union The new
 Constitutional Treaty aims to overcome the three Pillar structure of the Union Nevertheless it leaves the intergovernmental
 character of the security and defence policy intact and introduces flexible frameworks for its mutual defence crisis
 management and armaments components However the Union needs a coherent defence policy to ensure her security and to

Lopez,2009-08-07 Foreign affairs practitioners and policy analysts claim that international arms embargoes usually fail due to the lack of political will among national governments to implement and enforce these restrictions This book includes chapters that examine some of the complex cases of arms embargoes such as Iraq Pakistan Angola and Liberia The Treaty on Conventional Armed Forces in Europe Mark Wilcox,2024-03-04 This work examines the CFE Treaty as a factor in Russia s foreign and security policy Moscow showed amazing persistence in their relationship with the cornerstone of

European security Their approach to the treaty was a genuine attempt to shape the security environment in Europe and the former USSR The treaty also enabled the dismantling of large conventional forces as they returned from Eastern Europe and transitioned into the armies of the newly independent states of the former USSR The CFE Treaty though proved ineffective at constraining the enlargement of NATO Simultaneously Moscow s foreign and security policy evolved from one that focused on the domestic development of the country to that of a more confident state reasserting itself as a great power Drawing extensively on primary sources and analyses by Russian authors this book employs two historical narratives case studies and a conceptual framework to show that while Moscow remained engaged with the CFE Treaty undesired effects on Russia s national interests gradually accrued at the expense of desired ones leading Vladimir Putin to withdraw Russia from the treaty as an act of de coupling from the collective West This book is relevant to scholars and policymakers who want to understand Russia s approach to arms control as an element of military security
